Best friend had stroke after one injection. Apartment complex where I work 135 two bedroom apartments - between November 2021 and May 2022 SIX people gasped for their last breath's after being boosted within that five month period. Another elderly lady tested positive for Covid unvaccinated went to hospital and was extinguished with Remdesivir and ventilator.

 **LIKED (81)**  **REPLY (5)** ...

Steve Kirsch  Mar 31  **Author**

it is real anecdotes like this one which are impossible to explain if the vaccines are safe. The Rasmussen poll isn't wrong. But the mainstream media will try to bury it.

 **LIKE (62)**  **REPLY (5)** ...

Bill Rice, Jr. Writes Bill Rice Jr.'s Newsletter Mar 31  **Liked by Steve Kirsch**

Yes, Millions of anecdotes are probably not all wrong. I keep pointing out that tens of millions of Americans had all the Covid symptoms ... b/w Nov. 2019 and early March 2020. Did some percentage of these people with Covid symptoms actually have Covid? I say yes for a lot of reasons ... one of which is that the anecdotes (millions of people who believe they had "early" Covid) can't all be wrong. But we

are supposed to ignore and dismiss a mountain of anecdotes that go against the experts' claims.

When people say trust the experts I think of the time I was building my house and my ex-wife came to me all proud because she killed a queen hornet in the house. Well next day there were a 1000 hornets hanging around in the house. I phoned the local agricultural university and talked to a professor for a suggestion of what to do. I had heard the the hive will "make a new queen" out of a worker hornet. He told me that was non-sense. Well a short while later I learned the expert was wrong and the hive does make a new hornet queen. So much for the expert in this case.

♡ LIKE (14) 💬 REPLY (1) ...

Bill Rice, Jr. [Writes Bill Rice Jr.'s Newsletter](#) Mar 31 · *edited Mar 31*

If we could just get more people to NOT "trust the experts." That's really why I'm working so hard trying to "prove" early spread. The truth for the truth's sake is important, but what would really matter is if more people realized the experts are either clueless or psychopathic liars. Once you begin to doubt ONE of their bogus storylines, you'll start to question all of their dubious assertions.

For example, if you think the experts might have been lying about the real start date of virus spread, you might also be more likely to believe they were also lying when they assured us the "vaccines" were "safe and effective."

I think the "experts" and authorities lie about almost everything. This is the message that would save lives ... if more people began to realize this.

Something someone sent to me this week opened my eyes to the likely source of doctors reluctance to go against the pro vaccine narrative and the enforcement of the vaccine narrative amongst medical licensing boards. I always wondered how all the boards got in alignment for the vaccine so uniformly. It appears they have a mother organization called the Federation of State Medical Boards. It is a long video but very enlightening. If someone "infects the mother ship"

then the infection spreads to all the State boards.

Bill Rice, Jr. Writes Bill Rice Jr.'s Newsletter Mar 31

But the irony is that because they recruited so many "stakeholders" to endorse the faux narratives, there's nobody (who matters) that's likely going to come forward and blow up the false narratives. Because that would disgrace or expose 100 different organizations and millions of trusted officials. It's counter-intuitive. The more actors there are in the conspiracy, the less likely it's going to be exposed.

♡ LIKE (5) 💬 REPLY (4) ⋮

Fred Jewett Mar 31

I think the opposite may be the case. The more people in on the vaccine conspiracy, the more likely someone will squeal on them if a loved one dies of vaccine injury. We have had a few high profile people change from pro vaccine to anti vaccine due to relatives dying from the vax. The King of Thailand comes to mind. My guess it is a tight knit group at the top who can order those under to carry out their deadly assignment without knowing what they are doing. "The Drones" like your GP.

Right on the money, in Australia, doctors are scared witless to speak against the jab. After two years of hounding me at every visit my own doctor has now stopped trying to hound me into taking it. A number of doctors have been deregistered, called to show cause and sanctioned by APHRA.

♡ LIKE (3) 💬 REPLY ...

Debra Mar 31 · *edited Mar 31*

I totally agree with you Bill. I wish more people would not "trust the (so-called) experts" either. How could you be a doctor, nurse or a scientist and NOT KNOW the basics of how antibodies work as Dr. Bhadki has explained it. You don't get the same antibodies when you have a shot in a muscle in the arm as you do in the lungs where you need the antibodies to be.

The problem is, when I've talked with people, they say that they got the vax because they either were afraid of getting sick (so they "trusted" in that case people they would tell me they don't trust (government) - talk about insane thinking - all based in fear) or they "needed to" for work which I can sort of get (but not really if you have any understanding of illegal mandates, freedom, and science). Again fear based. But it's those that wanted to go out to eat in a restaurant or to a club, etc (couldn't miss going out to eat for a few months so they got a freakin kill shot - one guy who told us that ended up with a heart attack and knows it came from the vax) OR they had an employee who would be around others so they felt (stupidly)

employee who would be around others so they felt (stupidly) compelled that they needed to get vaxxed (yes someone told me that), that REALLY perplexes me. Basically, they've disregarded science completely, simply didn't understand any of it, or didn't understand their rights as a US citizen or for that matter a citizen of the world (Nuremberg Code, Declaration of Helsinki, Hippocratic Oath). They completely gave up their freedom for this toxic shot. And what's worse is that when you tell them they're still most likely in danger and should detox, they STILL won't listen. OR, you tell them it's part of a bigger nightmare, they STILL won't listen. These people are complete sheep. They've been abused and will let the abuser abuse them again. This is most people I've met.

Totally agree, you can't be in the government if you haven't learned how to lie extremely well.

Yep. There must be millions of these anecdotes. I've saved probably a thousand. The CDC's ONE study of "archived" Red Cross blood shows that 2.03 percent of a group of blood donors from CA, WA and Oregon already had Covid antibodies by November 2019. You can read some of this evidence at my Substack. BTW, we still don't know when those tranches of blood were tested for antibodies. That blood should have been tested BEFORE the lockdowns of mid-March 2020, but was not. The final study wasn't published until Nov. 30, 2020 - 11 1/2 months after the blood had been collected. And after the presidential election.

Also, a lot more "archived" blood from all sections of the country should have been tested for antibodies. Here's my maxim: Don't investigate that which you don't want to "confirm."

See this analysis of death rates following the mRNA jab in 145 countries. R-code is included. https://vector-news.github.io/editorials/CausalAnalysisReport_html.html

Increased deaths always follow initiation of the mandated injection.

See also the copious evidence gathered at How Bad is My Batch: <https://howbadismybatch.com/>. Look under "Temporal Association."

Several independent analyses have shown that the VAERS under-report rate is about 40. See the "URF" link at HB is MB.

Open VAERS reports 34,819 mRNA jab related deaths: <https://openvaers.com/>

This multiplies to 1.392 million deaths. That number amounts to a global lower limit estimate.

Negative outcomes of the mRNA shot: <https://www.sciencedirect.com/science/article/pii/S027869152200206X>

The mRNA shot is not a vaccine in any classical definition. In September 2021, the US CDC dishonestly revised the definition of vaccine to include the mRNA injection. A deliberate falsehood meant to mislead.

Those who use "vaccine" to describe the mRNA shot are either ignorant or as dishonest as the CDC. Murderously dishonest, we may now say without fear of rational or sane dispute.

Look at what the Australian Government (Australian Bureau of Statistics) is now doing with the excess death data after the 2022 horror show came to a close: "While this publication can provide an indication of where counts of deaths are above or below expectations, it does not provide official estimates of excess mortality." If the ABS isn't 'official', who is? Why are we waiting around for the data still? Unbelievable gaslighting, and they waited until April 2023 for their little 'pronouncement.'

You can help them detox and support their body with supplements. No one should opt to die at the hands of these monsters.

I'd say start with something simply like zeolite powder and humic acid. Zeolite powder (look up zeolitedosing.com to get the correct dosage or by the book by the same person behind that website called Zeolite by Dr Howard Peiper on amazon) binds to the crap in those vials because the zeolite powder is a negatively charged substance and the crap in those vials are positively charged so they can get into the cells and do harm. Humic acid from what I've learned is supposed to neutralize graphene oxide. Pine needle tea due the shikimic acid is supposed to do the same to the spike proteins. Dandelion leaf tea as well and black seed oil (though expensive) too. Also, fasting causes autophagy which is the breakdown of damaged cells which those that are inoculated have in droves. So, just start with intermittent fasting of 16 - 18 hours which would be overnight included. Water fasting is suggested by Dr. Henry Ealy but is recommended only if one is working with a health practitioner who understands how to do it properly and then add in proper supplements. Nattokinase is very important too. It is a systemic enzyme which breaks down fibrin (that form clots). ETDA cream, Dr. Ana Mihalcea who also said that the humic acid neutralizes graphene oxide. She's been working with many people and healing them. She works with the unvaxxed too because of the shedding and she's seen the evidence in the blood of those unvaxxed that they are being shedded upon.

Bottom line, there are so many options for detoxing. Many more then I mentioned. NEVER GIVE UP, NEVER SURRENDER (our family motto from the

Tony Lin Writes Tony Lin Mar 31

Most of your claim is without evidence or cited from untrusted sources.

In one of your post you cited data from CDC, but CDC made many mistakes. Here is one:

<https://www.theguardian.com/world/2022/mar/24/cdc-coding-error-overcount-covid-deaths>

 LIKE (1)  REPLY (1) ...

howbadismycatch is an anti vaccine blog post, not clinical data. At 83, those

unvaccinated are dying at substantially higher rates

<https://ourworldindata.org/grapher/united-states-rates-of-covid-19-deaths-by-vaccination-status?country=~All+ages>

♡ LIKE (7) 💬 REPLY (3) ...

luke Mar 31

I concur that the website you mention is questionable but your statement that the unvaccinated are dying at higher rates is pure medical garbage RJ. The truth is after the first covid variant came out the vast majority of deaths are in the covid vaccinated. The British, Israeli, and European data all confirm this so, you have an agenda and opinion but its total bs.

♡ LIKE (5) 💬 REPLY (1) ...

RJ (Banned) Mar 31

If majority of a population is vaccinated, they'll makeup majority of cases. Your a victim of base rate fallacy and don't understand statistics. Cumulative figures aren't rates dipshit

<https://www.scientificamerican.com/article/how-to-compare-covid-deaths-for-vaccinated-and-unvaccinated-people/?amp=true>

♡ LIKE (3) 💬 REPLY (1) ...

HardeeHo Mar 31

"dipshit" - Quite unkind. At this point nearly all seniors have been vaccinated, won't save them from old age. Getting Covid might be the straw. I'll stick to grandma's sanitation routine over medications of unknown effects.

More to the point, hospitals not knowing vaccination status often code unvaccinated by default. That has been reported by many observers. But the excess deaths of vaccinated people, suddenly dead, are troubling per Ed Dowd's book.

♡ LIKE (2) 💬 REPLY (1) ...

RJ (Banned) Apr 1

ed dowd's claims lack evidence, he actually shared this article yesterday debunking his own book, proving excess deaths are driven by covid, not vaccines

<https://www.actuaries.digital/2023/03/06/almost-20000-excess-deaths-for-2022-in-australia/>

♡ LIKE 💬 REPLY (1) ...

HardeeHo Apr 1

I see a bit of waffling in that report. Still nearly half of the excess without CoV. They assert the Therapeutic Goods Administration is doing good work. Do you have a Dowd quote debunking his work or just a citation that you interpreted your way?

♡ LIKE 💬 REPLY (1) ...

RJ (Banned) Apr 1

Dowd cited the actuary report, which completely debunks his claims on vaccines causing millions of deaths.

Do you have mortality data proving

Do you have mortality data proving his claims correct? No you don't, uneducated anti vaxxer

♡ LIKE 💬 REPLY (1) ⋮

All people at 83 have exceeded expectations. Given that some people were immune to begin with per <https://doi.org/10.1038/s41591-022-01780-9> Challenge Study, not everyone was ever vulnerable. The data from the Princess Cruise suggested that as well. So being old, with other issues along with being vulnerable may result in death. If so, time well traveled. As my oncologists noted when I worried about the CT scans - I'll die of something else before the radiation harms me.

ha ha ha NIH documents from the purveyors of the shots. Of course they are believers. Their pope resides there. Read the paper. They again created a culture just like EVERY "proof of virus" paper. No virus is necessary to create the bogus cultures. Just some snot, bovine serum, monkey kidney cells, antibiotics and other "nutrients". Then run it through a sequencer and

and other nutrients . Then run it through a sequencer and pronounce it another variant of another non-existent virus. You can create the same results without any "virus sample" added to the culture. All fantasy. But keep believing and taking those jabs.

♡ LIKE (3) 💬 REPLY (1) ...

RJ (Banned) Apr 1

NIH is an online library, these are not NIH studies. We got ourselves an uneducated virus denier!

Right from the tissue sample obtained at autopsy. No cell culture needed.

[https://www.thelancet.com/journals/lancet/article/PIIS0140-6736\(20\)31185-5/fulltext](https://www.thelancet.com/journals/lancet/article/PIIS0140-6736(20)31185-5/fulltext)

which biochemical assay do you prefer? and explain the steps. I'll wait

♡ LIKE 💬 REPLY (1) ...

Cousin Clem Writes Cousin's Substack Apr 1

I'm an uneducated virus denier and you're a virus cultist. You keep sending more of the same baloney. "virus-like" particles found. Again, they compare what they allegedly found with a CULTURE. Same old story. Made a culture, called it Sars-Co1 and now we took another culture and compared to what we called Sars-Co1 and since that culture was different, we call it Sars-Co2. Voila, a novel virus discovered. Again, they take a mix of genetic material and compare it to a library of older genetic material which was compared against even older samples and eventually you get back to the source material that everything is compared against and you find it was all made up. All pure unadulterated bullshit. Keep sending more studies. They are all the same. Electron microscope pictures of artifacts doesn't help the case any. Here's a link for you since you like links. <https://viroliegy.com/category/electron-microscope-images/>

And this one might also help <https://drsambailey.com/a-farewell-to-virology-expert-edition/> You'll like this one

because it's got plenty of links as references.

There are many thousands of doctors and (so-called) health professionals that knowingly condemned patients to die by Ventilator and/or the poisonous Remdesivir when they knew they could be saved with proven treatments like Ivermectin and Hydroxychloroquine or in many cases just letting them recuperate naturally with no medication.

This is premeditated murder and genocide on a mass scale. In a better world such Crimes against Humanity would be tried in a Nuremberg court and those found guilty would be put to death. Because justice like this never happens today, there is no downside for evil acts against humanity. So genocidal acts like this will continue until We the People stop it by administering proper justice for Monsters such as this.

The government is totally complicit in the covid crimes against humanity starting with the release of the DOD / China manufactured bioweapon. As such, criminals that they are, they will: lie, conceal, forge, manufacture false numbers and stats to hide their complicity in this genocide because they have their own necks on the line when the truth comes out.

Then we have the Big Pharma criminal enterprises that manufactured and distributed the most toxic shot ever concocted in the history of medicine. With their funding of every single health agency, major medical journals, medical boards, colleges they, like the government will: lie, conceal, forge, manufacture false numbers and stats to hide their complicity in this genocide because they have their own necks on the line when the truth comes out.

If you want to know just how criminal our health care field is read Turtles all the Way Down. It is the most documented book on the criminality of the drug industry and government ever written. And a book that has yet to be challenged or discredited by the death vax crowd because it is entirely factual with documented evidence.

But can we be honest? You wouldn't read this book much less do research on the mass devastation of human life caused by the toxic covid shots because you are not interested in the truth. You are just a lowly paid Flack.

ScuzzaMan 13 hr ago · *edited 13 hr ago*

Yes, the official Covid death numbers are deliberate lies, as were the recommended treatments, as were the bans on existing effective treatments, and these lies were designed to inflate the numbers, to create the appearance of a pandemic.

But Steve hasn't yet seen the depth of evil he's engaged with in this, and probably doesn't want "serious people" to write him off as a crank, so he doesn't go there.

But just take the Portuguese government's numbers for an example:

-at the end of 2020 their official Covid deaths were at 17000.

-by the end of 2021 their official Covid deaths for 2020 were revised down to 152.

There never was a pandemic.

Even if sars-cov-2 really exists (dubious) and even if it really causes a flu-like illness called Covid (also dubious), there never was a pandemic.

Just a ruthlessly murderous plan to impose tyrannical controls "to keep us safe"...

This is stunning but I think the results for "died from covid" are likely wrong and are actually a lot less. For awhile I believed the hospital when they said my mother died from covid. It's on her death certificate as cause of death. Now I believe she died from Remdesivir poisoning.

♡ LIKE (15) 💬 REPLY (1) ⋮

SEF Mar 31

Good point, maybe that is why some people answered "Not sure". And the "Not sure" category matters even more regarding the vaccine, because that means those people DID have a vaccinated person in their household die unexpectedly, but they don't want to make assumptions.

One factor that some may overlook is that of time. We don't know the long-term results of the so-called "vaccines" (which, in my opinion, are slow-kill bioweapons).

How long can people have a dangerous toxin in their bodies?

I think the body count will, unfortunately, continue to grow. (It may, God forbid, grow exponentially.)

For those interested, I arrived at my conclusion (that the c-19 injections are bioweapons), after careful consideration of Karen Kingston's work (as well as many others):

The poll shows me the public is still deeply deceived. COVID deaths are largely due to Institutional malpractice.

Steve, you are the right man for this job. Why don't you run a poll asking how many people died from COVID outside of an institution of care such as care homes, nursing homes and hospitals vs those who did die from COVID in those institutions of care? Wouldn't you like to see those stats? I know I would.

♡ LIKE (10) 💬 REPLY ⋮

Jon Boone Mar 31

Gobbledygook.

Claims about mortality numbers "caused" by the COVID virus are spurious at best. Informed speculation suggests the real numbers are only a fraction of what is claimed--perhaps up to 90 percent less. Intentional misdiagnosis (phony PCR "positives"), combined with intentional

failure to provide proven early medical treatment (HCQ, Ivermectin, et al), combined with intentional use of harmful therapeutics (Remdesivir, ventilators, etc.), all worked with bogus accounting methods to fabricate death counts that reinforced the narrative that there was a genuine "pandemic." Augmenting all this was the changing of definitions to alter the perception of reality--viz., endemics became pandemics, therapeutics became vaccines.

Faces weren't the only things masked. Duplicity and mendacity became the Janus-like face of the medical/industrial complex. Now comes the dubious claim that deaths from the virus basically equal deaths caused by the COVIC fauxines. Which claim is preposterous, yet another mask to hide the truth: The data seems to be showing that the fauxines have killed at least ten times more people than COVID ever did. And that number continues to grow.

Steve--and too many others--please stop participating in this go along to get along chorus that works to placate the medical establishment. The people who run that evil clown show are monsters without measure. They deserve no quarter.

Many counted as covid undoubtedly had influenza, which was not even tested for if they had a positive PCR for covid

 LIKE (2)  REPLY (2) ...

Barney Rubble Writes Rough Draft © Mar 31

For sure 100% agree. PCR test is foundational fraud of entire thing. The "burden of influenza" was renamed "the burden of PIC (pneumonia, influenza, covid)". All being entrapped with a test within 60 days of death using vague assays to conflate the numbers and EVEN being able to PRESUME Covid. Just as is done with influenza. NO TEST fraud needed. Presumption of Covid is literally the 1st box on the chart of differential diagnosis.

To the nuts that get angry from those truths I didn't say you weren't sick. I'm saying you got sick but not from a leaky bat, pangolin, or lab. Get over it. I lost my sense of smell from illness 3X years before 2020.

 LIKE (2)  REPLY (1) ...

Bill Rice, Jr. Writes Bill Rice Jr.'s Newsletter Mar 31

One contrarian point I make in my "early spread" writings is that some people no doubt had Covid and influenza at the same time. That's known or proven but gets little attention. I'm getting ready to publish a story on my Substack proving that ILI cases were "severe" and "widespread" in almost every state in America, beginning in November 2019 and surging in December and January. The vast

beginning in November 2019 and ending in December and January. The vast majority of people who were sick enough to go to the doctor and get a flu test ... tested negative for influenza. And the number of flu tests given was vastly higher than in previous years. Some percentage of those sick people who tested negative for flu no doubt had Covid. And some who tested positive for influenza might have also had Covid. One of the big unreported scandals of this whole pandemic is that the timeline/start date of "spread" has always been wrong. I think some officials intentionally covered this up ... so we could get the lockdowns and later the vaccines.

♡ LIKE (1) 💬 REPLY (1) ...

Barney Rubble Writes Rough Draft © Mar 31 · edited Mar 31

There may have been a surge of flu testing in winter but throughout the pandemic there were a fraction as many flu tests as usual. As low as 10% for many periods. Due to the PRESUMPTION.

International committee of taxonomy of viruses states that Cov2 is an individuum of Cov-2003 or NOT novel. The PCR test fraud was the "start" of the spread since the media is the virus. Whatever Covid is was around at least since 2018 and basically endemic already. Actual danger of Covid iFR factually less than the flu. And primarily driven by iatrogenesis and government and media fear porn, and your weak-ass neighbors.

I'll check your newsletter in any event.

♡ LIKE 💬 REPLY ...

SaHiB Mar 31

I was; tested myself. Wuhan strain wasn't flu. And what's a PCR? That would have required going to a hospital, and convincing them to administer it when I couldn't show I'd recently been to China. PCR was a propagandistic joke. Test Edward Bernays!

Discernment Is key Mar 31

But here's something that doesn't sit right with me. In the beginning - majority of the assumed Covid deaths, a majority of them were due to the elderly being crammed in together, and the way people were treated in the hospital, isn't that a fact? Whereas the deaths happening after the vaccine are happening to a lot of people under 40 years of age! And they're having a heart attacks, strokes, turbo cancers... I think there's a lot more to be deep diving into. Especially now that even my own circle has changed within the past several months. I only knew one woman through a family member that died within 72 hours after being vaccinated when they first rolled out. Now, my husband and I know of a man in his 30s

who died of a massive heart attack, he was fully vaccinated and boosted, he is now dead. By the way, I use the word vaccine loosely. We also know a young man in his 30s, who was out with his family and fell out! They called 911 they picked him up. He was later diagnosed with myocarditis and then shortly after that, he suffered a stroke and has partial paralysis and he is now in physical therapy. Fully vaccinated and boosted. We also are having acquaintances of ours, who we see often, we know they're fully vaccinated and boosted, taking a turn for the worse with their physical wellness! Not making this up! Those around me, some of my family, members and friends, who are unvaccinated, none of us have any lingering issues or problems at least, not yet. I'm surrounded by people who are fully vaccinated and boosted, who have been sick several times testing positive for Covid! But none of my unvaccinated circle has had that outcome. So, there needs to be a more clear way to differentiate these causes. I still hold strong to the opinion a family doctor friend of ours has, that anyone having had Covid already should never be vaccinated because that is a set up for disaster. In between him, and his colleagues, they have stories, they know! A lot of doctors are seeing this and they're staying quiet.

The "Not sure" category is very important regarding the vaccine, because that means those people DID have a vaccinated person in their household die unexpectedly, but they don't want to make assumptions that the vaccine caused it. So if you add in the "Not sure" categories for both questions, it looks like the vaccine deaths will even exceed the COVID deaths. Plus, there is an extra year of opportunity for COVID deaths, since vaccine deaths could only happen since 2021 while COVID deaths could happen since 2020. And finally, a significant percentage of these COVID deaths would have been in the vaccinated anyway, even pro-vaccine sources admit this: <https://www.kff.org/policy-watch/why-do-vaccinated-people-represent-most-covid-19-deaths-right-now/>. Taking all of this into account makes it look much much worse for the vaccine than even the poll suggests.

I see you replied above my comment below and here, so I will repost.

Thanks to Mckeekitty as I forgot to factor the faulty inappropriately used PCR tests.

This chart from CDC updates weekly and you can look at the Table 3 on the chart by year as well as other factors, and the vax wasn't available until December of 2020, with the first on the 14th. The total deaths (US) for 2020 showing as 385 293 and is

with the first on the 14th. The total deaths (33) for 2020 showing as 333,233 and is broken down with more data, and this description at the heading of the chart clarifies the actual deaths. Keep in mind this doesn't account for mistreatment at the beginning of their care, or use of ventilators, med's like Remdesivir, or being left unattended, and lack of nutrients during their final treatment period.

https://www.cdc.gov/nchs/nvss/vsrr/covid_weekly/index.htm#Comorbidities

"Comorbidities and other conditions"

"Table 3 shows the types of health conditions and contributing causes mentioned in conjunction with deaths involving coronavirus disease 2019 (COVID-19). The number of deaths that mention one or more of the conditions indicated is shown for all deaths involving COVID-19 and by age groups. For over 5% of these deaths, COVID-19 was the only cause mentioned on the death certificate. For deaths with conditions or causes in addition to COVID-19, on average, there were 4.0 additional conditions or causes per death. For data on deaths involving COVID-19 by time-period, jurisdiction, and other health conditions"

For over (not much or it's be 6%) of the deaths only 5% ACTUALLY died of covid (see JJ Couey and Dr Paul Alexanders video on the controlled release of covid), and

KellyG (male) American Flag Mar 31

Yes I know, and your response below calling BS on John Mulzano who said there were no deaths from covid and were all vax deaths, just above mine there.

I was confirming your statement about vax date for one, and curious you hadn't called out the data in mine, as the same could be said. I do disclaim the full authenticity of them with concerning factors. Though I do think any of the data can be used for meaningful purposes. I'm sure one could say the figures I broke down by age using the 5% are subject to dispute, and they are. But even if they're off by a minute percent of a percent, when you

look at who they were counting as actual covid deaths by whatever means they were using to determine it, whatever was being released on the people regardless of how and where and including all the extenuation comorbidities involved with both groups it doesn't justify in any way the use of the vaccine on any age group, and especially on those in the younger categories EVER. Reposting the numbers so they're visible though few will look anyway, and I suppose it's irrelevant now.

At the 5% ratio of the 385,923 would be an actual count of around 19,265, and if you break it down by age group it largely fell in the elderly population in with or without.

Age total deaths Attributed to Actual Covid +/- minute %

85+ 122,785 x 5% = 6,140

75 - 84 106,207 = 5,311

65 - 74 82,259 = 4,113

55 - 64 45,553 = 2,278

45 - 54 18,320 = 916

35 - 44 6,779 = 339

25 - 34 2,620 = 131

0 - 24 759 = 38

The point was these deaths from covid were when there was no more covid; it was over. Covid and "vaccines" had very little temporal overlap; officially none at all, despite allegations of lamestream "medical" publications. Some opinions may differ, but I consider Omicron a different disease even if also coronavirus. I have no opinion on Delta since all I heard about it was only rumor.

Age is quite a different breakdown. Flu is sometimes rather hard on youngsters, esp. if aspirin or other antipyretics given them. Covid and variants aren't supposed to be (but antipyretics still not advised - tell the CDC and its Tylenol to pound sand).

Why did the CDC never poll Americans as a "reality check" to make sure they got it right?

The CDC was told that this was a military operation, as was the FDA, and so they were just there for appearances. Hundreds of laws, statutes and executive orders have been changed or created to gradually transition the US and the developed world to a totalitarian state using psyops and propaganda, mass surveillance and tracking, destruction of the economy, destruction of resources, and destruction of society and its people to a manageable number. Releasing a bioweapon was just the kickoff. To deny this is to deny the facts staring you in the face, kind of like how the CDC ignored Steve.

Dr. G Mar 31

We know that Covid deaths were inflated, and therefore families were likely misinformed about cause of death. influenza deaths were pretty much all attributed to COVID-19. We know that families have been gaslighted on the question of "vaccine" deaths and injuries so these numbers are probably underestimating the ratio of "vaccine" deaths to COVID-19 deaths. And the pediatricians and Childrens Hospital's all over the country just keep injecting the babies... who knows what that will bring about?

I do not believe you can prove any covid death. Where are all those billions or trillions of covid

"baddies" or virus thingys in a dead person? The covid test using PCR is bogus and less than 90% accurate and has never been standardized. There is no substantial proof that anyone died directly from covid. What happened to the normal amount of flu related deaths? Pneumonia related deaths? Breathing/lung related deaths? All lumped into covid death stats to increase the fear factor.

Yes, millions have died from the mRNA death injections because quite simply these injections have no other purpose. They do not fight covid, do not stop transmission, do not prevent any disease and do not promote increased health in any way. We are seeing massive interference or destruction of people's blood systems and immune systems after mRNA injections...the more the worse.

This chart from CDC updates weekly shows a different story and you can look at the Table 3 on the chart by year, and the vax wasn't available until December of 2020, with the first on the 14th. The total deaths (US) for 2020 showing as 385,293 and is broken down with more data, and this description at the heading of the chart clarifies the actual deaths. Keep in mind this doesn't account for mistreatment at the beginning of their care, or use of ventilators, med's like Remdesivir, or being left unattended, and lack of nutrients during their final treatment period.

"Comorbidities and other conditions"

"Table 3 shows the types of health conditions and contributing causes mentioned in conjunction with deaths involving coronavirus disease 2019 (COVID-19). The number of deaths that mention one or more of the conditions indicated is shown for all deaths involving COVID-19 and by age groups. For over 5% of these deaths, COVID-19 was the only cause mentioned on the death certificate. For deaths with conditions or causes in addition to COVID-19, on average, there were 4.0 additional conditions or causes per death. For data on deaths involving COVID-19 by time-period, jurisdiction, and other

health conditions"

For over (not much or it's be 6%) of the deaths only 5% ACTUALLY died of covid (see JJ Couey and Dr Paul Alexanders video on the controlled release of covid), and for those who died WITH covid on average died with 4 additional conditions (COMORBIDITIES) or causes per death. For data on deaths involving COVID-19 by time-period, jurisdiction, and other health conditions.

At the 5% ratio of the 385,923 would be an actual count of around 19,265, and if you break it down by age group it largely fell in the elderly population in with or without.

So yes some did die of covid before the vaccine was ever released, how and why is still under investigation by real Doctors, Scientists, and other like Steve Kirsch and Ed Down and more I can't recall right now.

opp's forgot the link

I don't %100 agree with that, but the simultaneously denying people treatment with HCQ and Ivermectin killed the vast majority of people who died from COVID (and let's not forget the fake numbers where people seriously ill with cancer or hearty problems but also got COVID could be counted as "COVID deaths" even by family, especially democrats). So in that sense I agree that just about everyone who died over this did so because of the people in charge of dealing with the pandemic - which it appears they started, too, or had a big hand in.

Not trying to diminish anyone's hard work but I place little faith in online polls, they are only an indicator based on anecdotal evidence. I hold multiple social media accounts on all the platforms I use, each of which can vote in an instant. The reliance is on people's honesty and there is not a lot of that on either side. Until we get a poll that enables a single verifiable vote from the voter. We do have to take them with a grain of salt, especially when extrapolating the result across the broader population. How do you Steve or anyone else and these platforms filter those potential issues out of the final result?

♡ LIKE (2) 💬 REPLY (1) ...

CMCM 22 hr ago

I don't know what would be a good and accurate way to do a poll, but I don't see how a sample of roughly 1,000 people can represent 300+ million people. There must be better ways to do an online poll. Also, I would like to see poll results from different geographical parts of the country.

The word vaccine is disturbing. It's supposed to mean something, which it doesn't. Toxic injections are not beneficial.. they cause stress. If doctors were honestly taught how the immune system works in med school... they would know why these injections don't work. Toxic matter overwhelms the ability of the immune system to do its job. One can't inject poison into the body and expect the body to develop greater immunity. How about putting arsenic into the body? Those who did this would be arrested for poisoning the recipient. A book that opened my eyes which listed all the ingredients in these injections our children had to have, before being permitted to go to public school: Vaccination is not Immunization by Dr. Tim O'Shea. If I'd known this information, I would never have permitted my children to ever receive one shot. In our immediate household - we knew better than to get these abominable injections. However, we personally know family members in other households that took them; even though we warned them not to do it

I posted the following on this medical website:

<https://forum.demed.com/COVID/posts/oYIBb1xKGgR2JtImpbTy>

and on Twitter:

The death toll in the USA from the mismanagement of the Covid-19 illness and the toxic Covid-19 "vaccines" totaled 1.61 million to end 2022. The Covid-19 avoidable American death toll to date exceeds the total 1.1 million American deaths in all their wars.

Deaths attributed to the toxic Covid-19 "vaccines" in 2021&2022 totaled 98,000 Canadians to end2022, increasing to 145,000 by end2023. Justin, Jagmeet and their Liberal and NDP cohorts have killed more than twice as many Canadians as WW2 (44,000).

This is nonsense. While Delta and Omicron continued longer, COVID was essentially over in April 2020. There was effectively no covid over the two years of 2021 and 2022. That's lamestream "medical" publishing spin.

And yes, Wuhan strain could have killed me with choking spasms. (What was with ventilators? peppermint oil and steroid inhalers were far more effective.) However, no one I knew actually died of it. I knew at least 2 who likely died of adverse "vaccine" effects.

BTW, what's "household"? Those are incredible, Jeff Rense-style numbers. Would require at least tens of millions in America died of Wuhan strain. Must have actually had 60% mortality as the woke seem to believe.

Considering the facts that:

1. about 85-90% of Covid deaths would have been prevented with the effective early treatment that the CDC and medical boards so assiduously and actively suppressed, and that;
2. 95% of those whose deaths were marked Covid suffered from an average of 4 comorbidities; then,
3. only about 5-10% of Covid deaths were in fact Covid deaths, and 85% of those were preventable; therefore,
4. it is definitely true that far more people have died from the mRNA shot than died from Covid.

Ancillary 5: all that's needed is one strong-minded state AG to open an investigation. The MSM façade hiding the mass murder will collapse like a sand castle meeting the tide.

♡ LIKE (1) 💬 REPLY (2) ...

SEF Mar 31

A fox guarding the hen house opinion of the "investigators" does not change the fact that the vaccine groups had 4 excess non-COVID deaths (virtually all cardiovascular-related) compared to the placebo groups, which completely negated the reduction of 3 COVID deaths with vaccination. Also, just because you cite fatally flawed non-randomized non-blinded observational data, pretending not to know about healthy vaccine user bias and a whole host of other fatal flaws in such data, that won't make the vaccine deaths go away.

Dead bodies don't lie and all the "government data" in the world won't be able to stop the truth from coming out.

Who said MILLIONS of vaccine deaths? Worldwide, that may or may not be true. But I would bet my last dollar that mRNA vaccines have killed more people than they saved, exactly as the RCT mortality data warned (not even taking into account weakened effectiveness against later variants, inherent mildness of those later variants regardless of vaccination, potential additional risks that boosters pose on top of the primary series, plus likely "sponsorship bias" in the RCTs). But despite its limitations, the RCT data is infinitely more trustworthy than any "government death data" which is not only full of fatal scientific flaws but also much easier to manipulate without serious consequences or liability.

Answer this: if "government death data" are trustworthy, then why did the initial U.S. CDC death data report state a 2021 death rate of 841.6 <https://www.cdc.gov/mmwr/volumes/71/wr/mm7117e1.htm>, but then they quietly corrected it 8 months later to 879.7

<https://www.cdc.gov/nchs/data/databriefs/db456.pdf>, which is a ~5% discrepancy and corresponds to a >100,000 omitted deaths among the U.S. population? Regardless, the 2021 numbers don't look good at all because the 2020 age-adjusted rate was 835.4, and even subtracting COVID deaths, the remaining excess in 2021 corresponds to ~80,000 excess non-COVID deaths compared to 2020. But I would bet that even the corrected numbers aren't revealing the entire bad news.

We'll see what happens once some people say "enough is enough" and force an audit of your beloved "government death data" to examine whether all deaths are indeed being properly counted without any "monkey business". That will settle this debate once and for all.

♡ LIKE 💬 REPLY (1) ⋮

Would bet my last dollar that mRNA vaccines have killed more people than they saved" yet unvaccinated have higher covid and all cause mortality, which is why you deflected. That's what uneducated anti vaxxers do, they deflect

 LIKE  REPLY (1) ...

SEF Mar 31 · edited Mar 31

In the RCTs the unvaccinated did NOT have higher all-cause mortality; that's only in the bias-ridden and very questionable government data.

Since you love government data so much, why don't you explain the 5% discrepancy (corresponding to a discrepancy of >100,000 deaths in the US population) between two CDC reports on US deaths for the exact same year (2021), which I linked to above? How can government data be trusted for accuracy (even aside from all of its scientific biases) when this magnitude of discrepancy was present?

 LIKE  REPLY (1) ...

RJ (Banned) Mar 31 · edited Mar 31

Another pathetic uneducated deflection. Vaccine efficacy trials primary endpoint symptomatic infection secondary severe covid.

Vaccine clinical trials didn't test for all cause mortality. No deaths were considered by the investigators to be related to the vaccine or placebo. No Covid-19-associated deaths were observed.

<https://www.nejm.org/doi/full/10.1056/nejmoa2034577>

Unvaccinated have higher covid and all cause mortality. To answer your other deflection, your looking at two different cdc reports months apart.

♡ LIKE 💬 REPLY (1) ⋮

SEF Mar 31

So as I predicted, you are unable to explain the discrepancy between two CDC reports for the exact same year. The deaths in a given year (2021) are a CONSTANT- the 2021 death rates should be EXACTLY THE SAME between reports and you know it, playing dumb isn't going to help (the 2020 death rates were exactly the same between the reports). Again, let's see what happens when people stand up and force an audit of government death data, to settle this once and for all.

♡ LIKE 💬 REPLY (1) ⋮

RJ (Banned) Mar 31 · edited Mar 31

Provisional mortality figures are constantly adjusted. That's why its PROVISIONAL.

Your deflection shows a lack of understanding.

Why are unvaccinated dying higher rates? as I predicted, you are unable to explain this and deflected

♡ LIKE 💬 REPLY (1) ⋮

SEF Mar 31 · edited Mar 31

When the number of people who died in 2021 is being "constantly adjusted" and finally "corrected" in December 2022 to fix the omission of what amounts to >100,000 deaths, then it is indisputable that that data source is not trustworthy. The so-called "provisional" 2021 report was full of comparisons to 2020 even

though the CDC knew the 2021 deaths were incomplete- a clever way of misleading people into thinking "nothing much to see here" so that they would stop looking, and then the report could be quietly "corrected" later. Who's to say that the "corrected" numbers are not STILL an undercount? Only a proper audit can tell us.

Again, the randomized, double-blind clinical trial data clearly showed that the unvaccinated (placebo group) did NOT have a higher all-cause mortality rate than the vaccinated, even at the height of the pandemic (in fact the trend was in the opposite direction), and that's the only truly unbiased data we have. And in fact, even the aforementioned CDC report of NATIONWIDE deaths (not some cherry-picked agenda-driven data) DOES NOT claim that the unvaccinated had higher all-cause mortality rates. If that were the case, I'm quite sure they would have spelled it out clearly. Their silence is golden.

 LIKE  REPLY (1) ...

RJ (Banned) Apr 1

Okay I see you're just repeating yourself, so lets start from the top, again uneducated scum :)

1. provisional mortality data is provisional, hence the disclaimers all over the cdc website explaining your complete deflection (thats what anti vaxxers do, they deflect from the topic when getting debunked):
"Death counts for earlier weeks are

continually revised and may increase or decrease as new and updated death certificate data are received from the states by NCHS. COVID-19 death counts shown here may differ from other published sources, as data currently are lagged by an average of 1–2 weeks"

2. RCT's on vaccine efficacy don't test for all cause mortality, no deaths were related to the vaccine, placebo or covid, and were not statistically significant.

unvaccinated have higher covid and all cause mortality (links provided above) and of course you have continued to deflect from that point, as it doesn't align with your uneducated anti vaccine bias.

So Richard, you had dozens of studies but you picked two that were funded by Pfizer and BioNTech. These jabs are dangerous. Even CDC's vsafe data tells us that. Of course, the CDC didn't want to release the data until it lost a lawsuit and a court ordered it to turn over the data.

I guess the CDC didn't want Americans to know that over 782,000 people required medical care after the jabs.

So a survey of over 1200 healthcare workers conducted by multiple hospital internal medicine departments, one pediatric department and one university department of statistics should be ignored? So you're saying that many of the healthcare workers were lying?

Study Author list:

Department of Internal Medicine, Central Harnett Hospital (affiliated with Cape Fear Valley Health System), Lillington, NC, USA

Department of Internal Medicine, Campbell University Jerry M. Wallace School of Osteopathic Medicine, Lillington, NC, USA

Department of Pediatrics, Kidzcare Pediatrics, Sanford, NC, USA

Department of Statistics, North Carolina State University, Raleigh, NC, USA

Internal Medicine, Temple University Hospital, Philadelphia, PA, USA

Corresponding author at: Department of Internal Medicine, Central Harnett Hospital, 215 Brightwater Dr, Lillington, NC 27546, USA.

This poll appears to hopelessly conflate virus and vaccine deaths, then further muddies the water by inviting Americans, journeyman virologists at best, to offer their intuitions and surmises on whether vaccine or virus was responsible. Further, the poll sneaks in as a given the indisputability of an existent C19 virus, as it is embedded in the framework of the questions.

The heightened concern among high-income professional men suggests that Ed Dowd's book has been doing the rounds at the country club and gym.

I'm new to the Kirsch line-of-inquiry, so forgive my entry-level questions, but...

Can we extrapolate that Mr. Kirsch is a true believer in the veracity of the C19 virus, which he must be, since he is championing the poll's tallying of 'Covid deaths'. Doesn't this tally implicitly debunk the cannibalized flu mortality figures being 'conscripted in' as C19 deaths thesis, which, if true, would cause us to acknowledge a deviously contrived mis-classification phenomenon, and not a spate of C19 deaths at all?

I note for example that Dr. Michael Yeadon's evolving thesis points to a top-to-bottom Psyop up until the moment of bioweapon injection when we depart the realm of Kayfabe Fear Porn Theatre, and enter clear-and-deadly threat.

Where within this sequence of events we draw the 'Kayfabe Line' has a great bearing, in my opinion, on the veracity, motives and identity of the opposing alt-forces which seem to grow more cacophonous --and nasty-- with each passing day. It's almost a given that Big Pharma will have its influencers in the mix, and that others will be steering the debate towards their own pet snake-oil potions.

Pre-injection (which would include the very notion of an existent C19 virus), Yeadon has been speculating of late that people were frightened into lining up, ostensibly to receive a 'vaccine' (though a bioweapon-in-disguise) to combat a phantom virus. I hope I paraphrase his current thinking accurately.

Is it true Mr. Kirsch is within striking distance of George Soros' and Sam Bankman-Fried as pre-eminent DNC contributor? While this might appear as an out-of-bounds question, it would help to better glean motives, at least in my mind. Can someone either put this to rest as a false rumour or confirm it?

None of this surprises me. There was an msn article a long time ago that stated deaths from the shot were going to be counted as COVID deaths when the shots were new. I was infuriated as the misclassification is blatant. I also knew this would be used to increase the pressure to take the shots. While I've tried to find this article again for a long period of time, I haven't been successful. You can take my word for it or not.

Trouble is Covid cases are down but Vaccine AEs stay elevated. According to Ethical Skeptic (<https://twitter.com/EthicalSkeptic>), Vaccine deaths will surpass Covid deaths sometime this year.

Also, median/average age of Covid deaths is around 80 while Vaccine deaths are among much younger population, median/average of 40s.

People mandating 'experimental' medical products for a disease that do not cause serious harm to healthy working population need to be held accountable. Adding it to Childhood vaccine schedule is inexcusable. Even the WHO advises against vaccinating healthy children and teens now.

So 24 million people died from either Covid or the vax? There are 123 million households in the US. Basic math debunks these numbers.

♡ LIKE (2) 💬 REPLY (2) ...

SEF Mar 31

The poll doesn't measure how many people died, it measures how many people had a "member of the household" who died.

♡ LIKE (5) 💬 REPLY (1) ...

Andrew Mar 31

US households are very small (2.61 people on average), so unless the question was misunderstood as "someone in your extended family" or "someone you know" the result grossly overstates the overall number of deaths.

♡ LIKE (1) 💬 REPLY (2) ...

SEF Mar 31 · edited Mar 31

It probably has to do with the population they polled (most likely it was respondents in higher-risk households to get a stronger signal), I'm guessing most of their respondents probably weren't 30 year-olds with just young kids in the household. If you very crudely take your 123 million, multiply by 0.21 (21 percent is the sum of death probabilities from the poll), and divide that by your 2.61- this brings us to just under 10 million deaths, which is about 5x what we would reasonably expect, so that is not too implausible if the respondents mostly were from higher-risk households. A household with 50-60 year olds will very likely have 10x the probability of experiencing a death than a household with 30 year olds and young kids.

The important aspect is the similarity of the % among "from Covid" v. "from mRNA side effect". Not unimportantly this matches well Steve's poll from last summer. The vagueness of these questions will naturally capture a lot of noise but the similar societal impact is nevertheless noteworthy and of real concern. Given the ~3M deaths per year without looking it up that makes 9-11.5 M deaths for the time period. Overcounting C19 deaths via gross misattribution makes ~1M which we know could be under 10% of that if we control for no other co-morbidities such as fentanyl, gun shots, suicides or insulted a Clinton. Given that, the notion that a similar amount of households can place at least an impact on vaccines to come to ~1M deaths is actually startling.

We're not alone.

I posted the link to the December 2022 Rasmussen poll, which basically implied (let's to a quickl simplified overview) that 41% or 94 million vaccinated Americans experienced side effects from the vaccines, while 16 million Americans had severe side effects.

Fifty-seven percent (57%) of Americans are concerned that COVID-19 vaccines may have major side effects, including 31% who are Very Concerned. Rasmussen claims their polls have a low margin of error with a 95% level of confidence. So, the numbers are staggering.

U.S. population: 334,233,854 (Adults are around 78% = 260,520,000). So, roughly:

1. People worried about major side-effects: 57 % = 148,496,400
2. People very concerned about Frankenshot dangers: 31 % = 46,033,884

If 10% of vaccinated people (230,283,056 people or 69%) have died from the Frankenshot, like the poll claims, that's a whopping 23,028,300 deaths from the vaccines.

And that should explain the sudden \$7 BILLION increase in 'estate and gift' taxes paid to the Treasury Department in February 2023. In the entire country's history they have not seen a spike in estate and gift taxes of that volume. Just saying.

A very interesting statistic not really discussed is how low both the number of people who died from COVID and the number died from the vaccine was for the non-Republican or Democrats called "Other" compared to dems and republicans (it was 5 or 6 percent for "others", with republicans and dems in the mid-teens). The report says that "other" made up %37 of total respondents, so that's a significant number of people. The survey did not ask

now many people in the survey were vaccinated or now many of their nouseholds had been vaccinated. My guess is that the people who did not label themselves as Republican or Democrat (the "other" category) and their families had a low vaccination rate and availed themselves more of things like ivermectin and so had low COVID death rates as well as low vax death rates (and low vaxx rates would also lead them not to get COVID as often as others). I wonder if these people tend to be a bit out of the mainstream, ie, be independent contractors or people working at home and so more off the official radar, or maybe more suburban or country dwellers.

Several questions to consider, how many people died as a result of lack of early treatment? Early treatment that was hidden from the public. Early treat that was demonized by the media and the so called experts.

How many people died as a result of the forced hospital protocols? I say far more died from going to hospital.

Everyone of the people I know that were hospitalized Early in the plandemic, died. They were not unhealthy to begin with. How many elderly died as a result of the treatment they received in nursing homes?

I personally don't think covid itself killed that many people. But when you look at the treatment, protocols or just lack of care...it sure adds up..

My 50 year old sister died from a brain aneurism shortly after her 2nd dose. It was unexpected and sudden. The day before she went to the hospital complaining of dizziness. She also fall while shopping. The hospital basically blew her off and sent her home. The next

She also fell while shopping. The hospital basically blew her off and sent her home. The next morning she was found dead on the florida room floor. I will never trust a hospital again.

I am very, very C-vaccine sceptic but are we now going to prove it/ourselves that the jabs are deadly with a poll (and only of a mere 1000 people)? How scientific is that? An opinion poll. In another substack comment section (Due Diligence and Art) I posted this question:

[All the people I know are still alive and kicking. Again, it's not because I don't see it, it's not happening. Still... all the people around me have that same experience: where are all these dead people from the covid-jab? Statistically they must be there, according to all the numbers and charts etc... but in (my) real life? None! So, how do you expect me to be able to talk about it as nobody (including myself) has no personal experience with it?]

Full comment:

OK, maybe this is a very stupid remark/question, but it's bothering me for a very long time. First, I want to stress that I am a very strong 'vaccin narrative' sceptic, from the beginning, spending at least an hour a day (for the last 2-3 years) reading ALL kinds of stuff regarding the whole covid-story. I do not deny that there are/must be plenty of people having adverse effects or died because of the vaccination. Just as I don't deny that there is at least something (a virus, whatever) that makes people sick (i had 'covid' and besides the regular flu-like symptoms it did mess with my taste and smell for months, something a regular flu doesn't, so it must be 'a new kid on the block' in virus-or-whatever-land). But... I don't know anybody who has died from the jab. Not even via via via. Not a single person. As i do not see many people dying around me after the jab. All the people I know are still alive and kicking. Again, it's not because I don't see it, it's not happening. Still... all the people around me have that same experience: where are all these dead people from the covid-jab? Statistically they must be there. according to all the numbers and charts etc... but in (mv) real life? None! So.

how do you expect me to be able to talk about it as nobody (including myself) has no personal experience with it? Do you understand what i am trying to say?

Vaers 17k x URF 41 = 697k dead from the Blessed Shot. And that doesn't count the suppressed entries that our friend The Eagle has been uncovering. If deaths from 2021 only

show up today, what does that imply? To me - its a CDC coverup. The CDC is guilty of causing mass death first with the vax-pushing crime, and then confessing their guilty knowledge with the coverup.

There's suppressed-V-safe, and the Rasmussen poll, and Steve's poll, and Skidmore's poll, and our own experiences where we know friends and relatives under 40 who have "mysterious new health events" following injection of the Blessed Shot and/or the 8-mouse booster.

In my small under-30 cohort, I see new onset sleep disregulation, tinnitus, shortness of breath/reduced cardio ability, heart pain when lifting weights. No deaths, thankfully. A couple of strokes, one 40-something, one 70-something. I never knew anyone who had a stroke before the Blessed Shot.

"Are you going to believe me, or your lying eyes?", demanded the Narcissistic Pharma Bot.

♡ LIKE 💬 REPLY ...

Ray Apr 1 · edited Apr 1

Scary stuff that few people will believe:

Rasmussen claims their polls have a low margin of error with a "95% level of confidence". Pretty accurate in other words, far more so than the vaccines. If that accuracy rate is true, the numbers are staggering.

The December 2022 Rasmussen poll claimed that:

-- Forty-one percent (41% = or 94 million) vaccinated Americans experienced side effects from the vaccines

-- Seven percent (7% = 16 million Americans) HAD severe side effects

-- Fifty-seven percent (57%) of Americans are concerned that COVID-19 vaccines may have major side effects ...

-- Including 31% who are "Very Concerned"

Let's put this into a simplified, quick overview.

U.S. population: 334,233,854 (Adults are around 78% = 260,520,000).

So, roughly:

1. People worried about major side-effects: 57 % = 148,496,400

2. People very concerned about Frankenshot dangers: 31 % = 46,033,884

If 10% of vaccinated people (230,283,056 people or 69%) have died from the Frankenshot, like the poll claims, that's a whopping 23,028,300 deaths from the vaccines. No adjustment

has been made in these numbers with the 5% error rate Rasmussen claim to have.

These mind-altering figures would explain the sudden \$7 BILLION increase in 'estate and gift' taxes paid to the Treasury Department in February 2023. Not even once in the nation's history has the Treasury been paid that much in a single month although the tax rate was lowered during the Trump administration.... Just saying.

.... but it does align to some degree with Judy Mikovits estimate, based on calculations from PAST vaccine injuries, that over 50 MILLION Americans will DIE from vaccine injuries by the time this fiasco is ended. The estimate did not include vaccine injuries for the poor masses who have to permanently live with it.

This, of course, was debunked right away:

<https://www.reuters.com/article/uk-factcheck-mikovits-vaccine-50-idUSKBN23U2FL>

This paper showed 28x difference against VAERS and using VAERS data including foreign reported (43K) I reckon 1.2M died by Feb more than 1.12M from or with Covid

So this poll is another evidence that deaths are similar, Covid deaths don't account for vaccine induced ADE, and virus had a year head start but is already being chased down by the sacred cow

https://bmcinfectdis.biomedcentral.com/articles/10.1186/s12879-023-07998-3?utm_source=substack&utm_medium=email&fbclid=IwAR1SIYtuF_KIRHUG7i2dgiQje7k6yuifEVnXiUm0eVECoZBoZ2x_yV2EwDE

If it were not for data from Walgreens & insurance company mortality you would not know there is any problem tks to coverup by our fascist, Pravda media, but here's the facts:

Virus Hits 7:1 Vaxxed Over Unvaxxed, Data analyst Ethical Skeptic concludes from CDC, Worldometers, Walgreens data: "A 7:1 appetite in the virus for the recently vaccinated" :

https://www.theepochtimes.com/health/virus-hits-71-vaxxed-over-unvaxxed_4836431.html?src_src=healthnoe&src_cmp=health-2023-03-31&est=vPpCTx6nyocfhnHrpIEAv5bW3K%2B9KRP0s3bIJOTwFkkF1XTGk5KGg197xAZMR1as sZY%3D

Now data analyst "Ethical Skeptic" has compiled updates of some of the databases (Walgreens, Worldometers, CDC) that I examined in book Neither Safe Nor Effective, and sees from the most recent data that COVID vaccinated people are seven times as likely to test positive for COVID as the unvaccinated, after adjusting for proportion of the population in each category and testing penetration in each group. Yes, it is possible that the unvaccinated may feel less interested in COVID testing, but have been more bullied into testing by employers and others (Graph 4).

Accounting for such influences, here is Ethical Skeptic's breakdown, with gradual zoom-ins ...

You clearly don't know that the mRNA jab causes Covid escape mutants.

The only reason people get Covid multiple times is *because* of the mandated mRNA shots. Do you have any cogent idea of the origin of the Covid variants? They're produced by the "*vaccinated*" (sic).

The people at Washington University School of Medicine know that, but they're not saying. Maybe you can ask them why not.

And you, RJ, bugle nonsense in ignorance.

I read that a Life Insurance Agency stated that the death rate has escalated so high that they have never experienced this before. I wonder how people can go along with a mercenary drug industry which is out to feather its own nest? Its made an astronomical amount of money in the past couple years...and many billionaires have been created from the sale of these chemical injections. People I warned died, because they bought into the propaganda.

Clarymond Writes Mother Corps Mar 31

Hi Steve, If Rasmussen used a representative sample, and 11% of respondents had a COVID death in their household, doesn't that extrapolate to closer to 14.5 million COVID deaths (11% * 331.9 million / 2.51 persons per household)?

♡ LIKE 💬 REPLY ...

TS-1 Mar 31

In reality, # vax deaths is probably a lot bigger than # covid deaths because doctors are incentivized to increase covid death count (see video below at 35-minute mark), but no doctor I know of is incentivized to attribute a death to the shots.

VAERS MARCH 10, 2023 Vaccine Adverse Effects Reporting System

1533181 (actually 137,984,919 (One Hundred, Thirty Seven MILLION, Nine Hundred, Eighty Four Thousand, Nine Hundred, Nineteen,) Vaccine ADVERSE EFFECTS REPORTING SYSTEM

See reason for actual amount just below!)

(NOTICE: is only 1% of the Actual Reports that Are REPORTED!

STUDY.....the: HHS \$1 Million Study by Harvard Pilgram Health Care 3 Year Study at . . .

1. <https://digital.ahrq.gov/sites/default/files/docs/publication/r18hs017045-lazarus-final->

[report-2011.pdf](#)

YES that is a .gov / government web site!

2. https://openvaers.com/component/acym/archive/61-the-openvaers-red-box-report?userid=32180-hxtLKGgk1HDuJx&tmpl=component&utm_source=newsletter_32&utm_medium=email&utm_campaign=the-openvaers-red-box-report or at . . . OR <https://tinyurl.com/4jps4df9>

34725 DEATHS =1% of received reports, times 100, minus reports received = 3,437,775 (THREE MILLION, FOUR HUNDRED THIRTY SEVEN THOUSAND, SEVEN HUNDRED, SEVENTY FIVE,) DEATHS by a 100% Synthetic Patented "so-called "vaccine" that just entered PHASE THREE of still TESTING, in just 2023 of human TRIALS!

And they FLUNKED the TEST(S), even if they can not understand simple MATH!

194495 HOSPITALIZATIONS =1% of received reports, times 100, minus reports received =19,255,005 (NINETEEN MILLION, TWO HUNDRED FIFTY FIVE THOUSAND, FIVE) And if there were insurance claims,) (AHRQ), the average insured overnight hospital stay cost about \$14,900 in 2020 ACA (in 2001 when the average cost of a hospital stay was \$6,326.) SO Vaccine ADVERSE SIDE EFFECTS Cost (2020) = \$286,899,574,500 at . . .

<https://www.peoplekeep.com/blog/infographic-how-much-does-a-hospital-stay-cost#blog-section-2>

OR almost, \$300 BILLION HUSH MONEY for Hospital personal, owners, stockholders, gov kickbacks, etc. etc., etc., etc.,!

227340 Doctor's visits =1% of received reports, times 100, minus reports received = 22,506,660 (TWENTY TWO MILLION, FIVE HUNDRED, SIXTY SIX THOUSAND, SIX HUNDRED, SIXTY SIX,) Average visit \$70 and \$250 without "tests etc. SO, that's \$1,575,466,200 to \$5,626,65,000 (without tests)! Mo Money for the cover up gang, See Title 18 U.S.C. Sec. 3 and 4. For "silence that is NOT GOLDEN," but 100% Criminal!

10439 ANAPHYLAXIS (SHOCK,) =1% of received reports, times 100, minus reports received = 1,033,461 (ONE MILLION, THIRTY THREE THOUSAND, FOUR HUNDRED, SIXTY ONE,) OR COSTS of \$643,846,203 to \$3,205,796,022 for *** 100% Synthetic Patented, "nothing form nature," fake vaccines!

See <https://www.talktomira.com/post/how-much-does-an-er-visit-cost> (***) see link below.)

16818 Bells Palsy (palatalized face muscles,) =1% of received reports, times 100, minus reports received = 1,664,982 (ONE MILLION, SIX HUNDRED, SIXTY FOUR THOUSAND, NINE HUNDRED, EIGHTY TWO.)

4949 Miscarriages (murder,) =1% of received reports, times 100, minus reports received = 494,949 (FOUR HUNDRED, NINETY NINE THOUSAND, NINE HUNDRED, FIFTY NINE) "Death

489,951 (FOUR HUNDRED, EIGHTY NINE THOUSAND, NINE HUNDRED, FIFTY ONE,) "death by lethal injection!"

18820 HEART ATTACKS =1% of received reports, times 100, minus reports received = 1,863,180 (ONE MILLION, EIGHT HUNDRED, SIXTY ONE THOUSAND, EIGHTY,) See Urgent Care below to add to the Stats!

26636 MYOCARDITIS / PARICARDITIS =1% of received reports, times 100, minus reports received = 2,636,964 (TWO MILLION, SIX HUNDRED THIRTY SIX, NINE HUNDRED, SIXTY FOUR,) vaccine heart effects.

64205 PERMANENTLY DISABLED, =1% of received reports, minus reports received = 6,356,295 (SIX MILLION, THREE HUNDRED, FIFTY SIX THOUSAND, TWO HUNDRED, NINETY FIVE,) at \$17,690 a year for a household at the median income level, or \$112,442,858,550, (ONE Hundred Twelve BILLION PLUS") just for the middle income, with ONE DISABLED PERSON per household, or hospital (which would a whole lot more per year.)

<https://www.nationaldisabilityinstitute.org/reports/extra-costs-living-with-disability/> More HUSH MONEY!

8578 Thrombocytopenia/ Low Platelet, =1% of received reports, times 100, minus reports received = 849,213 (EIGHT HUNDRED FORTY NINE THOUSAND, TWO HUNDRED, THIRTEEN,)

36950 LIFE THREATENING, =1% of received reports, times 100, minus reports received = 3,658,050 (THREE MILLION, SIX HUNDRED FIFTY EIGHT THOUSAND, FIFTY,) who could have DIED from "ADVERSE Side Effects of a 100% Synthetic Patented, "nothing from nature," (Title 35 U.S.C. Sec. 101 US Patent Law.)

*** https://www.uspto.gov/sites/default/files/101_step1_refresher.pdf

42296 SEVER ALLERGIC REACTION, =1% of received reports, times 100, minus reports received = 4,187,304 (FOUR MILLION, ONE HUNDRED, EIGHTY SEVEN THOUSAND, THREE HUNDRED, FOUR,) which means had to be attended by any AMBULANCE, and be take to an Emergency ROOM!

WHICH would need **URGENT CARE (see below,)

15528 Shingles, =1% of received reports, times 100, minus reports received = 1,537,272 (ONE MILLION, FIVE HUNDRED, THIRTY SEVEN THOUSAND, TWO HUNDRED, SEVENTY TWO,) vaccine infected by a "Shingles is caused by the varicella-zoster virus (VZV), the same virus that causes chickenpox."

And ... "Shingles is more common in people with weakened immune systems and those over 50 years of age!"

SO The 100% Synthetic Patented still in Phase 3 so-called vaccine logically also has

... in the 1990s synthetic patented, still in phase 3, so-called vaccine, reportedly also has "weakened (the) immune systems" of people under 50 and over 50, or, IT has a synthetic "shingles varicella-zoster virus" in the so-called vaccine(s)!"

(That was NOT a question, but a statement of logical "cause and effect!") AND if the person(s) have never had "chicken pox," than, the fake vaccine(s) must "WEAKEN the immune system, rather than IMPROVE the immune system," which is also "logical" seeing 137,984,919 Actual ... Vaccine Adverse Effects Reporting System EVENTS (VAERS.) which was . . .

"Established in 1990, the Vaccine Adverse Event Reporting System (VAERS) is a national early warning system to detect possible safety problems in U.S.-licensed vaccines. VAERS is co-managed by the Centers for Disease Control and Prevention (CDC) and the U.S. Food and Drug Administration (FDA). <https://vaers.hhs.gov/about.html>

And since NO vaccine that is STILL IN TRIAL(S) Phase 3 Stage 3, has NOT been "U.S.-Licenced," so besides, the CDC and FDA have "vaccine patents" among it's TOP members / heads of their ** "Private Corporation" / NGO / than was it really SAFE with just about 138 MILLION ADVERSE EFFECTS, even Death! (That was not really a question neither!) Copied and Pasted under Title 17 U.S.C. Sec 107 for education, and adjudication, with Emphasis for clarity and focus. . . COPIED AND PASTED, bold added for Emphasis . . . link below > ****

Positive Law Titles vs. Non-Positive Law Titles The Code is divided into titles according to subject matter. Some are called positive law titles and the rest are called non-positive law titles. . . . A positive law title of the Code is itself a Federal statute. A non-positive law title of the Code is an editorial compilation of Federal statutes. For example, Title 10, Armed Forces, is a positive law title because the title itself has been enacted by Congress. For the enacting provision of Title 10, see first section of the Act of August 10, 1956, ch. 1041 (70A Stat. 1).

By contrast, Title 42, The Public Health and Welfare, is a non-positive law title. Title 42 is comprised of many individually enacted Federal statutes—such as the Public Health Service Act and the Social Security Act—that have been editorially compiled and organized into the title, but the title itself has not been enacted". . .

The distinction is legally significant. Non-positive law titles are prima facie evidence of the law, but positive law titles constitute legal evidence of the law in all Federal and State courts (1 U.S.C. 204)."

. . . "A positive law title is basically one law enacted by Congress in the form of a title of the Code. The organization, structure, designations, and text are exactly as enacted by Congress. In the case of a positive law title prepared by the Office of the Law Revision Counsel . . . "

**** <https://uscode.house.gov/codification/legislation.shtml>

1. prima facie meaning: 1. Prima = FIRST, Facie = First Look or at first sight (= based on what seems to be the truth when first seen or heard): which when rebutted as such, fails in all legal matters." or based on first impression.

Another "money cow" for the ABAers, about a "made up Fiction," NOT "innocent until PROVEN GUILTY!"

2. FACT: duh HHS, and FDA and CDC is in the NON-POSITIVE LAW (NON-LAW, NON STATUTE,) SEE that MENTION ABOVE ABOUT. . . Title 42 U.S.C., which proves, from [HOUSE.GOV](https://www.house.gov), that they have NO LEGAL, NOR-LAWFUL AUTHORITY to mandate anything, anywhere at any TIME, as they are ALL NOTHING but a NGO = a NON GOVERNMENT ORGANIZATION! That will WIN IN COURT!

"WHO CRIMINAL BLACKMAIL: U.S. Attorney states some Governments and some U.S. Supreme Court Justices have been blackmailed, their family to be killed, the children to be kidnapped and killed or abused. WHO involved in horrible blackmail corruption and linked to Jeffrey Epstein.

Governments are in a triple blackmail system that must be investigated. Bill Gates and the Rockefellers are at the center of all the WHO corruption. This is a depopulation plan and total world control plan. Our governments are not democracies our governments are puppets of a multinational that is making business on people.

Human rights have been ignored and all laws have been broken by the WHO. The Covid Genetic Vaccines are injuring and killing people. The spike protein goes into the reproductive system causing sterilization and potentially modifies the DNA, it causes autoimmune disease and blood clots. It is a bioweapon and crimes against humanity.

The governments are corrupted and violating the Nuremberg Code. WHO is ignoring all ethics and human rights listed in the current charter. They are doing everything against the people. They control the media. Bill Gates has paid all these entities to promote the narrative of the World Health Organization.

A small group of wealthy families including Bill Gates want to Depopulate the Earth, lockdown the planet and use advanced nanotechnology to control the remaining population. They will

continue to use viruses and pandemics to achieve total world control. The Spars Pandemic 2025 - 2028 is already planned.

The WHO system needs to be dismantled and all key players must be brought to justice including Hospitals who were bribed and received money to kill patients. We need to take the money back from the Pandemic."

COVID & CLIMATE CHRONICLES - THE BIG CULL Draft 1 of my free book published 30Mar2023.

<https://allanmacrae.substack.com/p/covid-and-climate-chronicles-the>

Send it to everyone you know - I nailed the Covid-19 fraud in Feb2020.

Note to Steve K:

A poll is NOT the competent way to estimate Covid-19 vaxx-deaths. It is a simple calculation, based on total deaths and an understanding of what was really happening - not the false government narrative..

See COVID & CLIMATE CHRONICLES - THE BIG CULL

<https://allanmacrae.substack.com/p/coming-soon>

The two graphs included there allowed me to calculate total deaths caused by incompetent medical treatment (USA) and the toxic Covid-19 "vaccines".

I recently posted the following on this medical website:

<https://forum.demed.com/COVID/posts/oYIBb1xKGGgR2JtImpbTy>

(excerpt)

There was a large increase in total deaths for all ages after the toxic Covid-19 injections were deployed in early 2021 – deaths primarily caused by the toxic "vaccines".

<https://correctpredictions.files.wordpress.com/2023/02/alberta-total-deaths-1h2015-1h2022.jpg>

Based on Alberta total deaths and the increase post-vaxx I calculated 12.9 million Covid-19-

Based on Alberta total deaths and the increase post vaxx, I calculated 12.5 million Covid-19 vaxx-deaths worldwide to end2022, increasing to more than 19 million by end2023. China is a wild card - not included; possibly India as well.

That death count was just independently verified by Rancourt et al (Feb2023) based on Israeli and Australian total death data, at 13.25 million to 24Jan2023 – the same as my total.

https://denisrancourt.ca/entries.php?id=126&name=2023_02_09_age_stratified_covid_19_vaccine_dose_fatality_rate_for_israel_and_australia

These total global Covid-19-vaxx-caused deaths will increase by at least 1/2 million every month unless we take action. I am trying to make inexpensive, voluntary, over-the-counter "Ivermectin plus" (IVM + Nattokinase?) packages widely available for treatment of the Covid illness and the vaxx-injured. This low-risk, high reward "Ivermectin plus" treatment will save millions of lives.

Front-line Alberta physicians deserve credit for practicing competent, early treatment, such that Covid-19 deaths in Alberta to 1Jul2020 were no different from other flu seasons. Covid-19-related deaths started after the deployment of the toxic Covid-19 "vaccines" and to date have killed ~10,000

Albertans. At current rates, these toxic Covid-19 vaxxes will kill another ~4000 Albertans by end 2023, unless prompt curative steps are implemented – as I've recommended to this government since 20Nov2022.

The toxic Covid-19 "vaccines" have now killed ~98,000 Canadians, more than twice all the Canadian Armed Forces killed in World War II. If we continue as-is, and do not act to treat the vaxx-injured, total

estimated Canadian vaxx-caused deaths will exceed ~140,000 by end2023.

Incompetent, late treatment of Covid-19 patients caused 530,000 mostly-preventable American deaths. The toxic Covid-19 "vaccines" caused an additional 1.08 million American deaths. The death toll in the USA from the mismanagement of the Covid-19 illness and the toxic Covid-19 "vaccines" totaled 1.61 million to end 2022, and it is far from over. The Covid-19 avoidable American death toll to date significantly exceeds the total 1.1 million American deaths in all their wars back to and including the Revolutionary War, the Civil War, WW1, WW2, Korea, and Vietnam.

<https://correctpredictions.files.wordpress.com/2023/03/total-deaths-usa-to-end2022.png?w=1024>

"At a high level, corruption stems from the systemic disrespect of a nation's institutions and

legal system, especially by those in power. . . .The hallmark of virtually all corruption is 'playing dumb'."

Any time Government and corporation merge programs and agenda together you have pure unadulterated fill blown FASCISM!!

Government bonded with Big Pharma, Media and Bureaucratic government agencies such as the CDC, the NIH, and the FDA all motivated by MONEY, GREED & POWER. Especially compliant doctors and their pharmaceutical sales reps!

What did their agenda achieve??

Countless deaths, untold suffering, perpetual DNA modification of the vaccinated bodies, economic destruction the death of generations of children and loss of loved ones. AIIALL DRIVEN BY THEIR FRANKENSTEIN VACCINE .

Well? Pay close attention to what GOD had to say about those perpetrators of SORCERY & EVIL WICKEDNESS. Listen carefully you such such people who WILL BE HELD ACCOUNTABLE! Ther will be NO ESCAPE:

Exodus - 34: 6,7,8

Exodus 34:5 The Lord descended in the cloud and stood there with him as he called upon the name of the Lord.

Exodus 34:6

Then the Lord passed by in front of him and proclaimed, "The Lord, the Lord God, compassionate and gracious, slow to anger, and abounding in lovingkindness and truth;

Exodus 34:7 who keeps lovingkindness for thousands, who forgives iniquity, transgression and sin; "yet He will by no means leave the guilty unpunished, visiting the iniquity of fathers on the children and on the grandchildren to the third and fourth generations."

No escape , none. You agents are assured punishment !

Eleven (11) percent of households report someone in their household dying from Covid? WTF? In my county of 33,000 I think the "official" death number from Covid is 30. That's fewer than 1 percent of one percent.

I remember a quote from a couple years ago from the CEO of Gallup who said that if his organization did a poll on the people who are really unemployed, people would have a conniption fit. Because the percentage is NOT what the authorities say (4 percent or whatever). It might be 20 or 30 percent.

So they know what polls NOT to perform. Just like all the corporate "journalists" know which investigations they can't perform.

♡ LIKE 💬 REPLY (2) ⋮

Real unemployment is around 25%:

http://www.shadowstats.com/alternate_data/unemployment-charts

However, that is based on govt numbers and the known ways that the govt is suppressing the actual count. What should also be taken into account is Ed Dowd and company's calculations which is calculating self-reported disabilities (not all disabled people have applied for disability benefits so they aren't counted in govt numbers) and work absence due to illness, which is also not tracked by the govt.:

Milehijules Writes milehijules on the 4IR Mar 31 · *edited Mar 31*

You'll get no disagreement with me. I'm not sure what govt data can be trusted anymore. The CMS (Medicare and Medicaid) data were showing significant impacts from the shot, 45k dead by end of spring 2021. An internal whistleblower wrote an affidavit on it, so it appears that the issue was raised but ignored = CMS knew what was going on and helping to cover it up.

Years ago, and probably still true, is that unemployment numbers are based on filed claims with Unemployment Insurance. This does not include people not eligible for Unemployment Insur or those whose insurance has run out but are still unemployed. It does not include younger people who cannot find work, or steady work or full time work. This is how those numbers are manipulated to lessen the reality. And these numbers clearly do not look at the low wages of people who are still eligible for Food Stamps and other govt support programs which means many more who are effectively unemployed even tho officially working.
