

# Was the Whole Pandemic About the Vaccine?

Analysis by [Dr. Joseph Mercola](#) ✓ Fact Checked

## STORY AT-A-GLANCE

- > Could it be that the whole COVID-19 pandemic was about the vaccine and getting a global mass vaccination campaign underway for population control purposes?
- > Recent weeks have seen a significant rise in vaccination incentives in the U.S., from free doughnuts, cake, french fries, hot dogs and pizza, to arcade tokens, 10-cent beer, free state park season passes, free Uber and Lyft rides, free marijuana and Cincinnati Reds baseball tickets, a chance to win a full scholarship and even \$1 million and \$5 million giveaways
- > Meanwhile, the U.S. Vaccine Adverse Events Reporting System has logged more deaths following COVID-19 vaccination than all available vaccines combined over a 15.5-year period
- > Former COVID-19 patients are even pushed to get the jab, even though they already have superior immunity and studies show they have a far higher risk of severe side effects from the vaccine, and North Carolina has passed legislation that allows children as young as 12 to get the COVID vaccine without parental consent
- > COVID-19 vaccines might perform as a “depopulation weapon” by triggering antibody-dependent immune enhancement, making you more susceptible to severe COVID-19 if exposed to the virus. Antibodies against the spike proteins may also attack syncytin-homologous proteins essential for the formation of placenta, which could result in

infertility. Overall, the shots may destroy your innate immunity and set you up for rapid onset of debilitating illness and premature death

In my opinion Dr. Peter McCullough is one of the most courageous well credentialed academic physicians out there and I hope to interview him soon. He is vice chief of internal medicine at Baylor University Medical Center and despite his impeccable credentials, he has been vilified for stating during the very beginning of the COVID-19 pandemic, that it was all about the vaccine and getting a global mass vaccination campaign underway.

"All roads lead to the vaccine," McCullough said in a recent interview (video above<sup>1,2</sup>), with stakeholders banking on countries mandating the vaccine worldwide. The first video above is a 16-minute outtake from a much longer interview, which is the second video.<sup>3</sup>

McCullough points out that a number of countries are already talking about making the as-yet unlicensed COVID-19 vaccine compulsory, meaning anyone and everyone can be forced to take it against their will. "That's how bad stakeholders want vaccination," McCullough says. "They do want a needle in every arm. But why?" That's the million-dollar question right there.

## **Unbelievable Incentives Offered**

Recent weeks have seen a significant rise in all sorts of vaccination incentives in the U.S., from free doughnuts, cake,<sup>4</sup> french fries, hot dogs and pizza,<sup>5</sup> to arcade tokens,<sup>6</sup> 10-cent beer,<sup>7</sup> free state park season passes,<sup>8</sup> free Uber and Lyft rides,<sup>9</sup> free marijuana<sup>10</sup> and Cincinnati Reds baseball tickets,<sup>11</sup> a chance to win a full scholarship<sup>12</sup> and even \$1 million<sup>13</sup> and \$5 million<sup>14</sup> giveaways.

Below is a more complete list of incentives, posted on [vaccines.gov](https://vaccines.gov).<sup>15</sup> As you might expect, the million-dollar lotteries have proven to be a resounding success, credited with enticing millions of people to get their shots.<sup>16</sup>

As noted by Ohio's first "Vax-a-Million" lottery winner, "the chance of a windfall was too great to resist. "I kept hemming and hawing about it, and I work all the time, and when the Vax-a-Million thing started I immediately went down there and got it. It pushed me over the edge," he told a local paper.<sup>17</sup>

To say the vaccine push has an air of desperation about it would be a profoundly serious understatement.

Considering the U.S. Vaccine Adverse Events Reporting System (VAERS) has logged more deaths following COVID-19 vaccination than all available vaccines combined from mid-1997 until the end of 2013<sup>18</sup> — a period of 15 1/2 years — one has to wonder why our leaders are so insistent on everyone getting these experimental gene therapies.

They're even pushing for former COVID-19 patients to get the jab, even though they already have superior permanent immunity<sup>19</sup> and studies show they have a far higher risk of severe **side effects** from the COVID jab.<sup>20</sup>

If it's really about protecting the public against COVID-19, why aren't recovered COVID patients — whose protection is far superior to vaccine-induced immunity — offered some sort of immunity passport or granted access to sporting events or education that is now only granted to those with vaccine certificates?

What's more, North Carolina has now passed legislation that allows children as young as 12 to get the COVID vaccine without parental consent.<sup>21</sup> Think about that. As of May 21, 2021, 4,406 Americans had died after the COVID vaccine,<sup>22</sup> including three

teenagers,<sup>23,24,25,26</sup> and 12-year-olds are now being encouraged to make a life and death decision without their parents?

As noted by McCullough, historically, the threshold at which an experimental vaccine program is shut down is 25 to 50 deaths, yet here we are, with over 4,000 deaths being reported in the U.S. and many thousands more in Europe.<sup>27,28</sup>

In a recent report, the Israeli People Committee, a civilian body of health experts, similarly concluded that "there has never been a vaccine that has harmed as many people."<sup>29</sup>

After vaccinating 45 million with the pandemic swine flu vaccine in 1976, the U.S. stopped the program after only 25 deaths.<sup>30</sup> (The number of deaths reported after the 1976 inoculation program varies from three to 53, depending on the source.<sup>31,32,33,34</sup>) And let's remember this too: If something goes wrong, the vaccine manufacturers are completely indemnified against lawsuits. You're on your own.

## Mass Vaccination Is a Beyond Terrible Strategy

As a physician, McCullough is no longer recommending this vaccine, and other prominent virologists and physicians are calling for a stop to the program. Sadly, many are complying simply because they're desperate to get back to the "normal" they knew before, of sending their children to school, keeping their job and leading the life they had before the pandemic.

Don't do it, McCullough says — don't fall for this trap because it's only going to make things worse. By **vaccinating everyone** against a very narrow spectrum of immunity — the original SARS-CoV-2 spike protein, which has since mutated in any number of ways and no longer exists — "we are setting ourselves up for a superbug that's going to wipe out populations," he says.

As such, the COVID-19 vaccine is a bioweapon, McCullough warns, and the side effect concerns are "far beyond anything we have ever seen ... Americans should be extraordinarily alarmed."

## **What's This Vaccine Program Really About?**

Why is the vaccine pushed in this way? McCollough believes it's a global goal to "mark" people, to get you into their vaccine database, which will eventually be turned into a tool for population control, courtesy of vaccine passports.

When we're talking about population control, there are two distinct forms, and both may apply in this case. One form of population control is about controlling people through the ideology of utilitarianism, vaccine passports and a social credit system, all of which are tied together. Another form is actual depopulation.

## **Population Control Through Utilitarianism and Vaccination**

Utilitarianism is based on a mathematical equation that some individuals can be sacrificed for the greater good of the majority. In other words, if some people are harmed by vaccines, it's an acceptable loss because society as a whole may or will reap gains.

This discredited pseudo-ethic has repeatedly been used to justify horrific human rights abuses. The Third Reich, for example, employed the utilitarian rationale as an excuse to demonize and eliminate minorities judged to be a threat to the health, security and well-being of the State.<sup>35</sup> Now, utilitarianism is being called upon yet again, under the false narrative that mankind as a whole is in peril unless everyone rolls the dice and gets vaccinated.

In the end, the idea is that vaccine refusers won't be allowed to freely participate in society any longer. This is the disincentive or negative incentive, which is added on top of the positive incentives previously mentioned.

While U.S. government officials realize they cannot mandate vaccination on a national level, as it would be a direct violation of the U.S. Constitution, they are pushing for it nonetheless by encouraging private companies to mandate vaccination as a condition of employment or access to services. They're also spending billions of dollars on advertising in conventional media, paid for by U.S. taxpayers.

In short, vaccine passports are a way to force compliance. But the vaccine database can also form the foundation for a much larger control structure, a social credit system, where you lose points any time you behave in a way that is deemed undesirable.

This quite literally could be anything, judging by the Chinese social credit system. People with low social credit scores can't travel on certain kinds of public transportation, can't travel overseas, hold certain jobs, go to school or even get a loan.

The point is, once you're in this system, you're under someone else's control. If they say you have to get a booster shot, you have to comply – again and again – or risk losing basic human rights, such as the ability to buy and sell, travel or get an education.

## **The Depopulation Agenda**

The other form of population control refers to actual depopulation. A primary problem the global elite have been trying to solve for a long time is that there are too many people consuming too much of the world's perceived limited resources and polluting everything in the process. The answer, in their mind, is to reduce the global

population.

While birth control and abortions are promoted to help with this, these strategies aren't effective, or rapid, enough. They need a less fertile population and they need people to die sooner.

**“ I believe [COVID-19 booster shots] are going to be used to damage your health and possibly kill you. I can see no sensible interpretation other than a serious attempt at mass depopulation. ~ Michael Yeadon Ph.D.”**

While many may not want to believe this could possibly be true, you have to remember that the intention is not to cause suffering per se. It's a form of self-preservation, as their end goal is to concentrate all the world's wealth into their own hands. Ultimately, that's [what the Great Reset is all about](#).

In the interview above, which is part of the full-length documentary "Planet Lockdown,"<sup>36</sup> Michael Yeadon, Ph.D., a life science researcher and former vice-president and chief scientist of allergy and respiratory research at [Pfizer](#), shares his views on the COVID-19 pandemic and his fears about the COVID-19 vaccines.

*"Basically, everything your government has told you about this virus, everything you need to do to stay safe, is a lie," Yeadon says. "And if they're not telling the truth, that means there's something else. And I'm here to tell you that there is something very, very bad happening. If you don't pay attention, you will soon lose any chance to do anything about it."*

## **Will Booster Shots Be the Death Knell?**

Of all the lies we've been told over the past year, the ones that worry and frighten Yeadon the most are the lies about virus variants and booster shots. In fact, he believes not buying into these lies may be key to your very survival.

*"When your government scientists tell you that a variant that's 0.3% different from SARS-CoV-2 could masquerade as a new virus and be a threat to your health, you should know, and I'm telling you, they are lying," Yeadon says.*

*"If they're lying – and they are – why is the pharmaceutical industry making top-up [booster] vaccines? ... There's absolutely no possible justification for their manufacture. And the world's medicines regulators have said, 'Because they are quite similar to the original vaccines ... we won't be asking them to do any clinical safety studies' ...*

*There's no possible benign interpretation of this. I believe they're going to be used to damage your health and possibly kill you. Seriously. I can see no sensible interpretation other than a serious attempt at mass depopulation.*

*This will provide the tools to do it, and plausible deniability. They'll create another story about some sort of biological threat and you'll line up and get your top-up vaccines [booster shots], and a few months or a year or so later, you'll die of some peculiar inexplicable syndrome. And they won't be able to associate it with the vaccines ...*

*Given that this virus represents, at worst, a slightly bigger risk to the old and ill than influenza, and a smaller risk [than influenza] to almost everyone else ... we didn't need to do anything. [We didn't need] lockdowns, masks, mass testing, vaccines.*

*There are multiple therapeutic drugs that are at least as effective as the vaccines are. They're already available and cheap ... An off-patent drug called ivermectin, one of the most widely-used drugs in the world, is able to reduce symptoms at any stage of the disease, including lethality by about 90%. So, you don't need vaccines and you don't need any of the measures that have been introduced at all."*

## **Why Have Effective Treatments Been Suppressed?**

Like Yeadon, McCullough has raised serious questions about the need for a vaccine. Evidence clearly shows there are highly effective treatments,<sup>37,38</sup> yet they've been near-universally suppressed in favor of these experimental shots. Why? If it's about protecting public health and saving lives, why would effective treatments be vilified?

As noted by McCullough during a roundtable discussion in the first of several U.S.-based tribunals on COVID-19,<sup>39</sup> something very unusual happened in 2020. For the first time, doctors around the world were actively discouraged and prevented from saving their patients. There was "an enormous, complete, pervasive, steadfast suppression of any attempts to help patients with COVID-19," he said, adding:

*"We seem to somehow have developed a uniform game plan ... to passively allow as much suffering hospitalization and death as possible, create enormous amounts of fear in our society, and then be prepared for mass vaccination."*

Disturbingly, there's evidence suggesting the COVID-19 vaccines might indeed perform as a "depopulation weapon" of sorts. For example, there's the potential for formation of non-neutralizing antibodies that can trigger an exaggerated immune reaction (referred to as paradoxical immune enhancement or antibody-dependent

immune enhancement or ADE) when the individual is exposed to the wild virus post-vaccination.<sup>40,41,42</sup>

I've detailed this issue in several articles, including "[How COVID-19 Vaccine Can Destroy Your Immune System](#)" and "[Will Vaccinated People Be More Vulnerable to Variants?](#)"

Put plainly, the vaccine may increase susceptibility to the virus and make people more likely to die from the infection, and data<sup>43</sup> now show COVID-19 deaths are spiking around the world right along with rising vaccination rates, even though countries were trending toward herd immunity and deaths were at an all-time low right before the vaccines were released.

The [mRNA vaccines](#) also trigger your body to produce antibodies against the SARS-CoV-2 spike protein, and the spike proteins in turn contain syncytin-homologous proteins that are essential for the formation of placenta.<sup>44</sup> If a woman's immune system starts reacting against syncytin-1, then there is the possibility she will miscarry if pregnant and ultimately become infertile.

Mass vaccinating children and women of childbearing age against COVID-19 is a profoundly bad idea that could cause mass infertility if the COVID jab triggers an immune reaction against syncytin-1.

We also now know that the worst symptoms of COVID-19 are created by the [SARS-CoV-2 spike protein](#), and that is the very thing these gene-based vaccines are instructing your body to make. What's worse, the spike protein your body creates is a genetically modified version that appears far more toxic than the spike protein found in the actual virus.

This was discussed in great detail in my interview with Stephanie Seneff, Ph.D., and

## Judy Mikovits, Ph.D., featured in "[The Many Ways in Which COVID Vaccines May Harm Your Health.](#)"

Like McCullough and Yeadon, Mikovits believes the COVID-19 vaccine is a bioweapon designed to destroy your innate immunity and set you up for rapid onset of debilitating illness and premature death. She too suspects many will die rather rapidly. "It's not going to be 'live and suffer forever.' It's going to be suffer five years and die," she says.

While the death toll from COVID-19 vaccines is already at a historical level, I fear it may shoot far higher as we move through fall and winter. The reason for this is ADE.

Fall and winter are the seasons in which most coronavirus infections occur, be it SARS-CoV2 or other coronaviruses responsible for the common cold, and if ADE does turn out to be a common problem, then vaccinated individuals may in fact turn out to be at significantly higher risk of severe COVID-19 and a potentially lethal immune reaction due to pathogenic priming.

## Will You Gamble Your Life?

In my view, there are still so many potential avenues of harm and so many uncertainties, I would encourage everyone to do your homework, keep reading and learning, weigh the potential pros and cons, ignore all pressure tactics and take your time when deciding whether to get any of these [COVID-19 gene therapies](#).

And, if you or someone you love has already received a COVID-19 vaccine and are experiencing side effects, be sure to report it, preferably to all three of these locations.<sup>45</sup> While adverse effects and deaths have thus far been ignored, we need as much data as possible if we're to have any chance of stopping this mass vaccination campaign and push toward population control.

Because there is a rising chorus of loud protests by learned microbiologists, vaccine experts, etc. the Global Reset and a "needle in every arm" will not succeed. Too many lives have been sacrificed and those stories are widely available on many websites.

The tens and hundreds of millions who face death in coming years are those who have been vaccinated with Western experimental gene therapy shots. These are not vaccines.

The unravelling of Fauci will expose other Deep State players. China will expose them too as China is not going to take responsibility. China has a massive file of these players.

As for saving the millions who are vaccinated, traditional therapies, herbs, proven medicines, etc. will come into play. The day of Big Pharma facing a major backlash from the public, is also coming.

I see a Revolution in Medicine coming.

Your no-nonsense post is the reason I come to this site. Having no, and I mean none, bio/tech/virus/science background, I want to survive and it is necessary for me to know how I should lean, believe, and avoid the traps set by the biblical money changers, and you have made it so clear and believable. Posters like you and Dr. Mercola's no nonsense low-cost protocol of supplements have made me wary and armed (knowledge) and are most likely the reason I have not been sick for years at 84. No vaxx, no pharms, no masks, and I am, as a non-pro, in complete control of my health. Thank you.

panyusg - The need for a revolution is becoming apparent to many who are paying attention. However, before it occurs in medicine it must occur in the way we structure businesses, corporations and non-profit organizations. As long as big business and non-profits are allowed to continue to impose programs that enslave us and force jobs upon the unsuspecting, then a mere revolution in medicine will soon be overtaken by the status quo. I cite the organic farming movement as an example of an industry that has been completely usurped by the status quo.

And let it serve as a warning to us all next time they try to pull this again (and they will).

Educate your children and your children's children about this atrocity committed against the nations and their people. I keep hearing how it will be the generation of kids now that will fall. If you've taken the j@b, admit to them that so many were fooled and it was a ploy. We must remain vigilant.

I agree "...the Global Reset and a 'needle in every arm' will not succeed". The so-called great reseters will not like it when they see the masses rising up to reset their reset. We are all in this together and must continue to organize our response around the world. It will probably require a separate internet as mentioned by Reiner Fuellmich, the German lawyer currently bringing legal action. Krofter, the solution is to start a parallel economy. I won't work for or buy from any big business supporting this fascism. I grow microgreens to sell and do mending in my local neighborhood for cash. I earn a little bitcoin online (for now) since it won't inflate. As the dollar continues to collapse, get precious metals and pay off that mortgage. I firmly believe WWII is underway. Pretty soon there won't be companies to work for or cruises to take or stadiums to go to. They want the whole enchilada to burn.

panyusg, a rising chorus? Where? Public backlash? With 150 million Americans injected? You are dreaming. The overwhelming forces of the police and military will never allow it. Fauci, like Blair and George Dubya, will walk. The super rich control everything including the courts. It is dangerous to assume 'right' or 'justice' or any such thing will save the day. "...experimental gene therapy shots. These are not vaccines."

Nor are those shots necessarily therapeutic-- the way that word has become ubiquitously linked into said phrase strikes me about the same as the euphemistic use of 'ethnic cleansing' to describe Genocide.

Can't help agreeing with Watsonandco. A bit premature, judging by the number of sheeple, still wearing muzzles 18 months after the start of the scandemic and still glued to the British Brainwashing Corporation for their daily injection of propaganda and lies; major UK High Street retailers with more staff than customers and fatuous notices on the floor indicating where to stand. On a normally busy Saturday afternoon, a bored young man employed as a doorman checking muzzle compliance, probably grateful for any kind of paid employment, enquires about my unmasked face. I tell him it's a satanic ritual and he beats a hasty retreat. I ignore the table placed at the entrance with ritual hand washing facilities and proceed to the checkout but struggle to figure out where it is as there are no assistants and no other other customers. It reads like a Harry Enfield sketch of 20 years ago satirising various politically incorrect aspects of British life which would be unthinkable now to portray on national television, indicating how far we have sunk into the totalitarian abyss.

This is dated February 2021, but it's still worth listening to. Dr. Fuellmich is consistent. He's the sort of person who will explain himself if he changes an opinion. Lot of lawyers don't do that, when they should.

I like his description that only if a virus enters your cells and replicates are you contagious and that is when you have symptoms.

A lot of URL's indicate a load of people have latched onto the 1,000 lawyers and 10,000 scientists as a headline and they are helping Dr. Fuellmich. Dr. Fuellmich says this is not true and that there

are lots of stories "out there." What I want to know is if they've published a docket for July yet and is this true, is Dr. Fuellmich's scheduled to start trial in July? I sent my question to the town of Nuremberg and Dr. Fuellmich's URL. I'll post the info if I get a reply.

thank you, panyusg. i hope and pray you are right and the day of reckoning is near for Big Pharma, Big Tech, and most importantly, the head of the snake, the WEF, with all of it's global members. I for one am hoping that the awakening they didn't expect out of this will backfire on them. I mean, before COVID, how many really knew about all of the evil plotting that was going on behind the scenes over decades prior? A lot of us knew Big Pharma was demonic with one self-serving, profiteering goal in mind, but I personally hadn't heard of Klaus and the WEF, nor had I connected the dots backward with Rockefeller and many elected officials along the way. this is SO HUGE, but now it's not a SECRET!!

I concur. Something like this happens about every 3 or 4 generations, when few who remember the last time have died off. I see the dominoes beginning to fall. The exposure of Fauci has given those who have been fooled an "out" to re-evaluate their beliefs with intellectual pride intact. Light is coming through the cracks, which are widening from the heat.

Also bear in mind that despite the ready availability at no charge and unprecedented hard sell, about half of US citizens have still held out. I don't think most are merely "hesitant", as the propagandists say; but a vast majority flatly REJECT these poisonous injections.

Here's the direct link to the under 17 minute excerpt of Dr. McCullough's interview to pass along to those who might dismiss this article out of hand on account of its source:

## Darzoum

It is irrefutable, just on the evidence, that there is a concerted global effort to get everyone injected.

The suppression of viable alternatives, the caution-to-the-wind warp-speed programs that Trump is still boasting about, and the social pressures and psy-op coercion tactics all pointed to that well before anyone thought of the “I’ll give you this bag of french fries if you let us inject you with our medical experiment” approach. Just as an aside, anyone who actually takes that trade is only justifying eugenics theories.

So, “was the whole pandemic about the vaccine?” It may be, but then what is the vaccine about? Even if untold thousands (or tens or hundreds of thousands) were not dying from the injection, even if it were harmless saline, the tactics remain. They are about control; they extend Klaus Schwab’s proclamation about owning nothing to include your own body. Other forces are laying claim to it.

It is impossible to separate the medical tyranny of this supposed “bio-security” imperative from all the other bizarre social currents underway eroding basic values and principles across life’s spectrum. At the core of all this is the attempt to redefine what a human being is, and what values civilization is meant to uphold. The “vaccine” has to be seen in this broader context. The jab may or may-not be intended to literally kill you, but just as bad is the recasting of a human being as a technocratic unit subject to surveillance, control and ownership, all to be facilitated through a so-called bio-digital convergence, and of which the mRNA injection is a mere harbinger. Whatever they are trying to instate, your individual choices and decisions, your free will and free thinking, your consciousness and spirit do not seem to be part of the picture. But sometimes, when something so essential and precious is threatened, that’s when you really see it and value it... maybe even enough to fight for it.

Brilliantly said, Darzoum. Kudos to you for the honesty and clarity of your statement: "At the core of all this is the attempt to redefine what a human being is, and what values civilization is meant to uphold. The 'vaccine' has to be seen in this broader context." ABSOLUTELY!

"They" are going after fertile females and children, without whom mankind has no future. They continue to push their "vaccines" despite thousands of deaths and hundreds of thousands of injuries--probably far more deaths and injuries than what we are told, as adverse effects are WAY under-reported. They flaunt their lack of human values in our faces, without apology. For some reason (why? because they are filthy rich?) they consider that our lives belong to them and that they may do whatever they wish with us. They want the power of life and death over all living creatures. This is an ugly truth which people must understand before they can fight it.

I believe that the injections are the first phase of Transhumanism. The "Top Scientist" of Moderna is on the record, stating that "they" are "Hacking The Software Of Life"! Is that not plain enough for people? I also believe that if people would simply research the WEF; primarily the Great Reset and the Fourth Industrial Revolution, they would fully understand what's coming - of course, that's assuming that they are capable of comprehending . It is crystal clear to me, where humanity is headed.

I'm curious, how many people have been greeted with the "Under Detox" screen, when attempting to access Dr. Mercola's site. I've been hit with this a few times...anyone else?

Two thumbs up Darzoum.

Just a gut feeling. Damage to the innate immune system sending the secondary antibody immune system to explode may explain a lot for miners suffering from dust, or mill workers from toxic exposure. It's not just physical scarring damage one suffers with, it's feeling like never ending flu as the body flails around trying to expel a compound not found in nature or usually dealt with by life forms.

Randy fast that would be one big yuppers from this corner. Not the first time either.

As much as I admire Trump's many impressive accomplishments, the "warp speed" vaccine is not one of them. A warp speed vaccine is oxymoronic on its face. You have taken a process that is meant to be, for what should be obvious reasons, painstakingly slow & deliberate, and accelerated it to the point of absurdity. I believe that Trump, with all good intentions, succumbed to the prevailing forces surrounding him, to produce one - Fauci perhaps being the most influential among them. That, combined with all of the ginned-up fear perpetuated by the mainstream media, created the perfect storm for the vaccine's production. I do not dispute the fact that many died from this virus. However, the vast majority were the frail elderly, with serious under-lying medical issues, while simultaneously denied timely, effective, safe, and affordable treatment options. Just as I believe that BLM & their ilk were waiting in the wings to pounce, I also believe that these "vaccines" were "good to go", as the saying goes, long before the virus began circulating, making warp speed not only doable, but an integral part of a much larger plan. For those willing to do the research, all the dots are there. All you need to do is connect them.

So insightful. People in the past have given their lives for the freedoms we have been enjoying until recently. We are rapidly losing so many of them. We must not let this happen. Only a small percentage of people understand what is going on, the masses are blind. Naomi Wolf is now banned from Twitter and the comments on twitter (I read an article, I am not on social media) regarding her views on eroding liberty and the dangers of vaccines are scathing!

They only meet with big business and special interests. Your letter will rarely reach the representative--a staff member sends a formatted reply. Mostly, they only take an interest in feathering their own nests.

The best solution is to throw the b\*\*tards out at election time. However, the elections are also rigged--not just the presidential election. How is it that a candidate will spend \$10 million running for an office that pays \$179,000?

These ideas against vaccination are not by Mercola, but other respectable scientists whose judgements are methodically suppressed. Mercola only calls the readers' attention to them. If you or anyone feels that they would rather ignore what he writes, then do so. I am too old to have children, so if the "vaccine" causes infertility, it won't effect me. I try to strengthen my immune system in a natural way and don't want to avail myself to any so-called "vaccine" which is actually a game of genetic manipulation. My modest background in biochemistry allows me to take a calculated risk and if I am wrong, I will die (after a reasonably good 87 years). You young people have a lot more at stake, but blaming Mercola does not make much sense.,We can cure COVID. We know how to cure COVID. There are many ways to cure a SARS-CoV-2 infection. There are many ways to cure the damage caused when the infection leads to a crisis. We have lots of evidence and had lots of practice. Most cures of COVID, come, like most cures, from health. But, if we can cure COVID, we don't need vaccines. So we can't cure COVID. QE

If you wouldn't mind my asking, can you tell me what you do to strengthen your own system? As an older gal, I'm 76 and have had cancer in the past, have one kidney now, and want to remain as active as possible and rock on for another 10 years to whenever, if possible. I believe that systemic and proteolytic enzymes may be helpful and have looked into NMN, but worry that if it helps all cells, it may also help cancer cells? Unfortunately, I did get a J&J shot just before they pulled it because I was unaware of the problems involved at that time. Not asking for myself, just what you do to help stay well. I'm also concerned that NAC is being pulled....just the start of our freedom to help ourselves stay healthy. I feel it's very important for all of us to share ideas about what we might be able to do to stay alive and enjoy good health now. Many thanks and I wish you the best of health.

What got me really suspect (among other things) is the way they were coercing you to take the vaccine. I mean, if you can't see that I can't help you. Something FISHY about the whole thing. Interesting comment, one of the 'high priests' of the COVID-19 litany is our learned friend Fauci. Religion is defined as a belief regarded as " holy, sacred, absolute, spiritual, divine, or worthy of especial reverence" and is often accompanied by prayer, meditation, and specific rituals. Rituals such as mask wearing and hand washing do not require scientific proof of their effectiveness but

merely are symbolic confirmation and acceptance of those beliefs and membership of the sect.

In satanic ritual, mask wearing is a symbol of depersonalisation, a gesture of submission and denial of individuality and humanity. The synonym for religion is 'faith' which implies belief and conformity, not proof. In bygone ages heretics were burned at the stake. Nowadays, we have more sophisticated methods of punishment - ostrazing vaccine deniers and non mask wearers, illegally denying them entry to civic amenities and the final solution - killing or maiming them with experimental injections. Certificate Of Vaccine IDentity (Covid).

## LaurenMcKenna

My brother-in-law just died Saturday morning. He was the most physically strong human I have ever known. He was 83. Sure, he was old. He even had open heart surgery a little over 3 years ago to replace a valve. He had worked driving a tractor trailer across the USA, until his regular physical found a heart valve problem at age 80! He has been poked, ultrasounded and watched on a regular basis every 3 months since...

In January, 2021 his ultrasound was normal. He was taking care of his home, property and a frail wife, only 3 weeks ago...when he started having swelling and trouble breathing. Just 3 weeks ago he was diagnosed with congestive heart failure. He couldn't lay down to sleep because he couldn't breath. All of a sudden he had to stop cutting his acre of lawn because he was so weak. He fell asleep at the wheel midday and wrecked his car. His kids then forbid him to drive, saying he was sleepy because he wasn't able to sleep much because he mainly slept sitting up in his easy chair. Doctors upped his meds to drain fluids off his lungs, and swollen body but finally had to hospitalize him to drain fluids. The doctor told his kids that from his ultrasound, his heart had changed drastically from his January test. They also had to give him 5 pints of blood and couldn't find where he had internal bleeding. Then they said he had a heart attack. The last 3 days of his life was in hospital in a semi conscious state moaning and grabbing his chest. His first Moderna vaccine was late January, second February...

He has 3 grown kids... 2 unvaxxed are possibly connecting the dots, yet find it unfathomable that this was not a natural death... And this will be the same for most all the families of future deceased victims. Will they file with the vaccine injury/death system...doubtful, since they can't prove anything and it wont bring their loved one back and they are in shock...

I'm sorry to read your story. It's too bad that the company that makes Moderna vaccine has immunity from prosecution. My own dad was 91 and we both had Influenza A in 2018. He had had a flu shot, I had not. I got over the flu in ~ 5 days. He was hospitalized for 5 days, because he had COPD. While in the hospital, he gained 10# in the 5 days though he was hardly eating; every day his labwork was totally normal, till the 4th morning-his liver enzymes were off the chart and his serum potassium was 5.6 (it had always been normal, for years). He was discharged the next day

(without rechecking his labwork) and he died at home 12 hours after discharge. With all my reading about covid, and watching several interviews with Robt Kennedy Jr, I believe what my dad had was "pathogenic priming" from his damned flu shot. He was in our home for 10 years, totally independent, so this was a drastic event for our whole family. The moral of the story is, don't ever ever get a flu vaccine, because we obviously cannot trust any of the companies that make them.

I have 3 loved ones who got this covid vaccine-I could not convince them of the danger, so now I fear that they will meet some of these dire effects.

As everyone who watched this recent discussion already knows, the conspiracy theorists who kept their beliefs alive for 15 or 20 years or even longer, are same sites bringing more relevant information. David Martin clearly says you need to look past the financial rewards of a needle in every arm, to arrive at what may actually be underpinning this global experiment of high dangers and highjinx.

Could be 1) a second virus may be released (oh joy) and no one wants more economic lockdowns, yet we may be under siege 2) maybe we are watching a cover-up of enormous proportions of a serious sovereign debt issue affecting all developed western nations (beats me where pension funds will come from?), or any combination of both issues.

In either case, a blending of Big Tech w Big Pharma has occurred over at least 20 years, Pharma clearly wants adults totally dependent on "updates" as a permanent money stream from every country across the globe, needed or not. Passports meh? not sure this would ever work on a large scale. But no one, at any time, asked the little people what they wanted. Vaccines for life sounds life shortening, if not shortening and life ending to me...And governments with massive sovereign debt? Well, that just got a lot worse with \$Billions in payouts for shots/jabs. Our elected officials are not our representatives, instead they are in the pockets of both tech and pharma. The question is Which foundation will break first?

**Globalist Banker Predicted Scamdemic & Genocide of The Useless, Interview from 40 years ago.**

**The following statements, which were made in 1981 by powerful international banker and unapologetic eugenicist, Jacques Attali, are taken from Interviews with Michel Salomon – The Faces of the Future, Seghers edition, which was published in France by Emi Lit when Attali was a senior adviser to French President, Francoise Mitterand:**

**“In the future it will be a question of finding a way to reduce the population. We will start with the old, because as soon as it exceeds 60-65 years man lives longer than he produces and costs society dearly, then the weak and then the useless who do nothing for society because there will be more and more of them, and especially the stupid ones. Euthanasia targeting these groups; euthanasia will have to be an essential instrument of our future societies, in all cases. We cannot of course execute people or set up camps. We will get rid of them by making them believe it is for their own good. Too large a population, and for the most part unnecessary, is something economically too expensive. Socially, it is also much better for the human machine to come to an abrupt halt rather than gradually deteriorating. We won't**

be able to run intelligence tests on millions and millions of people, you can imagine! We will find something or cause it, a pandemic that targets certain people, a real economic crisis or not, a virus that will affect the old or the fat, it doesn't matter, the weak will succumb to it, the fearful and the stupid will believe it and ask to be treated. We will have taken care to have planned the treatment, a treatment that will be the solution. The selection of idiots will thus be done on its own: they will go to the slaughterhouse on their own."

In the UK the one stat that is not open to opinion is how many people have been buried and Cremated. The stat for the last 5 years including 2020 shows a slight variation but nothing of concern in 2020. I want to know where are the bodies for these extra deaths claimed for CV?

The UK and USA as with most western countries have beancounters who can be relied upon and Burials and Cremations are the most accurate stat for deaths

Posted On 06/07/2021

---

## **Krofter**

Yes, it will be very interesting to compare death stats from 2020 with those from 2021 and 2022. I'm betting the record will show a much greater increase in deaths in 2021 and 2022 (and possibly going forward for many years) than in 2020. Due, of course, to the jabs. The problem is, here in the US, one of the primary reporting systems is run by the CDC and they conveniently changed their reporting structure late last year. We have full reports going right through 2019, but not for 2020 and possibly... never again.

Posted On 06/07/2021

---

## **Cabochon**

Good point. Of course funeral companies and undertakers would be an unbiased source of mortality statistics. They cannot lie but would they give you their annual figures and would they be linked to the cause of death. I wonder if they submit their annual figures to a centralised organisation other than the ONS who are dressing up the 2020 statistics to include deaths from all respiratory diseases.

Posted On 06/07/2021

---

## **Watsonandco**

Robert, I'm with you. Where are these bodies going? But of course these Covid bodies, as we have known for over a year now, are natural death, bronchitis, pneumonia, heart disease and even motorcycle accidents. So no rise in numbers at all! However, the jag, if it is doing its job properly, will change all that in 2 years. By which time the lemmings will have been sold on another story and figures will be deleted from the Internet to cover the tracks. That has been underway for about

a year now that I can attest to. But it still leaves the problem of where the bodies are going to be cremated. And who is paying for it? Will they be shipped in containers to India? Where are there large, disused industrial sites with huge ovens? The US has several huge, disused industrial complexes. Anyone noticed any unusual activity in the past 2-3 years? New warning signs maybe? Might be worth having a look...

## Retsbew

Hi RobertSRedfern, not Redford. I totally disagree with you that we have reliable beancounters just about anywhere. Let me put it this way, I had a grade 7 teacher, Mr. Newell, (he's dead now, guaranteed), who announced that girls can't do maths. Just off the boat, I'm thinking how strange no one told me that at convent or grammar school? He was an idiot; my sister's a maths' whiz. Later when I went to college, one of the first classes in journalism was, get the statistics to back up your stories. Then a long class in how to access Canada Stats and the word access could be substituted with manipulate. Excuse me, if you need numbers to back up your story, what kind of a writer are you? In addition, cemeteries and crematoriums probably play the tax angles with their yearly reports. I bet they're not too worried about anyone checking the stock.

Even with the exposure of Fauci, CCP Wuhan and the weaponization of corona, the same media tools double down on pushing his vaxxx. There were variants and now kids with near zero risk "must" get vaxxxed under the emotional tragedy of one teenage girl... Suck-along govt. dependent corporations, schools and universities follow "policy" ignoring all common logic. Once they got people accepting water fluoridation, mass vaxxing for generally non-lethal bugs was a slam dunk. And selling a lame horse to a bribed-up politician who will offer it "free" is easier than gettin a plug nickel from the public for it. Due to black hesitancy, black preachers have been tricked into pushing the shot on their flocks. This mass marketing campaign covers all quarters and yet is totally ridiculous. Local car dealer sends out scratch-offs to WIN..and of course "You just won a big screen TV!" Just show up, fill out a form, get a sales pitch, then if you don't buy the car get switched off to \$100. worth of useless coupons. I am not even sure the elderly are at special risk. Perhaps it is only the elderly--or persons of any age--who are already in compromised health. I do not believe I am high risk simply because of my age. My immune system is strong.

A relative who is 85 had covid and said he was tired for 2-3 days. My husband had red eyes and may have had covid, but was otherwise symptom-free. The only reason he knows is that he regularly donates blood and they test for it. Of course, testing and data is so inaccurate, no one really knows anything. It could also have been some kind of allergy.

Maybe I had it, maybe I didn't. I was more tired than usual after harvest and butchering last year, but I am getting older and that is a lot of work even for a younger person. I am not about to run out and get tested, though.

Using any sane measure of logic, if pharma is trustworthy and to be believed, and that their statements to the public that mRNA injections are safe and effective (at what we are not sure), big pharma would stand firmly behind their products and back them up by accepting, without conditions, full culpability and responsibility for any and all adverse reactions caused by these injections, or any vaccine product.

Furthermore, pharma would demand that every individual contemplating being injected with these "foolproof" synthetic experimental drugs be given full consent by being alerted to the possible dangers, if any, and also all personnel administering these drugs be able to answer any and all questions truthfully and with full knowledge of what they are injecting into any person. And all people seeking an injection should be made fully aware of the possible long term 5-10 year consequences.

That is hardly the case. For products that are so beyond any questionable doubts as to their safety and efficacy, then why the multitude of "incentives" to place your life on the line, all in the name of ensuring monstrous profits for pharma? A free coffee and donut in exchange for your unfettered trust of an industry that over the last 40 years has been riddled with lies, deception, fraud and outright marketing treachery. Here is a copy and paste message I just received from my daughter: Had a lady I worked with at Amazon and Under Armour die last week. Heart attack. She was 47 years old. Her family is convinced it was due to the COVID vaccine. Never had any heart issues. No health problems. Got the second shot the week before. Had not been feeling good since. Went to bed that night with what she thought was eart

burn. Her husband woke up in the night to her breathing funny. He looked and she was foaming at the mouth. Called an ambulance to take her to the hospital. They took her off life support a week later because they said she only had 2 percent brain function. On top of that my older brother, who has always been the picture of health, is now is diagnosed with Parkinson Disease after receiving his second Covid shot.

This is an incredible Forum called Event 2021 that took place this weekend in Dallas Texas, hosted by Doctor Fleming. It's a long video but So informative and uplifting so watch it in pieces if time is an issue. It's worth it. It is presented well with fact based info with links to source documents and a Great CALL to ACTION at the end for USA citizens. The GREAT feature of this forum is if you go to his website, under tab Event 2021 you can download the PDF of his presentation along with all kinds of other documents. Everyone owning computer and / or cellphone already is registered in a database - these devices have a unique number and can be tracked down easily. So when the rubber meets the road, there's no VPN that could protect you from getting a "red" covid pass on your device. Hence the only reason for mass vaccination (no exceptions allowed) that remains is full control of lifespan and urgently so. With predicted very low activity of the coming solar cycle, oligarchs think to have a small window to repair enough of the planet, if the amount of people can be decreased sufficiently. The historic example for this in [www.bbc.com/.../science-environment-47063973](http://www.bbc.com/.../science-environment-47063973)

You can bet that it has been modeled already, but for obvious reasons hasn't been made public.

The Mercola site was very hard to access this morning - probably because of the Doc's brilliant expose into the sponsored Agenda courtesy of the Gates of Hell. Well done Dr. Mercola! In a world of wall-to-wall staged propaganda and fear mongering you are a true shining light!.

To appear on UK TV is easy....if you are a war criminal - like Tony Blair, or a vaccine de-pop control freak

like Bill Gates, or a psycho-sponsored sock-puppet like "health" secretary like Matt Hancock or a pathological liar like most of our politicians from fork-tongued Boris Johnson down. But no-one ever appears who is willing to speak the truth about the vaccine tragedy that is unfolding all around us.

Journalists hide behind a wall of vile propaganda as Truth gets repeatedly stamped on by the main-stream media. And compassionate, truth-speakers like RFK Jr, Prof Dolores Cahill, Sucharit Bhakdi, Dr.Mercola get censored while the spirits of Goebels & Mengele haunt the corridors of power.

Meanwhile the effects of the vaccines grow more alarming every day, and women are now sadly losing their babies in ever increasing numbers: [twitter.com/.../1](https://twitter.com/.../1)

While I was walking yesterday after reading that day's article, I was particularly depressed about what will happen to the people in our world. This poem started forming. Hopefully, we won't turn out as bad as this.

### Death

Death came slowly. It crept through the neighborhoods, the villages, the towns. //It crept through the cities, the states, and the country. //Then Death took over the world. //It was too late to save even themselves, //when those who released Death saw what they'd created. //First Death stalked the old, then the young, no matter if rich or poor. //Those who thought Death had past them by soon learned the truth. //Death returned for more and more until there were no more to take. //Then Death rested.

I have been thinking this whole Covid fraud reminds me of some stories in the Bible, and I am not religious! There is the story of Jacob and Esau when Esau sells his birthright to his brother for a bowl of pottage. That is the lotteries, and the free fries, etc. used to entice the "hesitant". Then there is the snake whispering the lies in the Garden of Eden. Then there are the lies that it is our civic duty to get the jab. We need to protect everyone with our own sacrifice on the altar of Big Pharma and the Cabal. We see children being sacrificed to the jabs on those same false altars to the gods of mammon.

'...do no harm', apparently is no longer an oath that doctors believe is their moral obligation to their patients. Doctors and scientists rely on the government to dictate 'rule of thumb' to them and blatantly suppress proven methods of treatment that not only help but cure the patients. 'I'm from the government and I'm here to help you.'

Don't concern yourself, we will CONTROL you! Because we are the government and we know what's best for you. The government that was originally designed to 'serve the people' has become the 'master of the people' in less than 250 years.

Corrections: The number of covid vaccine deaths was actually 4,395 vs 4,406 up until 5/21/21. That can be seen by segmenting the report by year + month (in addition to age). You'll find 11 deaths are listed either in those < 3 years of age or prior to December 2020, both obvious misreports.

Similar story up to 5/28/21 ... the actual number is 5,149 vs 5,165, for the same reasons. This is a one week increase in reported covid vaccine death of > 17%. This number is also actually 20% greater than the total number of reported vaccine deaths in the 20 year period preceding the pandemic beginning 1/1/2000.

Pretty obvious "we" all have a verry serious issue. :-(

## Retsbew

Hi Tikvah2, the possibility of shedding is something I try to get more information about, but I haven't found anything definitive yet. Listening to doctors talk about it they seem to think that closer to when the person took the injection would be when shedding occurred. So when I'm in the elevator where I live, two passengers at a time, I ask if the other person has had the vaccine. (They seem to assume I'm asking because I hope they've had it to protect me.....TOTALLY WRONG ASSUMPTION.) And now I have cards in my pocket that give Dr. Mercola's website URL and "The "vaccine" is gene therapy and there is evidence from doctors proving this. Information on this website may be helpful." I do this because I know sooner or later, we're going to need to help these people who have made this error in judgment.

If I had to go to an event I'd be very careful not to get too close to anyone. Once again ticking the box, divide and conquer. argh

"There's no possible benign interpretation of this. I believe they're going to be used to damage your health and possibly kill you. Seriously. I can see no sensible interpretation other than a serious attempt at mass depopulation."

There's another agenda associated with COVID and other vaccines, and that is the fact that adverse reactions will produce large numbers of patients to serve the medical-industrial complex. When people experience bad reactions, sooner or later, they will instinctively go to doctors for help, and they will take prescribed pharma drugs as treatment for the various ailments and injuries caused by pharma's vaccines. It's the same merry-go-round that already exists, i.e., iatrogenic problems send sufferers right back to the doctor, who prescribes more pharma drugs to treat the side effects.

It's not the virus that kills but rather collateral damage to tissues and organs from the battle between the immune system and the virus, also known as acute oxidative stress. Hyper-immunity is aggravated

in vaccinated persons increasing the likelihood of fatality. Immunity needs to be suppressed, not enhanced, upon testing positive for a virus.

If you go down to the Method section, you'll see that they didn't do testing on actual PEOPLE. It's all supposition on what they THINK will happen. It's all set up to scare people into getting 'vaccinated'.

"The Centers for Disease Control and Prevention determined that this decision analytical study,

which involved no enrollment of human subjects, did not require institutional review board approval. We used a simple model to assess the proportion of transmission from presymptomatic (ie, infectious before symptom onset), never symptomatic, and symptomatic individuals across a range of scenarios in which we varied the timing of the infectious period to assess different contributions of presymptomatic transmission and the proportion of transmission from individuals who never develop symptoms (ie, remain asymptomatic)."

### Listening0

I have listened to Dr. McCullough's video more than once. It is inaccurate what Mercola says that he said that it was "all about the pandemic" from the very beginning of the outbreak. What is much more convincing is that he originally vaccinated 70% of his patients for Covid, tells the story of finding a bundle of pharmaceuticals and nutraceuticals to get both himself and his elderly unwell father well from Covid and only gradually became convinced that it was "all about the vaccine". He breaks down in the video at one point. He describes extremely well the history of what in the end he calls "malfeasance". I will now quote from the Canadian Health Alliance's posting of this video. " Dr. Peter McCullough, an internist, cardiologist, epidemiologist, and Professor of Medicine at Texas A & M College of Medicine, Dallas, TX USA, has been the world's most prominent and vocal advocate for early outpatient treatment of SARS-CoV-2 (COVID-19) Infection in order to prevent hospitalization and death. On May 19, 2021, he was interviewed about his efforts as a treating physician and researcher. From his unique vantage point, he has observed and documented a PROFOUNDLY DISTURBING POLICY RESPONSE to the pandemic -- a policy response that may prove to be the greatest malpractice and malfeasance in the history of medicine and public health. "

I think Dr. Mercola that in not reporting more carefully the history and story of Dr. McCullough's conclusion (above) you do a grave injustice to the power and terrifying truth of his conclusion.

I still appreciate so much the work you do and just really really hope you and your writers will be more careful and revise the description of Dr. McCullough's extraordinary statement by video. I hope everyone will listen to the whole video.

For anyone this should be a scary scene. God told his disciples to go forth a preach the Gospel . He wanted many to receive salvation but He also wanted man to be plentiful and to spread all across His creation and be plentiful. This is God's earth and He will say when it's over. Guess what, it's getting close to that time because His creation has become foul with sin. Judgement Day is very real and these that are creating this stench desiring a power they should not have have reach the time close to His Judgement. Those that are truly His will remain just that. Those that are not His will find a different fate. People better be down on their knees right now!

It has been reported that the vaccinated are transmitting something to the unvaxxed which is causing the same adverse events in the unvaxxed as the vaxxed are having. I wonder if this transmission is also happening between the vaxxed, which I think would make the situation for the vaxxed even worse. Kind of double adverse events on them. Thoughts on this y'all?

Judy Mikovitz recently did a two-part series of interviews on [www.academyofdk.com](http://www.academyofdk.com) detailing ways to deal with the spike protein from the vaccine. How to protect yourself from the c-Jabbed who shed the spike protein, and if you mistakenly took the jab, how to heal yourself. I do not know if her recommendations actually reverse infertility, however, interesting interviews and well worth the watch. She mentions Suramin, and Suramin does not come from pine needles, fyi.

## DebbyW

So, 12user, where can you get Suramin naturally?

Posted On 06/07/2021

---

## 12user

Judy did not say where to obtain Suramin naturally. She said it is a synthetic product that Bayer and Monsanto own and will not release to her, although she asked. She did recommend other natural supplements, but you will have to watch the interview as it is a paid subscription and I do not want to get into trouble with the [www.academyofdk.com](http://www.academyofdk.com) for freely giving out the information here, even though I think this information should be freely out there in the public, broadcasted by all the news networks, and in the mainstream knowledge. Hopefully Mercola can interview Judy Mikovitz and she can talk about remedies, Suramin, and protection from the spike protein here.

Posted On 06/07/2021

---

## 12user

You know what, forget it, this should be mainstream knowledge. The situation is really too dire, serious, and immediate to keep a secret. Please watch Judy's interviews in full at [www.academyofdk.com](http://www.academyofdk.com). I am in no way associated with them. I am a paid subscriber, but I HATE what is going on with people taking the vax, women becoming infertile, having miscarriages, men's sperm becoming unable to swim, and this whole depopulation agenda.

Mikovitz mentioned, dimethylglycine, trimethylglycine, HCQ, zinc, ivermectin, minerals, vitamin d, c, magnesium. Just overall keeping your liver clean, keeping yourself healthy. Stay away from vaccines, and pesticide laden foods. She really likes Suramin, but no one knows where to get it. She did not say where one could obtain Suramin.

She also gave a plug for Mercola as a good resource for supplements.

As regular readers know, I've been saying since late last year that the plandemic was just a tool to instill fear to get people to line up for the jabs, and that the jabs are the REAL eugenics program. This is why in my blog I've been doing a biweekly death-by-covid-vaccine count. The latest "official" death count from VAERS is well over 5,000 and that's with less than 1% reporting. If we assume 100%

reporting then the death toll is well over half a million, which far exceeds any of the exceedingly overblown estimates of deaths from covid. And then there are the breakthrough cases - those who have gotten covid and died from it after being fully vaccinated. By the way, if you get covid after getting jabbed your chances of dying from it go up tremendously - pathogenic priming at its best. This is clearly all about eugenics via vaxx. Bill's eugenics dream is being played out before our very eyes.

A small correction concerning the number of deaths attributed to Covid vaccines from the VAERS database: The article cites 4,406 as of 5/21/21. If one queries the dbase segmenting the report by both age and {year and month} of the vaccine, you will find that 11 of the deaths are obvious misreports as they either occurred prior to December 2020 or in the < 3 YoA group. Therefore the corrected number of deaths is  $4,406 - 11 = 4,395$ , still ginormous.

As of 5/28/21, the number of deaths associated with Covid vaccines is 5,165 take away 16 for same reasons above, total therefore 5,149, an increase of 17% over the previous week (the number of teen deaths now 4).

Also the number of deaths reported in the VAERS to ALL vaccines in the 20 year period preceding the pandemic beginning on 1/1/2000 and concluding 12/31/2019 (so as to not include Covid cases) is ... 4,302. Therefore in little more than the 5 months that 3 covid vaccines have been authorized for emergency use in the US, there have been 847 more deaths to it reported than in a period which is over 48x longer and to ALL vaccines.

I'd say there's a rather serious problem out there. Verry serious.

njorogem, I consider the decision to get a "shot" for this China virus highly personal. I tried, to no avail, to talk my siblings out of getting these experimental biologics. It is not the here-and-now with adverse events that concerns me, its what's coming down the road for all those with the spike proteins. It is going to be a very sad and life-altering fall when more viruses (flu) start up. My prediction is that there will so much "vaccine-regret" that the pharma cabal will be looking for more new neurological meds to treat all the conditions and the Joebama Junta will still not pull the shots from the market, as they should.

I don't know which one of the shots you received...here is the Pfizer/BioNTech protocol. It is a long read however, this is SO IMPORTANT to consider that there have been ZERO long-term studies into anything serious. Very scary stuff.

To answer your question, please view this forum (link below) or at least download the PDFs that are available on the doctors website.....read it ....do your due diligence and then answer that question yourself should your kids get the shot.

Maybe they can hold off a year..maybe you can participate in the call to action on the forum at the link and write your state senator or governor

This is worth the work to do / the viewing of the video or the downloading of the PDF and documents because your kids future is not worth this gamble.

It's a long video but So informative and uplifting so watch it in pieces. It is presented well with fact based info with links to source documents and a Great CALL to ACTION at the end for USA citizens.

**ALL OF THEM ARE HARMFUL.**

Get a religious and/or medical exemption as most colleges are still honoring those. Find out what the vax rates are at the college. My child's college said once they reach 80% vaccination of the student body, they will have acquired herd immunity (the fools). They met that threshold so those that aren't vaxxed are no longer hounded to do so.

Know the law(s) and be prepared to fight. These "vaccines" are Emergency Use Authorization only. Regardless of any "guidance" or "policy" from local and state health departments, state and federal laws supersede guidance/policy. EUA means any product, facility, etc. with this designation must be voluntary. Under 21 U.S.C. 360bbb, section (III), you have the option to accept or refuse administration of the product. Your child is also protected under the Nuremberg Code and The Declaration of Helsinki which state persons must be given the opportunity to decide to consent or not w/out intervention of any element of force, fraud, deceit, duress, or coercion.

Put together a Right to Refuse document (if u want to DM via this site, I may be able to provide a template for you) to present to the school should push come to shove.

Keep fighting. It's too important.

[pandemic.solari.com/form-for-students-attending-colleges-or-universiti..](https://pandemic.solari.com/form-for-students-attending-colleges-or-universiti..)

This is what is on Pfizer's own site as well...they spell it out quite clearly: The Pfizer-BioNTech COVID-19 vaccine has not been approved or licensed by the U.S. Food and Drug Administration (FDA), but has been authorized for emergency use by FDA under an Emergency Use Authorization (EUA) to prevent Coronavirus Disease 2019 (COVID-19) for use in individuals 12 years of age and older. The emergency use of this product is only authorized for the duration of the declaration that circumstances exist justifying the authorization of emergency use of the medical product under Section 564(b)(1) of the FD&C Act unless the declaration is terminated or authorization revoked sooner. Is it true that VAERS says 3,000 people have died from the COVID-19 vaccines? Answered from infectious diseases expert James Lawler, MD, MPH: No. Here's some context to explain the confusion. After clinical trials, the Vaccine Adverse Event Reporting System (VAERS) is how the Centers for Disease Control and Prevention (CDC) monitors vaccine safety. VAERS is intentionally set up to capture adverse events that are not thought to be caused by vaccines. It is the best tool we have to find what may be previously unrecognized and extraordinarily rare adverse events that may eventually be linked. VAERS cannot and does not determine whether a vaccine caused something. The CDC states this clearly in their

disclaimer: "A report to VAERS does not mean that the vaccine caused the adverse event, only that the adverse event occurred some time after vaccination." The disclaimer continues, "The reports may contain information that is incomplete, inaccurate, coincidental or unverifiable."

Posted On 06/07/2021

---

## versatile

A report to VARS does not mean the vaccine caused the adverse event because in the USA it is NOT POSSIBLE to prove the vaccine caused the adverse event and it is illegal to attempt such a proof in the courts of law.

Posted On 06/08/2021

---

## balhawk

And yet the results of an automated reporting study indicated less than 1% of events consistent with vaccine injury have been reported to VAERS, and with more objective reliability than the reports. So for over a decade the CDC has been capable of assessing the actual figures from medical records. Why have they not done so? With their investment in vaccines, it is not difficult to connect the dots.

You've been in the "medical environment" your whole life, in what capacity? You sound more like a "Woke/Snowflake/troll" to me. Medical professionals don't have time to attack each other and conjure phrases like "Your attitude turns 90 degrees toward division, hatred, instead of unifying" "You see the results and then continuing to weaken the country, to divide, to shoot one another with words or bullets" Really???? How stupid do you think we are on this site? You sound like one of the "quackbusters" from the 1990's. Going around attacking doctors practicing natural medicine and calling them quacks, When in reality the quackbusters were the real quacks. You're messing with the wrong crowd here! Sounds like you need to play catch up.

Panyusg, you can add Professor Dolores Cahill, Prof. Luc Montagnier, (Prof) Dr. Peter McCullough, Geert Vanden Bossche, DMV, Ph.D. and (Prof) Dr. Vernon Coleman to your list of researchers warning how these vaccines will lead to the deaths of millions through ADE, antibody dependent enhancement.

Compromising on any level with the judeo anti Christ synagogue of Satan will lead to another Holodomor, Katyn and marxist Bolshevik Revolution. Just look at the marxist BLM, who finances them and the parallels with South Africa.

"Look at our country, the so-called most civilized country in the world does it ALL wrong, a whole year long, highest death toll worldwide, now in 5 months of TRYING and really working and often saying : 'I don't know' also YOU see the results, and then continuing to weaken the country, to divide, to shoot one another with words or bullets, the US or DS , divided states are finished, also thanks to the contrubution of mercola in the last months....."

That statement is absolutely ridiculous. Guilt trips have nothing to do with anything, except with agendas and coercion. A true confession. And as usual, this guilt trip makes NO logical sense...at all. Ridiculous, as a matter of fact, and to bookend based on truth.

Jeez mate, some NINE THOUSAND people across Europe have died shortly after receiving an mRNA vaccine. It's unprecedented and absolutely horrific . I have to pinch myself every time I see the latest updates. Just wake up.

**This COVID virus is continuing to mutate and become more dangerous. It may yet cause millions more deaths and the mRNA vaccines are the only technology capable of adjusting to each new version.**

**This is the most irresponsible article I have ever read. Shame on you Mercola.**

**You seem like quite the expert Ron.What is your background? Also,pray tell,where do you get your news from? Fauxi or the thousands of real doctors and medical experts and scientists all agreeing that we are being lied to by Big Pharma,Bill Gates,our governments and especially our mainstream media.**

**What bit do you not understand about these 'jabs' not being vaccines but experimental unproven gene therapies which have not been tested for long term effects nor even been tested on animals?**

You are certainly misinformed. The mRNA vaccines were produced hastily while in the past it took many years of testing before they were approved. The mRNA vaccines were obviously not tested in this way and as a result, new facts keep appearing, specially adverse facts. These vaccines were never approved by the FDA, they were allowed in an emergency situation as an experimental method. Talking about "adjustment to each new version" is also not true, and another vaccine, based on the classical idea of vaccines that uses the whole antigen, is much better in this respect, even though it generates relatively fewer antibodies (I hate to mention, it is the Chinese one, which will immediately be debunked for political reasons).

Ron, wait till the whole story of the corruption comes out. It's already starting. So many deaths could have been avoided. The American people have been treated like guinea pigs.

Thanks for your contribution to scientific enquiry, RonH but without valid scientific references to back it up, it's difficult to accept without further evidence. Can you state the source of your information as you might be shocked to discover this - many mainstream media use propaganda based on, for example, false or manipulated testing, mortality statistics with but not necessarily from viral infection, asymptomatic infectivity being non existent, mandates such as masking, lockdowns, and social distancing that can't be proven effective, and a frightening number of deaths and adverse effects from the mRNA injections, which are not really vaccines as the public understand them.

Best do your own research and look at scientific studies, factual reports and references before making up your mind. Dr Mercola's best selling book "The Truth about COVID-19" is fully referenced. For factual details, look up VAERS, bearing in mind that only a proportion of adverse reactions are reported. True, some false studies have been published and so check for conflict of interest re who has funded them. Look at population trends of herd immunity from viral infections and the effects of mRNA injection programmes. It can still be hard to determine the truth, so my advice would be: don't rely on mainstream or social media for scientific evidence as they tend to censor information that contradicts the official story ; always look at the credentials, career history, affiliations and published peer reviewed studies of medical and scientific thought leaders, including those who have had to use alternative media because of censorship, bearing in mind that views are censored for a reason. Good luck and be aware that your critical comment was published and not censored on mercola.com.

RonH, Every virologist will tell you that when a virus mutates it is less of a threat, not more, it is actually only 1% of the original virus to hurt anyone. It's all about FEAR not reality.

## DebbyW

On their own, viruses mutate to become less deadly, not that COVID was that deadly with a 99.5% survival rate. These 'vaccines' take one spike of the virus and tell us it will save us from a worse case of COVID. Instead, that spike replicates in people's bodies, giving them some of the very symptoms they are trying to avoid. The people who will be most adversely affected by a mutated virus (or even the original) are the very ones who think they are most protected, those who are vaxxed. Those millions of deaths you're predicting will be almost totally the 'vaccinated', with their compromised immune systems.

What "00" said! The reason people are getting sicker from the variants now is because they were vaccinated for the original Sars-CoV-2. This is why we have never had a vaccine for the common cold. Too many variants to try to keep up with. Then add on top of that ADE (antibody dependent enhancement). Attempts to make coronavirus vaccines in the past (1950's - 2010's) have all failed due to ADE.

## gloritrader

The 'technology' of my robust immune system will handle any variants that come along, thank you. How do you think human beings have survived all this time? And normally, as viruses mutate, they become less dangerous. Did you know that people exposed to SARS almost 20 years ago have been found to be immune to cv19? And they are over 20% different genetically. Why are the Big

**Pharma companies saying that we will need boosters soon? Because their poison jabs can't handle the variants, that's why. Go peddle your BS somewhere else.**
