I don't know why you always like to pick on Vanguard. I rolled over my companies 401 k to Vanguard about 10 years ago. Why? They are noted to have the lowest fees in the brokerage world. I see not problem with them. They have never tried to push any political views my way. I can invest my money thru their brokerage services in about any company in the world that is on the stock exchanges. I can invest in any ETF. They put limits on investing in ETN's because some are not honest in some cases. They are big because they provide the best value for investors. Everybody who has their investments and retirement savings at Vanguard are considered owners.
