

mRNA Expert Speaks Out on the COVID Crisis

Analysis by [Dr. Joseph Mercola](#)

✓ Fact Checked

STORY AT-A-GLANCE

- › Dr. Robert Malone, the inventor of the mRNA and DNA vaccine core platform technology, expressed his concerns about the spike protein used in COVID-19 vaccines to the FDA last fall, but was dismissed
- › In its native form in SARS-CoV-2, the spike protein is responsible for the pathologies of the viral infection, and in its wild form it's known to open the blood-brain barrier, cause cell damage (cytotoxicity) and other problems
- › Malone speaks about the bioethics of the Emergency Use Authorization (EUA) granted to COVID-19 vaccines; experimentation without proper informed consent violates the Nuremberg Code
- › The concept of the noble lie was first described by Plato; it refers to the notion that, in the case of high-status individuals or designated public leaders, it's acceptable to lie if the lie is made in the interest of the common good
- › Three lies are being circulated about COVID-19, including the need for herd immunity, the notion that herd immunity can only be achieved by universal vaccination and that the vaccines are completely safe; any discussion that challenges or goes against these three elements is censored
- › Malone believes that children and young adults up to age 30 or 35 should not be vaccinated because the risks outweigh the benefits in this population

When Dr. Robert Malone, the inventor of the mRNA and DNA vaccine core platform technology,¹ spoke out about the risks of COVID-19 gene therapy vaccines in June 2021, he was surprised that the three-hour interview went viral. “It showed there was a huge thirst for information from people all over the world,” he said, speaking with Aga Wilson with Newsvoice.²

The podcast was erased from YouTube, and Malone quickly realized that his message, which he felt morally obliged to share, would not be heard via mainstream media.

“When it became clear to me that I would not be able to speak through mainstream media, I, together with my wife ... made a conscious decision to reach out through alternative media and new media, and I’ve learned, from many, many podcasts and podcasters like yourself about the value of this new medium of podcasting,” he told Wilson.³

Experimental Vaccine Violates Bioethics Laws

With Malone’s impressive credentials, his grave concerns about COVID-19 vaccines have made many stop and listen, and people started writing to him about their own problems with censorship and the spectrum of adverse events with the vaccine. It all started, Malone said, with a long conversation with a physician in Canada, who poured his heart out about what he was experiencing in Canada treating patients with COVID-19 and adverse events after vaccination.

He reported them to authorities but was dismissed and told they weren’t related to the injection even though, in his clinical opinion, they were. With the **mass vaccination campaign** in full effect, Malone was also disturbed that it is considered OK by the government to entice children to get vaccinated by offering them free ice cream or

doughnuts, and even allowing children to get vaccinated **without their parents' consent**.

He soon ventured into the bioethics of the emergency use authorization (EUA) granted to COVID-19 vaccines. Experimentation without proper informed consent violates the Nuremberg Code,⁴ which spells out a set of research ethics principles for human experimentation.

This set of principles was developed to ensure the medical horrors discovered during the Nuremberg trials at the end of World War II would never take place again, but in the current climate of extreme censorship, people are not being informed about the full **risks of the vaccines** – which are only beginning to be uncovered.

Further, due to the EUA, adults aren't required to sign informed consent documents and, at the same time, aren't being given a full disclosure of the risks that would normally be given during a clinical trial⁵ – and, at this point, anyone who receives the vaccine is participating as a research subject.

FDA Dismissed Malone's Vaccine Warning

Through his professional career, Malone has worked closely with the U.S. government for many years. As such, he has kept an open dialogue with colleagues at the U.S. Food and Drug Administration, with whom he discussed concerns about adverse events and the **spike protein** used in COVID-19 vaccines.

In its native form in SARS-CoV-2, the spike protein is responsible for the pathologies of the viral infection, and in its wild form it's known to open the blood-brain barrier, cause cell damage (cytotoxicity) and, Malone said, "is active in manipulating the biology of the cells that coat the inside of your blood vessels – vascular endothelial cells, in part through its interaction with ACE2, which controls contraction in the blood vessels, blood pressure and other things."⁶

Malone is well aware of the actions of spike protein, as he worked to identify an effective drug that worked by blocking the action of the COX-2 enzyme, which is a key inflammatory enzyme. In one of his papers, he laid out how the spike protein and another protein in the virus directly turn on COX-2 promoter in infected cells.

This awareness of the spike protein as a biologically active protein made him alert the FDA about the associated risks last fall. His FDA colleagues transferred his concerns to the FDA's review branch, which dismissed his concerns, saying they did not believe the spike protein was biologically active and there wasn't enough documentation otherwise. As history now reveals, they proceeded with the EUA.

It's since been revealed that the spike protein on its own is enough to cause inflammation and damage to the vascular system, even independent of a virus.⁷

Plato's Noble Lie: Three False 'Truths' Being Circulated

The concept of the noble lie was first described by Socrates and Plato.⁸ It refers to the notion that, in the case of high-status individuals or designated public leaders, it's acceptable to lie if the lie is made in the interest of the common good.

But in the modern day, in the midst of an unprecedented global pandemic in which government, Big Pharma, media and Big Tech have become integrated, we're now seeing the noble lie "play out in a way that Plato could never have imagined," Malone said.

Take Dr. Anthony Fauci — whose expertise has been held as indisputable by mainstream media since the beginning of the COVID-19 pandemic. He's been **caught lying** to both the public and the U.S. Senate on a number of issues, but nothing has been done about it.

Malone outlined three main logic elements — each false — that are being propagated as

part of the grander noble lie. Any discussion that challenges or goes against these three elements is censored:⁹

- 1. Mitigating death and disease from COVID requires herd immunity** – This is not true, as it's possible to reduce death and disease from COVID-19 using medications like [ivermectin](#) and many others, including anti-inflammatories.
- 2. The only way to reach herd immunity is through universal vaccination** – This is another lie. As Malone says, "[Herd immunity](#) is most often reached through natural infection." Further, there's no solid data on whether COVID injections reduce transmissibility, which changes depending on the variant anyway. So the idea that we must reach a certain percentage of herd immunity in the population to end the pandemic "fails the logic test."

Even the World Health Organization advises people who are vaccinated to continue wearing masks due to the delta variant because "vaccine alone won't stop community transmission."¹⁰ "Vaccines will not get us to herd immunity," Malone said.¹¹

- 3. The vaccines are completely safe** – This is another lie, as it's well known that the vaccines are not completely safe. Malone listed several adverse events that are already raising red flags. Another important point: Censorship prevents full comprehension of these risks.

Cardiotoxicity

Female reproductive health concerns

Coagulation problems

Miscarriage in the first and second trimesters (this has not yet been confirmed), Thrombocytopenia (dropping blood platelets)

Data Do Not Support Vaccination of Children

Malone believes that children and young adults up to age 30 or 35 should not be vaccinated, noting that the total number of COVID-19 deaths for birth- to 18-year-olds during the entire pandemic is 386.¹² Children reap little benefit from this vaccine, not only because they're at very low risk from COVID-19, but also because, according to Peter Doshi, Ph.D., a significant portion of **U.S. children are already immune** and aren't at risk of infection to begin with.

Doshi cited Centers for Disease Control and Prevention data showing an estimated 23% of children under the age of 4 and 42% of those ages 5 through 17 have already had a SARS-CoV-2 infection and now have robust and long-lasting immunity.

The rationale has been that children should be vaccinated in order to protect the elderly, but this only has merit if the vaccine has no toxicity, which isn't the case with COVID-19 injections, so the justification fails miserably. "We need to carefully think about who gets the benefit from vaccination, and focus vaccination on them," Malone said.

For people who aren't at high risk, it's hard to justify exposing them to risk from a COVID-19 injection. Doshi similarly pointed out that the FDA has no basis on which to grant COVID-19 vaccines emergency use authorization for children in the first place, as COVID-19 is not an emergency in children. The threat this infection poses to children is negligible and no more serious than that of the common cold or flu.

The Power of Podcasts

Malone has been speaking out about the problems of **ensorship** and the fact that

physicians and scientists who raise concerns that go against the official narrative can be damaged professionally. He even heard an unsubstantiated report in Spain that a physician who advocates for alternative treatment strategies can be declared mentally incompetent and institutionalized.

“This is profoundly worrying,” he said, “but we’re seeing it all over the world ... It’s extremely difficult to speak against this narrative.”¹³ Malone would know. Just five days after he publicly shared his concerns about the dangers of COVID-19 injections, his name and scientific credentials, including those relating to mRNA vaccines, were [removed from Wikipedia](#).

Through his remaining contacts with the government, Malone is still trying to share this powerful insider information and data with those in positions of power who will listen. He comes from a place of caring and empathy and believes this, not fighting the opposition, is key.

He’s also speaking out via podcasts, which he believes are “extremely valuable” and “represent a threat to the narrative.” Instead of worrying about being deleted from social media or speaking to a reporter who may “cut and splice my words to fit some narrative that they want to impose ... podcasts work. They get out to people.”

Malone is privy to the opposition he’s up against, but as a highly ethical physician committed to integrity – and preeminently qualified to speak on this topic – he feels it’s his duty to share the truth. It will take this and many others like him speaking out to counter the false narrative being forced upon us as the truth.

If we give up, we’ll continue down this rabbit hole in which misinformation becomes fact and believing it is the only choice to remain a part of society. This isn’t an option, which is why sharing data and information as Malone is doing is a heroic action that we can all take part in.

datadragon

Brand new research shows that the S1 subunit of the SARS-CoV-2 Spike protein ALONE was enough to induce COVID-19-like symptoms including severe inflammation of the lungs-- EVEN WITHOUT THE PRESENCE OF INTACT VIRUS. The researchers found that the genetically modified mice expressing human ACE2 injected with the S1 subunit of the SARS-CoV-2 spike protein exhibited COVID-19-like symptoms that included severe inflammation and activation of STAT3 and NF κ B pathways in the lung, an influx of white blood cells, particularly neutrophils, into their lungs and evidence of a cytokine storm. The mice that only received saline remained normal. For the first time, we report that S1SP produces biochemically, immunologically and histologically evident COVID-19 like Acute lung injury (ALI), including "cytokine storm". Nuclear factor κ B (NF- κ B), a key activator of inflammation, primes the NLRP3-inflammasome for activation by inducing pro-IL-1 β and NLRP3 expression. In agreement with these findings, we also report a direct effect of S1SP on human lung microvascular endothelial cell barrier integrity, in culture.

<http://sha.rest/6c5003> 1 page poster for download: <http://sha.rest/GyMWZ7> Full study: journals.physiology.org/.../ajplung.00223.2021

Research is also showing that the Lipid NanoParticles (LNPs) containing the mRNA code after vaccination ALONE also have shown significant upregulation of gene transcripts associated with activation of inflammasomes, such as NLRP3 and IL-1b, and downregulation of Nlrp10, which is known to inhibit inflammasomes www.biorxiv.org/.../2021.03.04.430128v1.full In table 2 these LNPs also contain cholesterol <http://sha.rest/3637wT> and cholesterol crystals activate the NLRP3 inflammasome as well pubmed.ncbi.nlm.nih.gov/20428172 The LNPs are widely circulated around the body including highly in the ovaries, as well as other locations including the uterus. Thanks data, timely research as usual! It seems we no longer need to contract the virus to have the damage. How convenient. All I need to do now to experienced the symptoms is to be injected with the decimating concoction!

Excellent research, DATA. We need true science to impose on our minds the ability to decide a meaning to our own life, being aware that in this way we are endowed with the necessary tools to make our own decisions. His research finds an assurance that health is based on avoiding the diseases that predispose to serious risks of COVID. Let us take care of our immune system with healthy nutrition and lifestyles and despise the injections of biological weapons for COVID-19, a biological agent that will make us slaves to suffer diseases and to be subjected to the great step of a transhumanism where the essence of the human being is kidnapped.

Posted On 08/07/2021

The mRNAs combined with LNP were used in many preclinical studies and are key components of the recent Pfizer / BioNTech and Modern SARS-CoV-2 vaccine. Intradermal inoculation with LNP induces intense inflammation with typical symptoms associated with inflammation triggered by cytokines. Furthermore, the observed activation of other inflammatory pathways and cell death could further accentuate the side effects experienced. People often have more serious and systemic side effects after the booster shot. The PEGylated lipids of LNPs can induce pre-existing PEG-specific antibodies. with more serious side effects with the second dose.

In summary, it is shown that the LNPs used for many preclinical studies are highly inflammatory. Thus, their potent adjuvant activity and reported superiority comparing to other adjuvants in supporting the induction of adaptive immune responses likely stem from their inflammatory nature. Furthermore, the preclinical LNPs are similar to the ones used for human vaccines, which could also explain the observed side effects in humans using this platform. www.ncbi.nlm.nih.gov/.../PMC7941620 (2021)

In this review, the technology underlying these vaccines is first described in detail. The components and the expected biological response to these vaccines are also reviewed, including the production of the peak protein itself, and its possible relationship with a wide range of induced pathologies, both acute and long-term, such as blood disorders, neurodegenerative diseases and autoimmune. diseases. Among these possible induced pathologies, we discuss the relevance of the amino acid sequences related to the prion protein within the spike protein. We also present a brief review of studies supporting the potential for spike protein "shedding", the transmission of the protein from a vaccinated person to an unvaccinated person, resulting in induced symptoms in the latter. We ended up addressing a common point of debate, namely whether or not these vaccines could modify the DNA of those who receive the vaccine. While there are no studies that definitively show that this is happening, we provide

a plausible scenario, supported by previously established pathways for the transformation and transport of genetic material, whereby injected mRNA could eventually be incorporated into germ cell DNA for transmission. transgenerational. We conclude with our recommendations regarding surveillance that will help clarify the long-term effects of these experimental drugs and allow us to better assess the true risk / benefit ratio of these new technologies.

So called "covid" is a next disease of energy deficit. Our energy production depends on ATP (creatine, inositol, others) , infrared and melanins . To increase ATP we need adenine (inosine) , ribose, phosphate, magnesium, adequate metabolism. Deuterium , PUFA are mitochondrial toxins. We get phosphate from Lactobacilli , but they require manganese which glyphosate chelates. Probiotics stimulate release of inositols and phosphate from phytates. mRNA is contained in cationic layer-could negative magnets keep it in the place of injection? Cationic layer is soluble in DMSO and other lipid solvents , like acetone (ketosis?). mRNA is very unstable-could alternate current (in EMS) destroy mRNA?

B12 stops polymerase RNA. Iron stimulates. Mutated DNA (by mRNA vaccine) perhaps can be extinguished epigenetically or by immunity as non-compatible. But infants don't have developed immune system, can they be changed genetically definitely? Viruses , like measles, RSV, SARS require a lot of vitamin A. Graphene oxide is metabolised by myeloperoxidase. Could ozone /hydrogen peroxide help?

Hi, CEDRICPERMACULTURE. Thank you for your interesting contributions to Dr. Mercola's website in

English and Spanish, along with ANMAEL. Dr. Mercola has reported extensively on the serious consequences of high ferritin levels for disease promotion and potentiation. Ferritin is a key mediator of immune dysregulation, especially under extreme hyperferritinemia, through direct immunosuppressive and pro-inflammatory effects, contributing to the cytokine storm. Fatal outcomes of COVID-19 have been reported to be accompanied by Cytokine storm syndrome, so it has been suggested that the severity of the disease depends on the cytokine storm syndrome. Many people with diabetes have elevated serum ferritin levels, and they are known to face a greater chance of experiencing serious complications. by COVID-19. www.ncbi.nlm.nih.gov/.../PMC4386204 (2016) ~ link.springer.com/.../ejim.ejim_70_17 (2018) ~ www.ncbi.nlm.nih.gov/.../PMC6659066 (2019) ~ www.diabetes.org/coronavirus-covid-19/how-coronavirus-impacts-people-w.. (2020)

Severe COVID-19 patients showed data consistent with a cytokine storm involving elevated inflammatory markers, including ferritin, which has been associated with critical and life-threatening illness. www.thelancet.com/.../PIIS0140-6736 (20)306280/fulltext (2020) Absolute Lymphocytes, Ferritin, C-Reactive Protein, and Lactate Dehydrogenase Predict Early Invasive Ventilation in Patients With COVID-19 academic.oup.com/.../6041251 (2020)

Posted On 08/07/2021

Guillermou

A total of 336 patients were screened positive for COVID-19 for the duration of the study, and 157 were included in the final analysis, including 108 men and 49 women. A statistically significant difference in ferritin was found in the two categories according to severity and mortality. Binary logistic regression showed that ferritin is an independent predictor of all-cause mortality.

www.sciencedirect.com/.../S204908012100114X (2021) Recent literature advocates hyperferritinemic syndrome as one of the main modifications in COVID infection, suggesting evaluation of ferritin levels as a parameter of infection. This article suggests the use of ferritin values as a marker of COVID infection. link.springer.com/.../s13017-021-00354-3 (2021)

Serum ferritin level is a good biomarker of infection in non-hospitalized COVID-19 patients, many other studies revealed that ferritin is a good marker for hospitalized COVID-19 patients, increased ferritin levels could cause a storm of cytokines by exerting direct immunosuppressive and pro-inflammatory

effects, Fatal outcomes from COVID-19 have been reported to be accompanied by cytokine storm syndrome. Many people with diabetes and immunosuppressive diseases have elevated serum ferritin levels and are known to face a greater chance of experiencing serious complications from infection, so these patients should go to the medical laboratory for serum ferritin testing.

CEDRICPERMACULTURE. regarding the energy deficit in COVID. Combined with decreased ATP production, there is a decrease in mitophagy as a person ages, contributing not only to unregulated inflammasome activity but also to the accumulation of mitochondria. which may no longer produce energy efficiently. Mitochondrial dysfunction and associated oxidative stress drive the production of pro-inflammatory cytokines, which, in turn, play an important role in the immune response. Cells infected with SARS-CoV-2 have compromised mitochondrial respiration, but can use glucose for energy and cell survival.

In the role of various age-related comorbidities, such as diabetes, obesity, and neurological diseases, in increasing mortality rates among the elderly with COVID-19, the interaction between the coronavirus and mitochondrial dynamics should be highlighted. in immune cells.

ACE-2 influences mitochondrial functions and the lack of ACE-2 is correlated with decreased ATP production and impaired activation of NADPH oxidase 4 in the mitochondria, which is normally used for the production of ROS (which can protect the cell by destroying pathogens or causing the infected cell

to enter apoptosis. With the SARS-CoV-2 virus using ACE-2 receptors for its entry, the availability of ACE-2 for its normal functions may be impaired and contribute to the development of symptoms. Aging is accompanied by a decrease in mitochondrial function and is also related to numerous age-related diseases. Inflammasomes, from innate immunity signaling, are involved in aging and, in particular, in age-related diseases through its ability to activate caspase-1.

Dr. Mercola has provided excellent diet, exercise, and supplement guidelines for COVID. The first link highlights that to target mitophagy, patients could use calorie restriction to preserve existing mitochondrial shape. Urolithin A, found in pomegranates, is also known to promote mitophagy.

Exercise not only protects against mitochondrial deterioration, but also against aging. Maintaining muscle mass and a strong vasculature encourages the body to keep mitochondria alive and healthy. Breathing exercises have been recommended as they are useful for training respiratory muscles and increasing lung capacity, and preventive measures are also recommended. In that sense, consuming foods with high antioxidant properties, such as raw cocoa, berries, matcha, walnuts, artichokes, beets, kale, and spinach, can help prevent the damage caused by ROS. Anti-inflammatory foods like heart healthy oils, fish, berries, nuts, garlic, and certain herbs, etc. as indicated in figure 5 of the first link www.frontiersin.org/.../full (2021) and journals.physiology.org/.../ajpcell.00426.2020 (2021)

Vitamin D in addition to being vital for many functions among which is the modulation of the immune system, also the deficiency of vitamin D that experienced symptoms of muscle fatigue. Along with poor bone health, muscle fatigue is a common symptom in patients with vitamin D deficiency. This fatigue could be due to reduced efficiency of mitochondria - the "power plants" within every cell of the body. Vitamin D blunts the production of reactive oxygen species, increases antioxidant capacity, and prevents oxidative stress, a common antagonist in muscle damage. Furthermore, the drop in VDR results in a decrease in mitochondrial oxidative capacity and the production of ATP, an important driver of muscle regeneration. Vitamin D regulation of mitochondrial health may also have implications for SC activity and self-renewal capacity, which could further affect muscle regeneration. www.eurekalert.org/.../629162 (2015) and www.frontiersin.org/.../full (2021)

Hi data.. A good reason to have NAC on board to help denature the spike. Also Judy Mikovits said the LNP can break apart at or above 99 degrees so sauna will help for that reason as well to break apart the LNP and help sweat out if you had the shot. As I've mentioned, a strategy to show the vaccine is not safe is to focus on the miscarriages where the NEJM study showed over 80% miscarriages. This could really help turn the tide...

This confirms my belief that a close friend's passing in July was a direct effect of the experimental mRNA therapy. He was 70, living with interstitial lung disease for almost 2 years. After his second injection, in a matter of weeks he was in the ICU fighting for his life and failed a double lung transplant. Because of the intense "pro-vax" climate in my area and the push for ALL to be injected regardless of individual medical situation or history, I was unable to raise this possibility with anyone who knew him. Very sad.

Almond

gypsyluv and all... There is "something" out there, but I am not sure it is the Rona per se. That may be just a deflection from what is going on. A cover up. It seems the vaccine might also be creating illness on a grand scale, in many cases, mimicking the Rona. Is this all goofy, or what? The virus has never been proven to exist except by computer modeling—the same way they make many predictions about climate change. Remember, first, there was global cooling with a scare about an ice age, then, global warming with predictions of flooding. Now, it is "climate change".) It is my understanding that "the

virus" has never been isolated or transferred from one test animal to another. Please correct me if you have evidence of otherwise. -But let it be from a "real" expert and not just a talking head.

Pharmaceutical companies have stated in their research that the vaccines do not prevent disease or the transmission of disease, yet, govt spokesman tell us vaccination is necessary for "herd immunity". The latest headlines show the vaccines do not prevent variants. This allegedly accounts for the majority of outbreaks at this time. Yet pharmaceutical companies are ramping up production to give booster shots where ever they can find an arm. Biden just made a speech claiming 106% of Americans are vaccinated. He claims it is still not enough! Only the vaccine is acceptable to those who would require us to "carry papers". If this is an all out war on disease, why have not all options (such as ivermectin?) been utilized? We are under attack by leaders who are evil or idiots. This is all like something out of "The Twilight Zone". Many people no longer demonstrate the brains God gave a carrot if they cannot see thru this.

Hi Almond, Stoneharbor, chk2000 - This research below that recently came out shows new evidence of the S1 spike protein circulating in the blood after vaccination with the moderna mRNA-1273 vaccine. Perhaps these new studies may help shed a light why increases in cases that may be unrelated to the wild virus are happening in areas with higher vaccination rates. A new analysis finds several California counties with above-average vaccination rates also have higher COVID case rates, while case rates are falling in counties with below-average vaccination rates.

sacramento.cbslocal.com/2021/07/26/covid-vaccination-california-counti.. The most-vaccinated countries in the world are experiencing a surge in COVID-19 cases, while the least-vaccinated countries are not. www.zerohedge.com/covid-19/worrying-me-quite-bit-mrna-vaccine-inventor.. And Almond, they have ignored the far more robust natural immunity such as for passports www.medpagetoday.com/.../92836 My family has mostly taken the vaccine following governmental advice and general coercion in the belief that it would protect from infection or transmission.

11 participants exhibit S1 antigen in plasma after the first injection, whereas nucleocapsid concentrations are insignificant in all participants, confirming that the detected S1 originates from

vaccination and not natural infection. The spike protein is composed of S1 and S2 subunits. The presence of S1 is likely due to the nature of the encoded mRNA-1273 spike protein, which contains a cleavable S1–S2 site and enables release of S1 from the spike trimer. We observe an increase in S1 over an initial period of 1–5 days, suggesting that mRNA translation begins immediately after vaccine inoculation. Interestingly, spike protein appears in 3 of 13 participants on average 8 days after S1 is produced. academic.oup.com/cid/advance-article/doi/10.1093/cid/ciab465/6279075

Hi Gui, yes SARS-CoV-2 in later stages hyperactivates the NLRP3 inflammasome, resulting in the processing and secretion of active Interleukin 1 β (IL-1 β) and IL-18 and the initiation of a cytokine release syndrome. An IL-1/IL-6 signature INCREASES NEUTROPHILS AND C-REACTIVE PROTEIN (CRP) LEVELS, WHEREAS an IL-18/IFN γ SIGNATURE IS CHARACTERIZED BY HYPERFERRITINEMIA (EXCESS OF AN IRON STORAGE PROTEIN CALLED FERRETIN IN THE BLOOD) and cytopenia. Cytopenia occurs when one or more of your blood cell types is lower than it should be. IL-1 β induces IL-6 and a Th-17 immune response, whereas IL-18 induces IFN gamma (IFN γ) production by Th-1 lymphocytes. www.pnas.org/.../18951 pubmed.ncbi.nlm.nih.gov/29295842

Re: PEG - This says we observe that empty LNPs given intradermally to mice induce robust inflammatory responses, characterized by neutrophil infiltration, inflammatory cytokine production, activation of diverse inflammatory pathways and excessive cell death (unpublished observations) Also, this study mentions formation of anti-PEG antibodies is expected after the first shot, and therefore allergic events are likely to increase upon re-vaccination www.preprints.org/.../download Therefore a second dose or future doses may pose added issues with PEG allergy/anaphylaxis. The reason is that antibodies formed against PEG have been reported to support a so-called anaphylactoid, complement activation-related pseudoallergy (CARPA) reaction. Complement subsequently elicits secretion of both IL-1 β and IL-18 in vitro and in vivo via further activation of the NLRP3 inflammasome. pubmed.ncbi.nlm.nih.gov/23817414

Two NLRP3 SNPs (rs4612666 and rs10754558) were significantly associated with susceptibility to food-induced anaphylaxis. Functional analysis revealed that the risk alleles increased the enhancer activity of NLRP3 expression and NLRP3 mRNA stability, respectively. <http://sha.rest/tbpmuy>

Hi os00, thank you for your regular interesting and useful comments, please keep them coming.

Hi cedricpermaculture, yes as covered before in comments with the wild type virus. The SARS-CoV-2 viroporin encoded by the ORF3a protein activates the NLRP3 inflammasome which is partly responsible for the inflammatory pathology in severely ill COVID-19 patients. ORF3a triggers IL-1beta (IL-1B) expression via NFkappaB, thus priming the inflammasome while also activating it via ASC-dependent and -independent modes [www.biorxiv.org/.../2020.10.27.357731v1](https://doi.org/10.1101/2020.10.27.357731v1) Also, the SARS-CoV-2 N protein is a highly immunopathogenic viral protein which bound to MASP-2 and resulted in complement hyperactivation and aggravated inflammatory lung injury.

www.thailandmedical.news/news/covid-19-news-scientist-identify-antibod.. This leads to further NLRP3 inflammasome activation because complement subsequently elicits secretion of both IL-1 β and IL-18 in vitro and in vivo via further activation of the NLRP3 inflammasome.

pubmed.ncbi.nlm.nih.gov/23817414 Viral EP, ORF3a, and ORF8b induce the pro-inflammatory cytokines through NF- κ B activation after triggering the NLRP3 inflammasome. The SARS-CoV-2 genome and encoded proteins are covered here. ORF1a and ORF1b encode the nonstructural proteins (NSP1-16), structural proteins (S, E, M, and N), and accessory proteins (ORF3a, 3b, 6, 7a, 7b, 8, 9b, 9c, and 10). [www.ncbi.nlm.nih.gov/.../PMC7831445](https://pubmed.ncbi.nlm.nih.gov/23817414) The complement system can be activated during an adaptive immune response by the binding of C1q to antibody:antigen complexes. This may explain the observation that many COVID-19 patients become critically ill around the time of activation of adaptive immune responses. My first post shows that the S1 subunit of spike protein also causes many of the same problematic effects which is relevant to the vaccination program.

Posted On 08/07/2021

datadragon

For non tekkies: According to research, Sars-Cov-2 can delay the immune response by a few days

allowing it to replicate, after which it can hyperactivate the complement/nlrp3 inflammatory pathways leading to issues like blood clotting and death especially in those with comorbidities which also further activate these same pathways unless you counteract that hyperactivation at that stage. By halting the body's initial immune response, the virus buys time to deepen the infection of its host as well as increase its chances of being transmitted to another person. Inhibiting the NLRP3 inflammasome would inhibit both IL-1 β and IL-18 as well as complement hyperactivation in the later stages. So while most of the treatments that are shown to help after replication (later stage) work in part by inhibiting the NLRP3 inflammasome hyperactivation with the best options also inhibiting viral replication (Plpro/Mpro/Rdrp etc) or cell entry at the same time. www.biorxiv.org/.../2021.02.04.429738v1 <http://sha.rest/FLJv2P>
Inhibiting PLpro is a very promising double-hit therapeutic strategy against COVID-19.
eurekalert.org/.../guf-cra072820.php

It would also be important to note that over suppressing these necessary immune pathways right away that may already be lowered would additionally allow the virus to not be cleared, and in some people who do not have existing inflammation pathways overactive such as those with comorbidities, may even need a boost to restore the initial immune response. That is where suggestions like hydrogen peroxide or Sambucol pubmed.ncbi.nlm.nih.gov/11399518 and similar immune boosters may be helpful in those specific cases early on only if needed to potentially help restore suppressed immune function. Think of a gas/brake analogy on a car, sometimes you need to tap brakes to slow down, or stop but you need to accelerate to get going.

Dear all, without being a doctor, but reading intensively about natural health and physiology for a long time almost daily, I would suggest (the only word I can use as I can't invoke any medical authority) that medicine is largely multi-factorial. There can be many things weighing in, all causing the same symptoms. The virus, the spike protein, the 5G, the vaccines.....it can be both/and, not either/or.

As for the virus not being isolated and purified, this is true and a good question to be asking, does it really exist? That said, with proof of emails from Fauci to people connected with the development of this virus in the lab and Judy Mikovitz speaking about it in its genomic detail, my suggestion is that the virus does exist, isolated or not.....but that the powers that be also don't want to isolate it because the

genomic sequence would be too tell-tale (?) A coverup, in other words. My "Take", only for whatever it's worth.

I heard from a scientist, that to diagnose **any** virus it has to be isolated, purified and examined. Otherwise the tests can pick up on **any** infection and call it whatever they happen to label it, but they don't know what it is with precision. This was the opinion of that scientist, who I am not naming. BigPharma's tests are proprietary, said this person. If this is correct, this could be a bombshell to doctors all across the world.

EarthTruth

A sharp 7 year old can see, and could see from the start, that Covid-19 has nothing to do with real science. The NEEDED focus and action, as I keep saying, must be on the true causes that made the Covid-19 Scam possible in the first place (see read "The 2 Married Pink Elephants In The Historical Room –The Holocaustal Covid-19 Coronavirus Madness: A Sociological Perspective & Historical Assessment Of The Covid "Phenomenon"" at www.rolf-hefti.com/covid-19-coronavirus.html) and NOT on describing the multitude of inconsistencies (eg lies, bogus science news, etc). All of that is a mere distraction, a form of a divide-and-conquer tactic to mislead the public....

Posted On 08/07/2021

fvtomasch

cedricpermaculture- Everything you mentioned seems to indicate when our bodies are low in certain nutrients like CoQ10-melatonin-statins-zinc-B12-magnesium/lack of proper bowel flora/etc that a more severe form of Covid can manifest itself. This is why more elderly people are dying or died from Covid. This age group specifically has been on many medicines for decades (many 10 or more meds) and have severely depleted nutrient levels. Example Statins deplete CoQ-10/Metformin depletes B-12/PPI's deplete b12-magnesium-calcium-iron/HCTZ depletes most everything. If on these meds replete vital nutrients and have levels checked. Easier said than done.

www.yknutrition.com/2016/05/20/top-10-medications-deplete-body-essenti.. So like I've said from the beginning the severity of Covid is in direct correlation to the nutritional status on the individual when first infected. That is why most younger people have mild symptoms or are just asymptomatic because they are not on these meds yet. Hope I understood your post. Please correct if I'm wrong.

Posted On 08/07/2021

EarthTruth

Addendum to my prior comment: It is also misleading and false to say, as this article does, that "Three lies are being circulated about COVID-19" when at least DOZENS of official lies have been circulating about Covid. This falsehood distorts the accurate perception of the magnitude and severity of the Covid-19 Scam.

In a recent video, Dr. Rhonda Patrick stated "the nucleotide sequence that encodes for the spike protein in the mRNA vaccine has been altered [compared to the Wuhan virus spike protein] so that two amino acids, both proline residues, have been changed...This occurs in the binding region of the spike protein so that the spike protein [that the body produces after getting an mRNA vaccine] cannot bind to the ACE2 receptor. It is not the same spike protein found in the SARS-CoV-2 virus. This is a very common thing that's done in vaccines..."

Darzoum

Whether known as individual sovereignty, freedom of choice, body autonomy, informed consent, human

rights... or by any other name, that principle alone supersedes the question of "vaccine safety." Arguing the vaccine debate solely from the standpoint of safety and efficacy is tantamount to accepting the government's right to inject you with something against your will, given the proper prerequisites. Then where does that end? We've already gone way down the slippery slope, all because too many people have been conned into accepting a fantasy-level of safety as the overarching value and priority of civilization. We're already at the point where presidents, prime ministers and officials of all ranks seem clueless about the foundational principles of the lands they (supposedly) govern.

No government can possibly know everyone's level of development and need. Technocrats and governments love cookie-cutter standardization; it may lop-off the genius and vitality from the body-politic, but it allows them the pretense of having fixed something.

Once we deny those foundational levels of individual rights, where does it end? What happens when neural implants demonstrably improve your calculating ability, exponentially and with no "side effects"? Safe and effective. Could that chip be mandated simply because it would be unreasonable to refuse it? Would they only have to prove that there's a pandemic of mental sluggishness creating an undue burden on society? That should be easier to prove than the SARS-CoV-2 virus, and without having to resort to a fake PCR test. "Safe and effective" is a technocratic standard, not a moral one. Taken as the sole criterion, what else does it allow in?

Posted On 08/07/2021

Guillermou

Yes, DAVID, they are excellent decision bases. Nobody but us writes our history that will be constructive and hopeful for a world where rights and freedoms reign over lies and misinformation, if we are able to follow the truth. As much as the false obligations resort to the strict fulfillment of the plan of the elites that mark the "necessary" actions, we must not give in their interests and false promises, each one of us is solely responsible for the determination and destiny that we imprint on our lives. We decided based on the right to be informed of true science and not on the interests of a few tyrants of power planned for the submission of a strategic plan that marks the path of transhumanism in the domain of the Great Reset.

We need to impose on our minds the importance of each of us having the ability to give meaning to

their own lives, being aware that we are all endowed with the necessary tools to make our own decisions. We mark destiny with our rights to respect our health, and we do so by acting freely and independently of the interests of an oligarchy based on a technocracy that wants to destroy the essence of the human being, freedom. The decision will be ours, and in that there is no destiny or predestination.

We can say that we need "trust in the world", that necessary conviction to feel that we matter to others and that we must and want to fight together, spreading the truth to all corners of the earth. Emphasizing that "I want" to reinforce the idea that the worst thing is the helplessness of not having leaders who guide us within the framework of truth, it is knowing that we can already control and anticipate what will happen to our skin, to our body, our being. Let us fight in solidarity with others, defend a democracy where human values triumph, respect, empathy, responsibility, solidarity, will, honesty, gratitude and above all love that is the great exponent that should encourage hope for a better world.

Posted On 08/07/2021

juststeve

Yes, just where does it end? The gut says at best Feudalism, more likely flat out slavery where we are little more than lab rats. And, at this point doesn't it seem the SuperSpreaders are the the Vaccinated and any hope of a possible herd immunity is those who take a risk and stay unvaccinated? Also, as billionaire team owners threaten the players with get a job or lose your livelihood, as well as healthcare workers with other essential workers, how about screw me, hell no, screw you. No job, no soup for you (\$\$\$,). If we're essential workers, if we generate gobs of \$\$\$, power & control for you, how about we stay home and the privileged can take a walk on the wild side? Eh, it works in the movie's.

I believe that the cookie cutter/one size fits all mentality, is just about as ludicrous as it gets! I suspect that it all stems from GREED. It's much more cost effective to manufacture only one size, rather than having to tool-up/re-tool, in order to make 5 or 6 different sizes. When it comes to "vaccines" and other drugs, it's just stupid and dangerous!

Posted On 08/07/2021

Darzoum, Your question of where does this stop is excellent. I spent time looking over projects and achievements of DARPA over the years. Many of the concepts we saw in Star Wars and Star Trek appear in the works. However, the technology has leapt forward, and is now far advanced of morality and ethics concerns, as we cannot help but notice. The US military has a particularly sordid history around their

flawed Anthrax vaccine that is unbelievable, 1 million service-people injured over a 17-year administration period with 35k dead? Now they are looking at "the Bionic Man" approach to warfare. Vets have been chipping people's pets for years why not chip humans? Next step, right?

This inch by inch encroachment is precisely how we got nutrient depleted foods that barely support life, coated with toxic residue with myriad childhood shots purportedly protecting humans, when there is no evidence of any of this being beneficial for human life. War is another matter, mostly its good for business. Humanity already appears standing on shaky ground, before adding more bio-technology to the mix. Here's the latest from Prof. Dr. Reiner Fuellmich, broadcast at a recent UK demonstration: www.bitchute.com/.../I3L40uzUkZkZ

Posted On 08/07/2021

fromseatoshiningsea

Darzoum - I believe a lot of this started many years ago, with the "opt-out" with just about everything. In other words, people could be expected to be inundated, harassed, bombarded with all manner of everything - junk mail, intrusive phone calls, spam, junk faxes, until you "opted out". It was to be expected & considered the "norm". I have been asking for many years, how this happened. It is abusive. One is not permitted to physically assault someone until they "opt-out". These "vaccines" are no different. We should not be expected to accept one, until we "opt-out", which the 'powers that be' are making more & more difficult. Once we started down the road of assaulting & abusing others until we "opt-out", we created a monster.

action4canada.com/notices-of-liability-covid-related-business_mask_jab.. All things COVID Related: Exemption Letter & Notices of Liability; Business; Mask; Jab; PCR Testing, etc Protect yourself and your children

Posted On 08/07/2021

Guillermou

Hi Retsbew. A waiver letter and key liability notices: "IF YOU DON'T WANT TO LOSE YOUR RIGHTS, THEN YOU MUST TAKE STEPS TO PROTECT THEM AND HOLD THOSE WHO VIOLATE YOUR RIGHTS PERSONALLY ACCOUNTABLE." "School officials, staff and volunteers, are not medical professionals and, therefore, they are unlawfully practicing medicine by prescribing, recommending, and using coercion to insist that students take this experimental medical treatment. Students are at nearly zero % risk of contracting or transmitting this respiratory illness and are instead buffers which help others build their immune system. The overall survival rate is 99.997%"-

Some doctors also express their opinions regarding the vaccine in children: In an interview with U.S. News & World Report, Dr. Marty Makary said the CDC's relentless focus on vaccine-induced immunity and its "demonizing" of those who choose not to get the vaccine make the agency "the most slow, reactionary, political CDC in American history."

Makary said that vaccinating everyone – including eventually every newborn – in order to control the pandemic is based on the false assumption that the risk of dying from COVID is equally distributed among the population – but it's not, he said. "Siempre hemos sabido que es muy difícil que el virus lastime a alguien joven y saludable", dijo Makary. "Durante todos los meses de esta pandemia, he tenido debates con otros investigadores públicos sobre la efectividad y durabilidad de la inmunidad natural. Me han dicho que la inmunidad natural podría caer por un precipicio, haciendo que las personas sean susceptibles a la infección. Pero aquí estamos ahora, más de un año y medio en la experiencia clínica de observar a los pacientes que estaban infectados, y la inmunidad natural es

efectiva y va fuerte ". childrenshealthdefense.org/defender/dr-marty-makary-cdc-vaccine-mandat..

Hi Gui and a warm welcome back. We missed you. Thanks for your comment and I hope people realize that they have every right to customize a Notice of Liability to fit their particular situation, so don't be timid. Also, there have to be employers out there who would prefer to have employees who've declined the bio-weapon shot. Once you've served the Notice of Liability and have a receipt to prove it (from registered mail), if you are fired as a consequence, then you have the basis for wrongful dismissal. In addition, I do not see how the Unemployment Insurance schemes that we have in North America can refuse to help an employee who is fired without just cause. If you've contributed to an unemployment program it's a good idea to register there immediately if your fired, because even if there's a delay the payments can always be back-dated.

I think it's good to welcome people with the Spanish language and your posts will be helpful to them. I've never forgotten my family doctor from Mexico, Dr. Vela Martinez. After a serious car accident I was held in a local hospital and he was away and visiting his family when this happened. I was in this hospital for a week, drugged to be quiet I assume and not moved at all with 11 fractures. As soon as he got back to Canada he brought a friend of his to see me and confer with. Dr. VM had me moved to Sunnybrook Health Science Centre in Toronto, where they had the level of skill to mend the fractures. Youth was on my side and two years later I did the Sunnybrook 5K in under 30 minutes. Doctors back then would talk and I used to look forward to appointments. Now it's completely different and there's such a lack of empathy.

A new doctor I have here will be put to the test when he receives my letter asking for a note from him stating I have exemption from "vaccination." There's evidence in my history to be given exemption, but it remains to be seen if he will do this for me.

Sorry to go off topic, but this is URGENT! RED ALERT! CDC DOCUMENT

www.cdc.gov/coronavirus/2019-ncov/global-covid-19/shielding-approach-h.. This is rife with potential for abuse and is a very deep violation of freedom, no matter what the "case" may be or how it is interpreted.

Please meet in small, peaceful groups with your local police and sheriffs and ask them what their intention is, to comply or not to comply? After first hearing their position, ask them not to. Tell them we pay them with our tax dollars, money talks, people "hear" that. Bring in educational materials and invoke the law. Read the bill of rights ahead of time and invoke it, particularly the 4th and 14th amendments. The States have power to nullify Federal law on State territory under the 10th amendment, ask State politicians to do that and not to comply. See the CDC document above. Wear masks, even if we all know that they don't work, because to alarm officials will only cause the mission to VERY STRONGLY backfire. We may know the science, but that is not the point here. The point is that people are very, very afraid of the virus. Work with their fear, let them know that not a single one of us has any intention of spreading any infection around...even if the idea of an asymptomatic carrier is just nonsense, so said by Fauci himself and the WHO. www.israelnationalnews.com/.../286920

As true as that may be, again the point is to work with their fear. Education is key, but so is assurance. With assurance and their comfort zone honored, they are far more likely to "hear" what we have to say. Education is key right now, not protest, and more so than ever before, due to the high-level climate of

fear. Please send the document around to grassroots and lawyers on our side and ask for proactivity. Tell any underground journalists to offer suggestions about what to do, not just fear, which helps nobody. Thank you all.

Hi Retsbew, Is the Notice of Liability only good for Canada?

Posted On 08/07/2021

nursestormoutlook.com

Are there liability forms for the United States such as these forms? Granddaughter's hospital is requiring her to get vaccine by sept. Also Walmart has required head office employees to all get vaccinated...coming to store employees soon..

Posted On 08/07/2021

Retsbew

Hi Redhead19047 and nursestormoutlook.com, Sorry, it's taken me a while because I spent a lot of time trying to find a Notice of Vaccine Liability specifically for the United States. I'm in Canada, but should be able to locate this from here. If you've used the search term, "Vaccine Liability form" and variations of that and can't find it on the USA, I/T, this deeply concerns me - are we now being deprived of the opportunity to access a legal form to voice opposition? A judge does not need 8 pages of rhetoric to decide why you filed opposition with your employer to record your right to freedom of choice, etc. My disclaimer: Any of this information that you use, is your choice and I am not instructing you to do anything. action4canada.com/wp-content/uploads/Notice-of-Liability-Employees.pdf

Above is the pdf of the form. It's sufficient evidence up to page 2 and then end it with name, signature and date lines. Put your employer's company name and individual to whom this is directed at the top of the document. Adjust the reference #'s to be accurate (small #'s besides words in the document relating to the URL's at the bottom of the pages). Page 2, #1 - substitute United States of America for Canada where it states signatory to the Nuremberg Code. Page 2, #3 - remove the reference to Health Canada - FDA is USA and you can still use the same information. (Remove ref # to Health Canada)

nursestormoutlook, the first paragraph should be taken out. 2nd paragraph takes the place of the 1st and starting words can be: The emergency measures... Nurses have the expertise to customize this, of course. Keeping a copy is important. The URL below is the first page for the document URL above and I think serving the hospital via the suggested method will be applicable in the USA. -The receipt of service is vital. action4canada.com/employee-vaccine-notice-of-liability

Thank you!! for your sacrifice. I greatly appreciate the information. A quote from my favorite Book follows: Ephesians 6:12 "For we wrestle not against flesh and blood, but against principalities, against powers, against the rulers of the darkness of this world, against spiritual wickedness in high places." You may or may not believe in the Bible. I do believe and there are profound passages that very accurately describe what we are seeing unfolding in our sin sick old world. There is a God who is not surprised by these events. The Bible predicts that it is going to get much MUCH worse but those who know the God of the Bible have been admonished to: ..."when these things begin to come to pass, then look up, and lift up your heads; for your redemption draweth nigh." Luke 21:28..

This is important as the dam is opening on Left Wing opinion sites too. If we can see where Left & Right agree, perhaps we can gain their support with us - the developing True Center - not the phony center the

1%'s machine is promoting to establish a dictatorship using the Dem or GOP party's or whatever else as long as it works for their actual tiny minority and rule.

More from Jimmy Dore. Jimmy while an unabashed Lefty is enjoyed by some the Right because he doesn't hold back on the Left when lying, gaslighting, he is also enjoyed by some on the Left because he does the same with the Right. He also hits the To Bigs on the regular. No you won't agree with everything he believes 100% because if you have a head & life experience you most likely won't agree 100% with anyone person or organization you find yourself identifying with.

Jimmy was raising Holy Hell about censorship long before the Plandemic and defending the rights of the Right, and even Wing Nuts. The best way to recognize a wing nut is to have proper discourse from many corners to expose the obvious smell of Horse Spit. Jimmy has had the jab and has caught holy hell from this video & others because he reported his side affects & others close to him. www.youtube.com/watch
More on censorship, again bear in mind if it's possible for you, pay attention to the information you can see is true, hold more then one opinion at time; www.youtube.com/watch

Yes, JUST, in the end it is not about left or right to blame those who impede freedom. It is about imposing a democratic order proclaimed by any constitution. We do not want an elite of powerful who direct our lives in the Grest Reset, we want freedom of decision and tools provided by true science not imposed by the interests of a minority. One of America's leading physicians in the early treatment of COVID-19, his protocols and scientific papers are trusted to help millions of people around the world. Along with half of Americans, Dr. McCullough has appropriate concerns about the safety and efficacy of the COVID-19 vaccine.

Dr. McCullough is a prominent Baylor University graduate with a scholarship in his name; He is commonly associated as a source of pride for the Baylor Foundation and has appreciated Dr. McCullough's generosity over the years as a major philanthropic donor to the system. Many fellow physicians, nurses, and most importantly patients are outraged by Baylor Scott and White's attempt to damage Dr. McCullough's reputation and censor his important views of America and the world during a time of crisis. Free speech and scientific discourse are the foundation of progress in medicine, and

Baylor Scott and White's ill-advised lawsuit is an attack on civil liberties with serious public health and policy implications that go far beyond a lawsuit. . In the link Dr. McCullough's writings and interviews www.globalresearch.ca/.../peter-mccullough

It is about exterminating those who do not believe in vaccines, those who believe in freedom, those who do not want to become transhumans. This is part of the campaign the "fake news" campaign is not about protecting the public from lies, it is about establishing a state-run news network, as Dr. Mercola states "the truth of the state." a deep state full of interests for a devastating technocracy.

Posted On 08/07/2021

Guillermou

Despotic leaders can only stay in power by hiding the truth of what they are doing from the people they rule. On the contrary, there can be no meaningful democracy if there is only one centrally managed source of information with tyrannical control. The fact is, why do some people reject the COVID vaccine? According to the NYTimes, it must be that your thinking is deranged. It is possibly not because vaccines are less safe and less effective as a COVID preventive than well-proven traditional measures such as vitamin D, zinc, ivermectin, and hydroxychloroquine. It may have nothing to do with the fact that twice as many people have died from COVID vaccines compared to the sum total of all other vaccines in the history of the VAERS reporting system. www.nytimes.com/.../vaccine-skepticism-beliefs.html

Una portada de la revista Harvard fue escrita por un escritor sin formación científica. El título plantea la pregunta, "¿Se puede detener la desinformación?", Mientras ignora importantes preguntas preliminares, "¿Se debe detener la desinformación?" y "¿Cómo podemos distinguir la desinformación de la información?" y "¿A quién podemos confiar la asombrosa responsabilidad de discernir la verdad de la falsedad?" Los tres ejemplos de "desinformación" citados en la portada no son nada por el estilo, y de hecho son temas donde el cuestionamiento apunta a fuentes profundas de corrupción, que los poderes fácticos están más desesperados por reprimir. 1. "Elección en cuestión: ¿se robaron votos?" 2. "La hidroxycicloroquina es la cura para el COVID-19" 3. "Las redes 5G propagan el coronavirus" En este enlace se deposita la defensa de la verdad-

Gui currently in the States, for decades there has been a constant disruption of true open discourse. Things are carefully framed to limit those who can vote to a small minority who actually will vote. Those few have been trained to fall into hardened camps, along with camp of Independents who switch back & forth between the "two parties." Actually Siamese twins attached to the same brain fighting over who gets to suckle the money teat. While the average citizen is trained not to speak ill of ones own party the unseen reality is both parties are owned & controlled by the Power Elite & are completely Bipartisan if one follows policies favoring the Elite. The general citizen stands & shouts nonsense at each other while the Elite sit & snicker in their gated mansions. The general citizen fails to see, so what if we don't agree on 100% of the issues all the time & are herded up, kept in control from seeing what & where we do agree & exercise our ability's to be able to address those issues from a real & true Center. The current largest block of voters are those who don't vote either out of disgust, despair, or exhaustion from never ending corruption.

A favorite meme is "if you ain't 100% for me than you are against me." This attitude leaves little room to take on critical issues where we agree. The current situation leaves die hard party followers from never saying anything about issues we may agree on as it may help the "enemy." To be able to recognize our true Center would allow us to address mountains of issues polls shows we not only want but demand. Issues explored at Doc's site, & others. Jimmy saw far before this Plandemic the move to censor open discussion. I have no illusions those who have hardened views only their "side" has the truth will resent the links posted. Official party lines must be collapsing as their moves become evermore ridiculous. The behavior of those captured by fear more ridiculous. Dore shows how all lie, gaslight and ignore.

chiamiller

I have a moral dilemma; I need to tell a fib to get out of being in an enclosed vehicle with two people that have had the shot. I can't just tell them that I'm being cautious about the spike/graphene shed in protecting myself..(I have an autoimmune disease so I don't want to jeopardize my health..) That reason won't fly. I need to tell a lie to protect myself.... can anyone help me?...4 hours in an air conditioned car there and back?.. no way....that is not right. I do not want to be paranoid but God gave us a brain and we're dealing with a bioweapon...I'm in love with Jesus and don't want to let him down either...:-(

Posted On 08/07/2021

springy

I am just blown away, saddened and disgusted with all of this! I am a very healthy person, I don't take pharmaceutical drugs, never had a regular flu shot, I'm very healthy and never sick. Why would I want to be injected with this stuff??? If it's such a magical potion then those who get the shot should stop worrying about those smart enough to not get the shot!

Posted On 08/07/2021

because Pharma is offering a bounty for your scalp

Posted On 08/07/2021

Guillermou

Yes, springy, if the COVID vaccine is so effective, you shouldn't worry about the unvaccinated. The truth is that the vaccinated are getting infected and not precisely because there are unvaccinated people. In addition, the vaccinated are promoting new COVID mutations that they themselves will later suffer

It is that the globalist power is not interested in you, or your health, or your wishes, or your rights or expectations. And they have bought from your government and doctor. Anything else? Yes: no one will listen to you. When the internet connection is suspended, we may decide to go outside ... without a chinstrap and with something more forceful.

Es que al poder globalista no le interesas tú, ni tu salud, ni tus deseos, ni tus derechos o expectativas. Y han comprado a tu gobierno y médico. Algo más? Sí: no te escuchará nadie. Cuando se suspenda la conexión a internet tal vez nos decidamos a salir a la calle...sin barbijo y con algo mas contundente.

Posted On 08/07/2021

sunflowerjanis

Absolutely! I'm with you; i've had a distrust for Big Pharma, government and the western medical world since the 1990s when no doctor could figure out why i had chronic fatigue. Have never gotten a flu shot; so why in the hell would i take one of these concocted gene therapy (as Dr. Mikovits calls them) jabs?!!!! Speaking of Dr. Mikovits, i learned yesterday that she was in my area within the last 9 months or so. Wish i would have known; i would have loved to had met her. She exposes all the corruption in our government and in the vax industry in her Plague books. She's one of my heroes!! Ppl are rallying for vax freedom where i live. Found out that if the healthcare workers quit instead of being Covid19 jabbed; they Cannot collect unemployment benefits. They will be screwed. The lines are being moved

to suit the end game of getting everyone jabbed with the poison!! Time for REVOLUTION!!!

Posted On 08/07/2021

chk2000

I'm with you, healthy, in great shape, eat right/exercise/fresh air, on no prescription drugs. Just entered my 6th decade. In the last 8 years I developed two reportedly rare autoimmune conditions, one from an influenza shot and the other earlier this year, idiopathic unilateral facial paralysis, named after Scottish surgeon Dr. Bell. Still recovering from the latter. I have valid medical reasons to not get injected with experimental substances. Yet the pressure to do so is frighteningly intense and in the last TWO WEEKS the escalating venom and vitriol directed at those who have not done it has been horrifying to witness. Personally I have been looked at with disgust and disdain by so-called friends and some family members. The last two weeks have been some of the strangest days of my life as people are suddenly angry, agitated, and afraid to be near me. The TV told them it was all my fault, me and other non-injected humans. But wait a minute, you're all injected? What's the problem? The shots are "proven" to be extremely safe and effective, right? Why do you fear me? None of this makes any sense. Logic and reason has been thrown out the window.

In the last two days I have seen invitations to outdoor events have this caveat added: "Anyone attending who is *not* fully V'd must wear a mask OUTDOORS." I just shake my head. I thought these were intelligent people.

When has ever a government ever told the people the truth, they are pure evil, are and have always been. No wonder the world is in such situation, sad to see that in the XXI Century people still have the wool over their eyes, must shave it off and see the reality, if not, don't complain when we end up in the concentration camp,

like my friend's mum did, she lost her sister and parents never to be seen again, they were from Australia, ended up in Australia in 1950 from a few other places. people are asleep, but when it happens we will only have ourselves to blame, perhaps we will deserve it.

Posted On 08/07/2021

Guillermou

Sad, very sad, premiademar. It is shameful and unethical that the management of COVID-19 has been directed and coordinated by corruption networks and an organization that works on behalf of multinational corporations that will benefit, the idea that the fear of the coronavirus is the most important tool powerful to infiltrate people's minds.

Lies and corruption about an alleged epidemic. Robert F. Kennedy, Jr. and actor Alec Baldwin had an in-depth discussion on the current status of public health and COVID-19 including: • Lack of placebo testing in vaccine clinical trials • Exaggerated annual flu death data • Impact upon individuals and society from prolonged lockdowns • Dr. Fauci's 50-year history of favoring patentable solutions in health care • The history of pathogenic priming in coronavirus vaccine development attempts

This video is available.: childrenshealthdefense.org/news/truth-with-robert-f-kennedy-jr-episode..

Posted On 08/07/2021

premiademar14

Thanks for the Robert Jr video, I am not sure about Alec Baldwin, I think that he like most of the celebrities is from the dark side, anyways, I agree with Kennedy, like Dr Judy Mikovits they are really fighting this battle. I wish that the Drs and media would expose all the deaths from the vaxx, they won't, they keep inventing variants with new names to string this along...

One of those lies (that they are safe) was contradicted by congress just a few short years ago. Congress deemed them “unavoidably unsafe”.

Posted On 08/07/2021

Guillermou

The insecurity is evident. These COVID vaccines are not vaccines, but gene-modifying interventions. The anti-COVID vaccines only have authorization status for emergency use, they are experimental products, not to be marketed. The fundamental bioethical principles that are applied include three key components: 1. Bioethics is written in federal law: as a participant in an experimental trial, as is everyone who accepts a COVID vaccine, you have the right to receive complete information on the risks of adverse events indicated in the package insert. . 2. The risks of adverse events must be communicated in a way that you can understand what the risks are, this means that the disclosure must be written in plain language. 3. Experimental products must be accepted completely voluntarily and without coercion. "I consider that all these public messages that they bombard us with constitute an act of coercion," says Malone.

Gene therapy jabs as described by Dr. Judy Mikovits.

Posted On 08/07/2021

sisterrosalee

"Unavoidably unsafe" was the verbiage and philosophy that the Supreme Court used when they deemed that big pharma was not liable for damages to children who suffered horrendous injuries, They could not deny that the injuries were caused by vaccines as the proof presented was scientifically solid. They just determined their lives were quite acceptable as collateral damage in the war on germs. For the good of the whole, just like in Nazi Germany. The Supreme Court sacrificed these innocents (I wonder where you are today Antonin Scalia?) to the god of big pharma just as sure as savage pagans sacrificed babies to Molech to satisfy the wrath of the gods.

Posted On 08/07/2021

mihail

I keep hearing this. « The vaccine should not be authorized for children ». Doesn't that imply that it's good for adults? I'm sure a lot of folks will see it that way.

Posted On 08/06/2021

Guillermou

Hi Mihail. No to terrorist vaccines and less in children. A study published on July 7, 2021, which analyzed the deaths that occurred in children in the United Kingdom, during the first 12 months of the pandemic, found that 99.995% of children diagnosed with COVID-19 survived.

www.bbc.com/.../health-57766717 and www.researchsquare.com/.../v1

In a report, Mr. Mercola reported: as of July 19, 2021, in the United States, a total of 335 children under the age of 18 had died with a diagnosis of COVID-19 on their death certificate. An analysis by Marty Makary and his colleagues at Johns Hopkins, in conjunction with FAIR Health, showed that all children under the age of 18 who died and were diagnosed with COVID-19 between April and August 2020 had medical conditions. pre-existing, such as cancer. Although the average healthy child has a minimal chance of dying from COVID-19, and while their risk of developing heart inflammation from the COVID vaccine is also quite low, the vaccine-related risk remains far greater than any related risk. with natural infection. As Malone explained:

"That ratio comes to the fore by suggesting that there will be more lives lost from receiving the 'vaccine' in a universal vaccination campaign than there would be if all those children were infected with SARS-CoV-2. This inverse relationship appears to extend or be very close to being equivalent to at least 30 years. As Dr. McCullough internist, cardiologist, epidemiologist, and professor of medicine at Texas A&M School of Medicine, Dallas, states: "Here in the United States, we have 100 million people vaccinated (with bioweapon injections). COVID-19 so far). This is by far the most deadly and toxic biological agent ever injected into a human body in American his

A mí también me ocurrió reflexionar que si se planteaba que no era buena para los niños, el oyente pudiera dar por sentado que no lo era en razón de su edad infantil, pero esto confirmaba que sí sería conveniente para los adultos. Y tal vez elegir esta configuración para la expresión no fuera inocente. Las formas de la comunicación son una herramienta mas del poder, de manera que no sería excesiva su duda!

It also occurred to me to reflect that if it was raised that it was not good for children, the listener might take for granted that it was not good because of his childhood, but this confirmed that it would be suitable for adults. And perhaps choosing this setting for the expression was not innocent. The forms of communication are one more tool of power, so your doubt would not be excessive!

I believe we are devoting too much time and energy on numbers and percentages when we already know the facts. Prolonged negotiations while we are being set up for great harm, work against us I think.

Posted On 08/07/2021

angelenaorreygmail.com

My husband and I are both in our early 80's and have refused the 'jab' for all the reasons listed on this site and the pharma's refusal to take responsibility for the harm they are causing. Two days ago, we attended a birthday party with 10 other family members. Because of the heat we stayed indoors in the AC . All of those family members despite my trying to warn them, have all been jabbed twice. Yesterday we both began having cold -like symptoms ; running noses, sneezing and malaise. Before that visit we were well. I'm writing this because if there are those who don't believe the danger caused by 'shedding' , maybe they'll change their minds. We are treating this with ecchinacea and goldenseal drops , extra C,D Zinc Quercitin and an oil of oregano diffuser. And we are better than we were yesterday. Thank you Dr Mercola and all you wonderful people who post here everyday. You are a Light in this darkness . Many hugs; I wish they could be in person. I'm writing from Kitchener Ontario Canada.

Hello, I'm a respiratory therapist who worked with covid patients from the beginning and got sick just as they started vaccinating in Dec-Jan 2021. I highly suspect I've been exposed to spike protein shedding. Fortunately, thanks to being healthy with a normal vitamin D level and INSISTING on being given steroids, the lung ground glass opacities on my cat scan did not progress to cytokine storm and micro thrombi causing the deadly pulmonary embolisms they call "pneumonia" or stroke! This is a weaponized spike protein thanks to the NIAID funding of gain of function research that must be stopped at all costs before it literally stops us! There must be more research into this shedding of spike protein among the entire population not just menstruating women.

I still think we are missing something. I don't think the drug companies would use such extreme measures worldwide unless everything was at stake for them -- more than just enormous profits. They are determined to avoid having a control group of any significant size, hence vaccinating pregnant women and people who have immunity from having had Covid. It must mean that a control group would eventually show something that puts everything at stake for the drug companies.

I think dogs are the control group. Commercial dog foods do not have a choice to not optimize vitamin D levels; the supplements they add come pre-packaged from the pharm companies, and all of the packages

optimize D levels. I think the isolated cases of dogs getting Covid are in dogs that are fed non-commercial food and not given vitamin D. What the dogs are telling us is that with optimized D (blood level 110 ng/ml), they not only don't get Covid, they do not even transmit Covid.

www.dispatch.com/story/lifestyle/2021/08/06/should-my-dog-get-covid-sh..

I've seen an article from the Mayo Clinic that says there is a broad consensus that a D3 blood level of 100 ng/ml is safe for everyone. Even Dr. Mercola and grassrootshealth.net are too conservative here. The only explanation that puts everything at stake for the drug companies is that people with a blood level of 100 ng/ml not only do not get Covid, they do not transmit Covid. (D3 works by activating immune system genes that work preventively in the mucus. Since viruses have no DNA repair mechanisms, all you need to do is damage a part of it with free radicals in the mucus and it no longer fits like a key in a lock on an ACE2 receptor.) If I can't get Covid and can't transmit Covid, how can they justify forcing me to get a vaccine? What if the same is true for all airborne viruses? That would destroy the entire vaccine industry, justifying their current extreme measures.

While totally in the dark about dogs, I agree a larger point is being missed. As long time followers of this site know, Doc has taken on all the To Big To Fail's. Currently the gut says all the institutions are failing because they have not evolved to include anything beyond their short sighted selfish whims and a never ending hunger for more.

The gut is saying Vaccines were where they may have determined it to be the fastest and easiest way to step on the throat of the virus of an ever awakening public who has soundly rejected GMO's, sugars, artificial sugars, glyphosate, dis-ease maintenance 'med's', a phony allopathic digital either or choose

one side or the other political system all owned by the 1%, empty yik yak Legacy Media focused on the size of some celebrity's boobs, butt or who they are sleeping with, just too much nonsense to cover, yet no room to find public discourse or means to encourage the investments in the Foundations of Life that in turn create healthy peoples, who create healthy society's engaged in co-creation as Gardeners of Life. Not as confused and captured to engage in ever widening destruction and creation of Death Zones, Deserts, and Squalor.

Posted On 08/07/2021

StarPowerVitD

CORRECT! Vitamin D protects against BOTH the 'virus' and the 'vaccine'. You always have to appreciate that there may be an unrecognized variable that is operating to influence or generate your results. Vitamin D status is related to many of the factors that affect Covid. So called risk factors such as Comorbidities, age, race, seasonality are all variables related to Covid infectivity and morbidity. Vitamin D status is also related to each of these risk factors. Indeed, the thread that unites these disparate risk factors is vitamin D status. This paper detailed the exact mechanism through which the spike protein may disrupts endothelial cell integrity and how vitamin D protected and rectified that damage.

m.theepochtimes.com/vitamin-d-can-mend-a-broken-heart_3399060.html

Posted On 08/07/2021

StarPowerVitD

Regarding preventing infection: vitamin D is essential in the production of calthecidin, a powerful antibiotic on skin and mucous membranes. Vitamin D replete people don't get sick because their innate immune system, which includes calthecidin, is optimized.

Posted On 08/07/2021

os00

Really think the miscarriage data from NEJM showing over 80% rate in 1st and 2nd trimester could help turn the tide when women realize their loss was vaccine related. This should be a focus and the death of an unborn baby can resonate with people.

Posted On 08/07/2021

sunflowerjanis

Vitamin D3, lots of vitamin C, zinc, magnesium, NAC and my favorite colloidal silver which kills all pathogens. And a very low sugar/carb diet to keep from knocking down our immune systems helps.

fromseatoshiningsea

dav5185 - speaking of wanting to eliminate a control group, read this - it says precisely that toward the end of the article...principia-scientific.com/why-the-apparent-desperation-for-total-global..

Posted On 08/07/2021

dav5185

Thank you for the link, fromseatoshiningsea. I didn't have space in my note to explain better what could put everything at stake for the drug companies. They have already convinced the Supreme Court to accept that vaccines are "inherently dangerous", but vaccines must be used for the "greater good". Although revelations about vaccine dangers are important to us, all the drug companies need to do in court is show that the dangers are a small percentage, a small price to pay for the "greater good". Since the drug companies (and CDC et al.) control the data collection and statistics, they will easily be able to make the statistics show that dangers are a small percentage. The drug companies don't need to

destroy all control groups in order to cover up whatever they want to cover up -- we are seeing it now: adverse events reporting disappears or is rejected on technicalities, CDC decides not to collect certain data so they can make statistical claims that support their agenda, etc.

So the only danger to the drug companies is something that destroys the "greater good" argument. If people with a blood level of 100 ng/ml not only do not get Covid, they do not transmit Covid, the government cannot claim those people need to be vaccinated for the greater good. That is the threat to the drug companies. As I see it, this is the only way to defeat the "greater good" argument in court. The drug companies want the battle to be fought over dangers of vaccines, because they have proven they will win that battle with the tools and power they already have.

If I cannot get Covid and cannot transmit Covid, the drug companies must force me to get a vaccine. Then they can say that the fact that I cannot transmit Covid could be due to the vaccine, and their "greater good" argument will remain. That's why the drug companies are going to such extremes. They need to get rid of our last weapon against the "greater good" argument. If they can do that, they win.

The noble lie is key. Without the idea that some man or woman knows more than God and is then empowered to achieve an end (jab) is the end of free will. We've been in a global world order since chemical toxicity that causes disease and death. It's all man-made by very evil men.

Posted On 08/07/2021

mirandola

Sorry to go off topic, but this is URGENT! RED ALERT! CDC DOCUMENT

www.redvoicemedia.com/2021/08/cdc-publishes-green-zone-concentration-c.. This is rife with potential for abuse and is a very deep violation of freedom, no matter what the "case" may be or how it is interpreted.

~Please meet in small, peaceful groups with your local police and sheriffs and ask them what their intention is, to comply or not to comply? After first hearing their position, ask them not to. Tell them we pay them with our tax dollars, money talks, people "hear" that. Bring in educational materials and invoke the law. Read the bill of rights ahead of time and invoke it, particularly the 4th and 14th amendments.

~The States have power to nullify Federal law on State territory under the 10th amendment, ask State politicians to do that and not to comply. See the CDC document above.

~Wear masks, even if we all know that they don't work, because to alarm officials will only cause the mission to VERY STRONGLY backfire. We may know the science, but that is not the point here. The point is that people are very, very afraid of the virus. Work with their fear, let them know that not a single one of us has any intention of spreading any infection around...even if the idea of an asymptomatic carrier is just nonsense, so said by Fauci himself and the WHO. www.israelnationalnews.com/.../286920

As true as that may be, again the point is to work with their fear. Education is key, but so is assurance. With assurance and their comfort zone honored, they are far more likely to "hear" what we have to say. Education is key right now, not protest, and more so than ever before, due to the high-level climate of fear.

~Please send the document around to grassroots and lawyers on our side and ask for proactivity. Tell any underground journalists to offer suggestions about what to do, not just fear, which helps nobody. Thank you all.

Mirandola, I just printed out your link Doc to the CDC, the good old fashioned way. Clicked your link to Red Voice Media and clicked their link below video (which IS NOT blocked by the way): www.cdc.gov/coronavirus/2019-ncov/global-covid-19/shielding-approach-h.. Title "Interim Operational Considerations for Implementing the Shielding Approach to Prevent COVID-19 Infections in Humanitarian Settings" July 26, 2020 Print this Document folks. It is CHILLING!!!! Share with others.

Posted On 08/07/2021

arthurrieloutlook.com

" Education is key, but so is assurance." Assurance is obtained from education (e.g. masks do not work; asymptomatic people cannot infect you, etc.) not from pandering to, i.e. "working with" people's fear. Meet peacefully with and make your query to so-called "authority" figures (government operators; police, etc.) while unmasked, thus confronting them with the fact of a mask's inefficacy against viral pathogens. If they choose to refuse to interact with you because you are not masked, they are choosing to be closed to reason and facts. Don't waste your time with them. Instead, prepare yourselves to fight them to the death when they confront you with the intention of assaulting you in the name of "mask mandate and vaccine mandate enforcement".

Posted On 08/07/2021

Smiller23

Thank you for sharing the CDC link. So, "green zones" is the new word for concentration camps. And green zones are supposedly for the "good" of vulnerable populations. The idea of stripping people of their homes, families, rights and freedoms hardly speaks to "caring" for them. The detail of this report is cringe-worthy. I wonder what person(s) took the time to think all this through and actually write out this paper? Who edited it, uploaded it, etc? When are people going to say "no more?" Things like this cannot be formulated, let alone implemented, if people choose simply not to participate. Dr. Malone's medical/scientific brilliance has been leveraged outside of his control... I wonder if he now regrets participating in a system that used and discarded him?

Posted On 08/07/2021

mirandola

Thank you all, very much! Ann, grateful to you for your care and concern, this is not my link, it was

posted to an online news site. Thank you for the direct CDC link! One point to consider: They are proposing dragging people to a detention area with guards to make sure that medically vulnerable people (whoever decides that and watches for that anyway) do not walk out of the "Green zones"....based on medical vulnerability, not actual illness! As if illness is good "reason" to drag people away from their homes anyway? To repeat, this is about dragging people away based on vulnerabilities, not an actual occurrence of illness. It's so over-reaching and so over-broad, just ridiculous. I would want to hear what constitutional lawyers have to say about that, but as layperson it seems to me to be unconstitutional....from A to Z, and without so much as needing to qualify the illness matter at all, because even that is an insane over reach.

Look Here, Government. We don't Need You to Quarantine Us or Tell Us We Must "Shield". We will shield ourselves when we are sick! Leave us alone. Enough is enough, and too much is too much! FYI they would probably have to haul about 50% of the people away..... IMPORTANT: I suggest consulting lawyers or civil liberties groups before meeting. What to say in response as powers that be claim every right to anything they want, based on emergency declaration and suspended Constitution? Good lord. There has to be a legal answer to that, and We the TaxPayers don't go for that "Excuse" for abuse....that's really what it amounts to.

Dear friends please keep posting, your input is valued and appreciated. Got solutions? Please post. Thank you. FYI Respectfully, I think right now it is *far* more important to be well received than it is to "be right" about masks et al. Win the "battle" and lose the "war"? Or lose the "battle" AND Lose the "war"? FYI this is a figure of speech, we are talking about peaceful meetings here, not war or confrontation.

Posted On 08/07/2021

Javed

I have no solution, but what is the CDC, to have so much power over we, the people?

Did we elect them? Who are the people ready to have us arrested and put in concentration camps WITHOUT WAR even being present?

They are self- appointed, quasi government organisation, which apart of getting funds from the government (tax money) received private "donations". It's a front for the 1%, meddling with the life of the citizens, with disregard of any human and constitutional rights.

the use of Plato's "Noble Lie" by Malone is controversial for two reasons .. one is the translation of the term in Plato's parable as "magnificent myth" which contradicts the assumed "Nobility" that is accorded to this part of Plato's thinking and even more importantly Plato states categorically that while Rulers Lie the gods never lie . this puts a completely different focus on the discourse where human failings are to be seen in the context of godlike omnipotence the artificial strivings of the non godly is compared to the higher regions of moral deity Plato was basically discussing the myths that surround the religious texts and the potential for a positive interpretation of what otherwise might be seen as a "tall tale" Plato in discussing these fables and parables seeks to integrate their fiction with universal ideas which is very different from the use of propaganda to MURDER and cause serious bodily harm to the polloi I don't think that Plato who was aware of the subversive nature to society as a whole from the Sophists who denied morality through the agency of persuasive propaganda in order to promote self interest which is the basis of Modern Propaganda ... Plato would never have supported what is after all a form of brigandry and a license to extort

wealth for personal gain while the polloi is nothing more than an object of PREDATION

en.wikipedia.org/.../Noble_lie

fundamentalassumptions

The pagan gods ALL lie, being of the Father of Lies': of devils' & men's invention & will unsubmitted to Truth. That is the essence of idolatry & their many devices which promise freedom but bring only bondage. Colossians 2:8 & Genesis 3 KJB. It's all supposition & endless speculation, philosophy & traditions uninformed and unenlightened by God's revelation, based solely on the rudiments of the world: upon the sand & not the Rock. Their rock is not as our Rock the Holy Spirit revealed by Moses, as even the enemies of God & his people acknowledge of their own selves & 'philosophy'. Deuteronomy 32:31 KJB. Men willingly receive a bunch of incoherent mumbo jumbo mutterings & whispers, & a whole lot of 'maybe' w/ no 'thus saith the Lord' of their own unrighteousness & free choice which is why they are without excuse before the God & Spirit of Truth who are holy, holy, holy for rejecting the grace of conviction by those means. Romans 1; 2 Thessalonians 2 KJB.

But at least the pagan stoicks did not deny absolute truth & natural law evident in both the creation & conscience, & which point men to seeking God the Creator, Savior & King...the Godhead; which is necessary also to knowing & being known of the Lord Jesus Christ, he is God, & to sanity & personhood itself in its wholeness, created in the image of God with body, soul & spirit. This is why so many, though by no means all, were saved from the time Christ fulfilled the types of the sacrificial Law & through the long, dark, corrupt ages.

Men today have just 'evolved' their errors & hardened themselves further, stiffening the neck, to irrationally deny even evident & conscientious truth in willfully embraced insanity & not-knowing 'agnosticism', & all other such clever sophist cloaks & excuses, self-justifications for lack of repentance & saving faith. The blind leading the blind. The deceiving and being deceived.

steelj

The idea Plato would never have imagined the concept of the "noble lie" could be corrupted for dark purposes is beyond ridiculous. That such a statement came out of Malone's mouth just made my opinion of his thinking ability plummet. Which is disappointing because we need SMART people to listen to. Some might think I'm nitpicking and holding to an unrealistic standard. I disagree. We can all be wrong. We can all even have occasions we don't think as clearly as we should have. But it should be impossible to think Plato or any great thinker could be so stupid and naive. Ever. Such statements are expected from politicians and corrupt authorities, since they are poor excuses for human beings. Very disappointing from Malone.

Posted On 08/07/2021

What gets me is all these people (Malone, Mikovits...) were lab rats working on this wicked bioweapon! Don't forget that! How could they? Mikovits states the stuff was made with monkey virus but the truth is you can follow the facts right back to the 50's with the Polio vax I have been warning about (Simian Monkey Virus 40, which causes cancer on its own, hence the cancer epidemic). She states it goes back to the 90's but they all know it goes back decades. Read: The Virus And The Vaccine by Debbie Bookchin and Jim Schumacher. Read: Dr. Mary's Monkey by Edward Haslam and learn about the bioweapon Dr. Mary Sherman (fried from the Particle Accelerator she was using to create a bioweapon to kill Castro - fact!).... this is old news they (NIH) have hid from people for a very long time. I am glad these lab people are speaking up but never forget their jobs were to do experiments on animals (have you seen the pic of the dog

covered in cancerous tumors? What a sweet face and yet held captive for their twisted experimentation under the guise of getting us well). I don't know how anyone can go to work daily hurting animals or how about the ones who go to work daily and jab babies and people with poisons? None of them can claim ignorance or innocence before God. No job or paycheck will be the answer when they stand in judgement before God for hurting people and animals.

Posted On 08/07/2021

CMT367

You're talking like a rat yourself. You obviously don't know much about Mikovits. If she hadn't worked in a lab and written her books, she wud not be in a position to CHALLENGE Fauci, boss Collins, and the rest, which she is doing.

dr 007

Sarah Toy with The Wall Street Journal today published a patently false article claiming that some sham CDC 'study' in Kentucky of 245 patients 'proves' that the unvaccinated are over 2x more likely to become reinfected with Covid because natural immunity is very weak. The article mentions nothing about the fact that the CDC continues to push PCR tests with a CT of 40 for unvaccinated and only 27 for those who are vaccinated; thereby continuing to intentionally produce false positives among the unvaccinated. I would laugh if it wasn't so frightening that there are millions of mind-numbed robots in this country who are going to believe these lies!

Posted On 08/07/2021

brodiebrock12

Its like clockwork as usual. The mongers always place these psa's to appease the sheep into thinking what they need them to think. This is and has been the way all along. Anyone with the minimum amount of knowledge about immunology knows natural immunity is far superior than any man made concoction of toxins. Not much we can do about those who simply believe the mongers.

Posted On 08/07/2021

brodiebrock12

The problem I have is with any legitimate family doctor who believes an injection is superior to natural immunity. Talk about violation of the Hippocratic oath!

Posted On 08/07/2021

jws68662

This is a weaponized visus. Anything is possible, even becoming reinfected if one has natural immunity. This is a paradigm shifting event. So only those who are capable of meta thinking will understand the full implications.

Still Here

Looks as if the NVIC presentations have already been removed - all I get if I click on the link is a 404 error message in Spanish. I wonder if the idiots responsible for stifling all debate on the subject of vaccinations realise the effect they are having. As a 70-something in good health (achieved by listening carefully to all NHS advice over the past 38 years and then doing the exact opposite), I allowed myself to be double-jabbed because of a planned holiday to Ireland (they closed their borders regardless - so much for vaccine passports) and I figured I might not have that much longer to live anyway so was prepared to chance it.

Now they're talking about "offering" us repeated booster shots, to continue indefinitely. All that the

ensorship, propaganda and outright lies have achieved is to put my back well and truly up. I shall be telling them where they can stick their needles in future.

Questionit21

What I am witnessing is a Bioweapon War and it's not the Virus since no one can even provide a single sample that has been purified and isolated that has not been done in a lab. The Bioweapon War is from the Experimental Gene Therapy Inoculations which makes me wonder Covid 19 was all about massive roll-out of these Experimental Inoculations. The Delta variant is not a Variant at all since Covid 19 was never a Virus its actually those who got to Brainwashed to do any research and check out what these Scientists and

Doctors are saying however being Censored. The Delta Variant originated from everyone got the Experimental Inoculations that is being Transmitted to those who done their research and refuse to be a Short or long term Guinea Pig for Serious Adverse Reactions and Deaths.

Is it true that those who willingly accepted the Experimental Inoculations experience millions of Micro Blood Clots and its more serious than the bigger blood clots? Now been hearing a few ways to eliminate the Synthetic Spike Proteins and Graphene Oxide eg White Pine Needle Tea and Dandelion Oil it may allegedly destroy these Synthetic Spike Proteins and Graphene Oxide what about the millions of micro blood clots happening at a cellular level can anything on Mother nature side repair this?

Posted On 08/07/2021

Your comment, Questionit. links to information from Dr. Mercola and Dr. McCullough internist, cardiologist, epidemiologist, and professor of medicine at Texas A&M School of Medicine, Dallas, TX, USA Since the beginning of the pandemic , Dr. McCullough has been a leader in the medical response to the COVID-19 disaster and has published "Pathophysiological Basis and Rationale for Early Outpatient Treatment of SARS-CoV-2 (COVID-19) Infection." first synthesis of multi-drug sequenced treatment of SARS-CoV-2 infected outpatients in the American Journal of Medicine and subsequently updated in Reviews in Cardiovascular Medicine.

[rumble.com/vhp8e1-massive-world-renowned-doctor-blows-lid-off-of-covid..](https://www.rumble.com/vhp8e1-massive-world-renowned-doctor-blows-lid-off-of-covid..) Dr. McCullough states: "Here in the United States, we have 100 million people vaccinated (with COVID-19 bioweapons injections so far). This is by far the most deadly and toxic biological agent ever injected into a human body in American history." www.globalresearch.ca/renowned-texas-professor-doctor-covid-19-shots-b..

To Health Impact News readers who have been following the topic of vaccines for years, and following holistic physicians who have been warning about the dangers of vaccines in general, and the eugenic plans of globalists in deploying the COVID-19 biological weapons in particular, there is probably no new information in this interview with Dr. McCullough.

www.globalresearch.ca/renowned-texas-professor-doctor-covid-19-shots-b.. Peter McCullough, MD, MPH talks to Laura Ingraham about the CDC admitting that vaccinated people can transmit Delta and how Dr. McCullough is being sued by BSW Health for the media and meeting appearances.

Loads of cruise ships with Covid positive guests and crew. Most (all?)vaccinated. What will happen when airlines mandate double jabs. You won't know who has what and your chances will be pretty good on a long haul flight of sitting next to a Covid positive passenger. One cruise ship captain dead post Covid. Happy days.

Posted On 08/07/2021

sai73491

The data on deaths among the vaccinated as well as those who are dying because of close proximity to the vaccinated is not being reported. I know of two deaths personally of those who got the jab. I just learned that an extended family member died: a healthy, 30 year old marathon runner. She was unvaccinated and we surmise that she was infected with what the vaccinated are exhaling. It's potent to bring down this healthy young woman.

Posted On 08/07/2021

vitalwoman

This article brings up the conundrum about this whole COVID situation that has had me stumped for a long time – which is simple math. I mean really, really, reallllly simple math. Like this: $1 \times 1 = 1$, right? And, $1 \times 1 \times 0 = 0$. So, the drugs companies said, right from the get go, that the “vaccines” would NOT give a person immunity from the disease, from COVID-19. Just lessened symptoms, should they catch the virus. They said that right from the start. And they STILL were willing to use the word “vaccine” to label their mRNA concoctions (I will not use the word therapy here because I don't see anything therapeutic about spike

proteins that give you myocarditis, even if they don't kill you within a week or two). But, actual vaccine or not – giving earlier vaccines, like for smallpox, the benefit of the doubt – they still admitted that the jab would NOT grant you INDIVIDUAL immunity.

So, the math: 1 jab (or group of jabs) x 1 person receiving the jab x 0 immunity per jab = 0 immunity for that person . WHICH, LOGICALLY, MEANS THIS: 1 x 10,000 x 0 = 0. 1 jab x 10,000 people receiving the jab x 0 immunity per jab = what???? ZERO HERD IMMUNITY. Yeah. 1 x 10,000 x 0 = 0 And this has been right there in front of everyone's faces this whole time. So how is it NO major media people have made this oh-so-obvious observation? I guess the pressure to NOT think for themselves must be pretty severe. "Pay no attention to that man behind the curtain."

Another lie is that covid is contagious. The shot is making people sick.....just like the buildup from previous vaccines.

Posted On 08/07/2021

Arthur D. Yaghjian

Seems to me that Dr. Robert Malone is stating the obvious: 1) If one has very effective remedies, herd immunity is irrelevant. 2) Herd immunity can be obtained without vaccines if enough people get the virus. 3) The Covid-19 vaccines received quick emergency approval so that there may be side effects (long term and possibly even short term) that could occur. Unfortunately, Mercola reports selectively what Dr. Malone says. Malone also says that the mRNA vaccines are very effective, have prevented a great many deaths, and he would recommend them for older people. He recommends that younger people be more cautious and weigh the risks of vaccines versus getting the virus.

Posted On 08/07/2021

Astonished

The biggest lies are in the terminology and the “science” applied:

- (1.) These are not vaccines.
- (2.) These are not “genetic therapy”; these are genetic manipulation used in a bioweapon.
- (3.) Herd immunity is a myth; one of the several hundred medical myths that tend to go obsolete every few years. I have seen it happening in the last 50 years.
- (4.) These are not experimental injections; they have been obviously developed after 911 and the outcome (genocide) is well-known even for those who can read and think a little.
- (5.) The lockdowns and the insane payouts, from the very beginning, obviously targeted small and medium-sized businesses. After their destruction, work and goods will be available only through multinational corporations that can, and will, mandate whatever they want to. It’s happening.
- (6.) It is also misleading to focus on miracle medications for what is, in fact, graphene oxide, 5G, and military radar poisoning.

(7.) The Miracle cures, in the long run, are just as effective as peeing on a house fire.

(8.) #6 and #7 also give false hope and fake empowerment against this combination of weapons, thus soothing a population that otherwise might revolt.

The list goes on, everyone is welcome to contribute.

Large-Scale US Naval Exercise: Desperate Attempt to Demonstrate Global Power... On August 3, the U.S. began its largest naval exercise in the last 40 years, the Large-Scale Exercise 2021. It involves five naval formations and the Marine Corps across 17 time zones. Another 25,000 soldiers are also participating in the exercise that will end on August 16. According to Stars and Stripes, the last comparable exercise of this magnitude was the 1981 NATO Ocean Venture.

Vice Admiral Gene Black, the commander of the 6th U.S. Fleet, said: "LSE will test our commanders across the spectrum of naval warfare from the tactical to the strategic, integrating the Marine Corps to demonstrate the world-wide fleet's ability to conduct coordinated operations from the open ocean to the littoral." www.globalresearch.ca/large-scale-exercise-2021-us-desperate-attempt-d.. yeah the american way..."if we can't buy them than BOMB them...." with that coc k sucking Biden in and that c)nt Harris world war 3-4 is on its way...YES.thye need a WAR to get the worlds eyes and ears and already twisted minds off balance so the US will push and push to upset and start a war its a must do before the 5G starts to kill what ever is left standing.... Replying to gypsyluv. It seems that the majority of the frequent posters on here are in their own little world of trying to show each other how much they know and how many links they can share. Sharryl Attkisson (an independent investigative reporter) polled every lab in the world with the capabilities of isolating the virus that the "Noble powers that be" want us all to believe in and to fear. Every one of these labs responded that they were unable to do so. That is; they were NOT able to isolate any virus from all sources presented to them. I have read that the "Covid test" was produced using a combination of human tissue and a simple strain of the common cold, that would seem to mean that a lot of people would, of course, test positive.

So, having said all that, the narrative I just described wouldn't give the posters with the mostest much to discuss, would it? Not as much fun as wringing hands over their iron levels, and on and on and on. They seem to have a lot of time on their hands. I don't, so will end here.

Posted On 08/07/2021

CMT367

Catspring...If you are going to assert that the "Covid test" was produced using a combo of human tissue and ...strain of the common cold." YOU NEED TO CITE A SOURCE... The numerous posts to vid info links is useful to many of us who don't have time to parse thru all the search hits for info on covid. I find some of the links very useful. Like you I dont' have a lot of spare time..

My lovely new Naturopath (no more medical doctors for me) has taken me off Vit D because of the lab result at 186 nmol/L. The Lab state "normal range" at 75 -150 nmol/L. I was taking 3000 IU's twice daily and lots of Vit D via food. I don't feel safe without it! Why the worry about toxicity of Vit D? Any thoughts out there will be much appreciated.

Posted On 08/07/2021

riskbenefit

Dr. Malone is certainly well-qualified by education and experience to form opinions on COVID as a transmissible viral disease and on the appropriate role of vaccination in mitigating its impact. He states very clearly that he is a vaccinologist and has devoted his entire career to this branch of medicine.

He clarifies his position on appropriate candidates for COVID vaccination at the 43 minute mark in this video and urges viewers NOT to misinterpret his recommendations.

Dr. Malone: "What vaccines do do and it's not a small thing, it's an important thing. If you're somebody who gets infected and you have been vaccinated the chances if you being hospitalized or dying are far, far lower.

"There is no question that these vaccines have saved a lot of lives. Please don't misinterpret anything I am saying.

"If you are somebody who is at high risk for disease and death, please do strongly consider getting

vaccinated because the risk benefit ratio favors that.”

Dr. Mercola, I admire you for featuring a doctor whose opinion on the beneficial role of COVID vaccination for appropriate individuals differs from yours, but your selective editing of your lead-in to the video in which you call out his opposition to the vaccination of children and young adults, yet fail to acknowledge that he believes that adults at high risk of disease and death should “strongly consider getting vaccinated” is, in my opinion, very and deliberately misleading.

I urge you to consider whether in this instance you too are engaging in a “noble lie.”

So the world is almost in the devils hands. So sad to think of all the so called powerful people who will be spending eternity with the devil; who hates humans. Can't imagine their despair when they know they will suffer forever and ever.

Best not to take Satan's "vaccine".

Posted On 08/07/2021

pjmaugirl

The noose is being tightened as some that have refused the vaccine are losing the right to continue to do the work that supports them. California has mandated all health care workers be vaccinated by the end of next month and removed all options for weekly testing in lieu of vaccine. I worry for a wonderful nurse that I know. Other small businesses in the construction related industry have lost lucrative contracts due to not having vaccinated employees. I know of one person who, having already had covid just went out and got vaccinated for the sole reason to be able to keep these contracts. This doesn't even begin to address all the small businesses that have folded in the past year due to restrictions. And in some places you can't participate in activities such as sports for children, concerts, eating in restaurants. Will they deny access to grocery stores? I will put nothing past the psychopaths behind this.

He didn't have to get the bioweapon. WE HAVE EXEMPTIONS IN THIS LAND FOLKS! DON'T LET ANYONE FOOL YOU! Look up the Nuremberg articles. Also, go to: thehealthyamerican.org and get the exemption forms needed. Peggy Hall has good vids on YouTube as well. He should have taken the few minutes and searched this out before getting the bioweapon filled with graphene oxide. Now, he would be smart to detox bigtime.

Not even with those ... With death we already have: we know of our mortality. We have also chosen to die with our total integrity. We have decided, in case of not being able to with our health, that we will choose an unofficial medicine, because we do not trust doctors who respond to corporations rather

than to our need. Modern scientific medicine has become corrupted, like so many beautiful dreams that humanity has had. It has always been an alternative: true medicines are millennia old.

New paragraph. The coverage that these merchants can give I do not wish even my enemies. And I hope that nobody pays them to kill them by superior order: it is time to act accordingly. And finally: that dying at home is no worse than doing it in inhumane conditions in one of their dens.

Ni con esas...Con la muerte ya contamos: sabemos de nuestra mortalidad. También hemos elegido morir con nuestra integridad total. Hemos decidido, en caso de no poder con nuestra salud, que elegiremos una medicina no oficial, porque no confiamos en médicos que respondan a corporaciones antes que a nuestra necesidad. La medicina científica moderna se ha corrompido, como tantos sueños bonitos que ha tenido la humanidad. Siempre ha sido alternativa: las verdaderas medicinas tienen milenios de antigüedad.

Punto y aparte. La cobertura que puedan dar esos comerciantes no se la deseo ni a mis enemigos. Y espero que nadie les pague por matarlos por orden superior: ya va siendo hora de actuar en consecuencia de lo sabido. Y finalmente: que morir en casa no es peor que hacerlo en condiciones inhumanas en uno de sus antros.

Plato's Noble Lie I think is more about "The Greater Good" than "The Common Good." In TGG, some are sacrificed for the benefit of others, which is called Utilitarianism. For a good to be common, it must be shared by all. The article should read "It [the noble lie] refers to the notion that, in the case of high-status individuals or designated public leaders, it's acceptable to lie if the lie is made in the interest of the greater good."

Ideally we would like information like this to be going to doctors around the world and politicians that have power to fight back. Sadly I have been reporting information from doctors, scientists and even the creatirs of these vaccines to be rea.d by as many as possible in my own contact areas, and yet it continues to spiral down roads that it shouldn't be. We need many like Senator Rand Paul driving forward with the truths that people should know.

"FDA Dismissed Malone's Vaccine Warning....." If this is true (and we know it is) then there would be no reason to not "approve" the GMO treatment. That should speak volumes about the agenda. And that an unapproved medical experiment is being mandated IN ANY SENSE should be ringing alarm bells in Congress and our friends and neighbors. Since it is not I am deathly afraid of our collective future.

Posted On 08/07/2021

"we're now seeing the noble lie "play out in a way that Plato could never have imagined," Malone said." Like most who read Mercola, I'm looking for honest information from smart people who can figure things out, and provide top-notch guidance. Then I read Malone, who I have considered a very important source, say the above and I wonder WTF, this guy isn't very smart after all. Plato, and Malone should know this, was beyond smart. He understood things. To think he would never have imagined the "noble lie" would be corrupted for nefarious purposes is really stupid. That sentence could never emanate from my mouth, I'd choke on it first, it's ridiculous. My opinion of Malone just went way, way down.

If someone has evidence that Plato was this stupid and naive please let me know, as I will be happy to admit it when I'm wrong. I read a good bit from the Greek philosophers but it's been a long time ago. Mostly I remember these guys were over the top smart and their thinking was way more sophisticated than anything we see today. But I'm not an expert on Plato. I do know only a fool would never imagine the "noble lie" could play out this way and to think he (or Socrates) was as far from that as you can get.

In a conversation I overheard of elderly people who were very ill, they were joking around about making their last will and then getting the jab. There were people who were in extreme discomfort, spending a fortune on medical bills and not getting any relief. Another person told me that many older people are seriously thinking about doing this. They are tired of supporting the corrupt medical community and leaving their families destitute due to medical bills. If the word gets out those in charge of the reset will panic. They believe they are the only ones who can take away human life, and they don't like not getting their hands on money,

We just sort of gloss over terms such as 'genetically modified mice'....or the \$4 billion Pfizer made in profits last quarter due to the 'vaccine'. The lying, censorship, deceit & manipulation has been going on for time immemorial. The temptation, & power to manipulate & harm others, is just greater as knowledge increases & technology 'evolves', but the corruptible nature of man remains unchanged, & largely unsubmitted to God, or even to evident truth in the creation & conscience.

We suffered illegitimate abuses w/o pushback from the revision committee to the later reception of the merchandized word w/ the ARV, from Erasmus Darwin & craft bringing back changeling & pragmatic antichristian, anti-mankind philosophy & non-ethics with his Zoonomia dream; from Keynes w/ his 'love beyond Christian understanding' & opportunity for obscene, short-term & illegitimate wealth by knowingly selling out the future; Freud & those who illegitimately capitalized upon & piggy-backed on all of the above w/ their sorceries & devices; to the dehumanizing things we see today.

Promoting fornication to the end of a harvestable market of human flesh to the end of 'genetically modifying' mice as ethical perverts pursue immortality by some means other than the only legitimate.

Kinsey's criminal fraud was promoted to the same end. Mankind was freed & elevated by the influence of the Gospel, but rejected it, & is being devalued & merchandized more & more as of old.

The land is thrice polluted: with Baals of Peor fornication on down to sodomy, the blood of innocents, to the mingling of seed: iron & clay...& to think that God will suffer that, even & as the perpetrators & receivers of their bribing ill-gotten gain, proudly refuse to repent & shake their fists at God, loving their sin, turning from convicting whole truth as winking hypocrites....is folly & vain. God is not a man that he should lie & w/o acknowledgement of the real issues, the judgment will continue unabated as written.

chk2000

Are there any studies to show that it is safe to combine two different type of vacc technologies? My guess is no. I just read about a 65 y.o. actor and former Mr. Universe Mike Mitchell who was injected with Sinovac in February and March. He then was advised to undergo Pfizer "booster" which he had on July 16. He wrote on social media "that was my third jab today. Proud to be part of this experiment to save lives'. He died of "natural causes" on July 22.

Posted On 08/07/2021

srousso2

But what do we do with the majority of people who are non-compliant to lifestyle change to help regulate their immunity? I am a holistic nurse and teaching people about lowering their BMI, eating healthy clean diet, clean water and air, lowering stress levels, moving their bodies, eliminating sugar, etc. doesn't always work. People fear change more than death sometimes. The vaccine does show it can prevent serious illness. Vaccination has helped decrease the hospital burden for healthcare workers and patients with other conditions. It would be unrealistic to think everyone has access to the above. Weighing out risk vs benefit must be considered. It's complicated and no same answer for all. I've seen a lot of rigid black and white thinking here.

Posted On 08/07/2021

fundamentalassumptions

It did not decrease the hospital burden. The response to the 'pandemic' was replete w/ fraudulent testing, misdiagnosing, & mistreatment. Other than the 'covid floor' or ward, hospitals sat largely empty for months, going broke while patients suffered alone. If you truly work w/ patients in a healthcare setting, then you know this. Noncompliant people have the right to face consequences for their own choices, particularly after repeated warning & merciful reprieve. What we are talking about here is some class of person, just as corruptible & prone to error or sin, making irrevocable life & death, or debilitating personality-destroying choices for all others....nay, FORCING them upon all others by stealth & through deceit. All premeditated.

Viable, & cheap, treatments were ignored, then vilified, as they were found to be effective, while the ventilators, tho ineffective for the symptoms, were exclusively promoted for treatment. Government contracts & bail-outs were the response, but not to 'save' all lives, as these were selectively awarded, & to the end of transferring wealth, collapsing the system in order to build it back to the saving of fewer lives.

People w/ chronic conditions waited at home in fear, w/o their regular treatments. Some died there. Some were unfortunate enough to make it via ambulance transport to the hospital where they died being ventilated: because of remuneration guarantees, not for any benefit for their actual condition. Immediate ventilation for a heart attack was the reaping of the benefit in the instance I am personally aware of. People in healthcare speak of these things in whispers, & of what they are seeing in the 'vaccinated', or experiencing. They know there was nothing of standard of care in these things. It is for these reasons that the resistance is so significant & widespread to the shot, no longer just in forums like Dr. Mercola's. The goal was, & is, to 'transform' not just the healthcare system, but mankind themselves.

Posted On 08/07/2021

JuQuDC

srousso2: Please document cases in which the "jab" shows it can prevent serious illness. What about the deaths of those already jabbed? As for the "burden" on hospitals, do they treat with Ivermectin or protocols which can often help? I don't care for black and white thinking either. I do see strong opinions

expressed here and overwhelmingly opposed to the current trend to mandate the jabs. Perhaps you are trying to be even handed, but you seem to me to be locked in to your opinion too. Do you support the mandated jabs?

arthurrieloutlook.com

srousso2, "But what do we do with the majority of people who are non-compliant to lifestyle change to help regulate their immunity?" You leave them alone to deal with the consequences of their choices, out of respect for their legitimate individual rights to self-ownership and personal liberty--the same rights that you possess. They are not your slaves to "do with" what you wish "for their own good" or for any

other reason. "The vaccine does show it can prevent serious illness" Please provide all of the evidence from objective, i.e. scientific studies that irrefutably proves that the COVID-19 "vaccines" are truly vaccines, and that they "prevent serious illness". Vaccinations that actually immunize people contribute to a "decrease the hospital burden for healthcare workers and patients with other conditions" that you are concerned about. These so-called "vaccines" have caused the opposite to occur. By design !

Posted On 08/07/2021

Beentheredonethat2

The way I see this...If you SURVIVE the jabs , you still have to mask, isolate, blah blah blah. You understand it doesn't stop transmission, give immunity, keep one from getting re-infected, so why take something that has a higher risk of death than the supposed disease, which has never been isolated in the first place, at least not that I am aware of. Like you said. "Weighing out risk vs benefit must be considered. It's complicated and no same answer for all." Don't worry so much about other people that are old enough to make these decisions for themselves. I've seen a lot of rigid thinking many places these days as well, but in the end only you know what is best for yourself. Liberty is a wonderful thing! Peace and Blessing to you.

Posted On 08/07/2021

Beadhead

It is telling that your comment fails to mention clinically proven treatments for SARS-2-CoVID disease, when the MATH-2 and vaporized hydrogen peroxide protocols are well known, effective and inexpensive treatments. While the vaccine may have prevented serious illness in some, it has also killed and injured many others, a fact you also fail to mention. Yours is a very one-sided analysis, an example of the very "rigid black and white thinking" you complain of.

Posted On 08/07/2021

Beentheredonethat2

But what do we do with the majority of people who are non-compliant to lifestyle change to help regulate their immunity? Well after you explained it all to them, then all you can do is be encouraging but not pushy. That was all that I was trying to convey. BTW, I worked in dialysis for 30+ yrs and my wife is a certified wound care specialist and neither of us are going to take the injected gene therapeutics. My next door neighbor had numerous health issues and decided to take the jabs. He died 2 weeks to the day after the second administration, but of course it wasn't due to the jabs. To me, its highly suspect as he'd managed his health issues fairly well over the past several years...but it was his risk, life, etc...and he paid the ultimate price. Like the old saying goes, No one gets out of here alive! I could give more examples of how this is being manipulated news wise as well, but I am pretty sure each of our minds are well established in our beliefs and facts. Meant you No disrespect. Peace and Blessings

Question . . Is It Ever OK for the Government to Lie to You? During 2009 I published as a free PDF; The Road Ahead from a Grass Roots Perspective. Chapter 12 The Responsibilities of Government, and Chapter 13 A Clear Set of Rules for the engagement of Government Departments. . . My debate opens thus: "That where a government department or other Federal agency of the United States infringes United States patents and fails to act with the highest ethical standards towards the inventor; Is that government department Ultra Vires? Beyond the law? Having asked myself that question, another immediately came to mind: Surely there is the need to create a framework of appropriate rules; to ensure that in future, at all times, government attorneys always act to the highest ethical standards in their dealings with inventors granted United States patents? (My debate you will see, will apply to all nations)."

Today it is crystal clear the question retains it's intellectual strength for all aspects of any government action. The primary debate is set out in these two paragraphs: "Intellectual property is protected by governments, who produce law. That is the role of a government; to produce law. We, the citizens of those countries, agree to abide by the law and accept that our actions have a pay back that permits us to live our lives within the framework of the law in peace and without disruption from anyone, including our respective

governments. That abiding with the laws enacted by government, is a very simple and basic requirement of citizenship.

That simple statement carries us into our relationship with any government; for to be the font of the law requires that a government must abide with any and all law itself. This is not a negotiable; this is fact, for if any government ever turns away from the rule of the law it enacts, its very legitimacy is destroyed. Governments must abide by the law they enact for the whole concept to work." chriscoles.com/page3.html

I suspect, as is the case with many high-functioning, high-status 'academics', that the 'herd INSTINCT' is what prompted him to get vaccinated WHEN he did. And timing IS everything. This invisible, prompting instinct is innate in humans, and very, very difficult for most to resist. 98% of humans NEED to perceive others (whom they in some way identify with, esteem, rely on for knowledge, etc.) as doing or going to do what they are thinking about doing, and then they WILL do it. At this point, subjectivity is lost, and folks just 'go with the herd.' Don't laugh, this is a real phenomenon, and is why humans need capable and caring LEADERS. Education, income, race, ethnicity, gender, etc, have NOTHING to do with the

catalyzing of this powerful instinct, save one perplexing variable. And that characteristic is NOT one that is accounted for in research. That variable is wisdom. Wisdom comes from two coalescing sources. The first is the least important, and that is a function of experience, which in humans comes typically with age, although it can be had vicariously. So 'older and wiser' is the saying. The older we are, the more likely we are to accurately sense the motivations of others. This is why you may be distrustful of this the 'expert' in the pod cast, by the way. But the second component of wisdom is the most important, and that is fear of G-d. Proverbs 1:7 "The fear of the Lord is the beginning of wisdom." But there exists a corollary to this elixir of acumen, and worthy of noting given the times we are in. Isaiah 5:21 "Woe to those who are wise in their own eyes, and clever in their own sight." All genuine truth comes from G-d. And His calling card is wisdom. We need to not "speak our own truth," but speak the truth of G-d. Don't rely on the church to do this for you. Matthew 6:33 "But seek YOU first His kingdom AND His righteousness ... "

Dear Dr. Mercola, We support you in any ways and the military will destroy the evil criminals soon. So please stay firm and don't let them - United Nations, shadow CIA in Switzerland, WHO, UK government, other shadow factions insider of CDC, FDA, FBI, IMF/World Bank, BMGF (this foundation will be defunct), and any other criminals and traitors related to the global crime - destroy you. The criminals are desperate now as the big shot, Bill Gates, is arrested and will be executed, also George Soros has been executed. Please rest assured that you and we will win this war. From September my team will join this war, we don't stay so inactive as have been so far. The final countdown to destroy all the evil institutions has begun.

Astonished

Half of the military has been injected and it can annihilate itself at the push of a button.

I am 66 and my husband 70. We are both in fairly good health. In all these conversations our age group is not being mentioned. Because of our age do you believe we should get the shots? Bring us in on that conversation. We take our supplements, exercise and eat well.

stanleybecker

this whole pandemic/scamdemic revolves around people of your age .. where have you been this last 17 months ???

nothingsound

I understand what you are saying. But did you know out of the 12,000+ deaths reported on VAERS the majority is in our age bracket? The answer is no. NO NO NO. Just plain NO. No one should receive this jab under any circumstance. All is a lie. I am sorry and so saddened that I cannot share with you all the articles of Dr. Mercola I had saved that speaks on what supplements you should be taking and the protocol for defeating it.. I will ask if you are taking D3 with K2 and magnesium? All three are needed for ultimate bodily use of the D3. I hope this helps. I may not have the knowledge of others on this page, but they have all assisted me in keeping myself in excellent health. Do not let age be a barrier to what you are to do. If you want the current stats on VAERS go to Children's health Defense.org. Robert F Kennedy sends out every Friday what is happening.

love2garden

NEVER take this jab, as it is NOT a vaccine, but rather a bioweapon. That is unless you want to take a quick exit from this realm.

How about if you take the number of nursing home deaths out of total deaths for your age group? Those deaths in many states were caused by the actions of the governors. Of course, age can be a factor because of declining immunity and other possible cofactors, but, I don't see the death sentence that the government/media declares inevitable for unjabbed seniors. Continue to live a healthy, happy life. Do not cloister yourselves from others. Try not to fear. Look at the recovery rate for your age group and breathe free.

Taking this shot would be like committing suicide. Don't do it if you want to live.

You can not let someone else make these decisions for you ma'am. Do your own due diligence, and then you and the hubby can make an Informed decision as to what is best for you. God gave us all a brain, and its high time that folks start using them. No disrespect intended. Wish you well.

Señora sgfattouh, si ud. está pidiendo un consejo, creo que no hay por qué negárselo argumentando que debe tomar sus propias decisiones, como he visto que le han respondido. Ese consejo ud.lo seguirá o no según resuelva. Y ya no es competencia de la persona que le aconseje. Inclusive, tal vez ocurra que necesite pedir más información para comprender completamente las alternativas, y si ud.la pide, razono que una persona de bien que disponga de ella debiera proporcionársela generosamente, u orientarla hacia fuentes de información confiables y proporcionadas a sus conocimientos de base. En la página del doctor Mercola ud. sabe que puede hallar la información ideal, pero como bien aclara el doctor, la información no reemplaza a la consulta médica, y debiera disponerse de un médico capaz de aconsejar profesionalmente a su caso, y tal vez no ocurra eso, y por eso consulta aquí!

Muchas veces no se tiene la paciencia de compenetrarse con la particularidad de alguien que no maneja los hilos de una situación dada y que son, como en el caso que nos ocupa, de una complejidad

tan inusitada que hace desvelar a los mismos especialistas que están dedicados a eso por oficio, y qué decir de alguien no profesional!... De modo que alguien profano, pero que necesita saber para poder decidir, y que lo está pidiendo muy correctamente, pues de ello siente que puede depender su vida, no debiera ser desairado. Personalmente, no me he vacunado ni lo haré, aunque mi caso no sea similar al suyo. En otros comentarios expuse razones, pero hay comentaristas muy calificados que le sugiero lea, si aún no la hecho.

Mrs. sgfattouh, yes you. he is asking for advice, I think there is no reason to deny it arguing that he must make his own decisions, as I have seen that they have responded to him. That advice you will follow or not as he decides. And it is no longer the responsibility of the person who advises you. It may even happen that you need to ask for more information to fully understand the alternatives, and if you ask for it, I reason that a good person who has it should provide it generously, or direct you to sources of information that are reliable and proportionate to your knowledge of base. On the page of Dr. Mercola you. You know that you can find the ideal information, but as the doctor clarifies, the information does not replace the medical consultation, and a doctor capable of professionally advising your case should be available, and that may not happen, and that is why consult here !

Many times you do not have the patience to understand the particularity of someone who does not handle the strings of a given situation and who are, as in the case at hand, of such unusual complexity that it makes the same specialists reveal that they are dedicated to that by trade, and what about someone not professional! ... So someone profane, but who needs to know in order to decide, and who is asking very correctly, because he feels that his life may depend on him, should not be snubbed. Personally, I have not been vaccinated and will not, even if my case is not similar to yours. In other comments I gave reasons, but there are very qualified commenters that I suggest you read, if you have not already done it.
