cattle! The highest concentration of “covid/virus” in the world right now, and it has the highest concentration of vaccinations also. Huh. Any billionaires - who pay & control the politicians in western governments. Klaus Schwab has said his club of around 2000 billionaires Of course, the goal is to inject everyone in every EU country. Ursula von der Leyen - unelected - now says all of Europe must submit. Her people and they are picking off groups selectively. Austria  told the entire nation they must get injected whereas Italy said that those who comply. There are 3 groups, roughly.

I saw this on a UK website. It's so good! : The third dose increases immunity, so after the fourth dose you are protected. Once 80% of the governments ignore the damage and death caused from the mandatory vaccines.
